The Emotion Thesaurus: A Writer's Guide to Character Expression (2nd Edition) Becca Puglisi, Angela Ackerman, 2019-02-19 The bestselling Emotion Thesaurus, often hailed as “the gold standard for writers” and credited with transforming how writers craft emotion, has now been expanded to include 56 new entries! One of the biggest struggles for writers is how to convey emotion to readers in a unique and compelling way. If you need inspiration for creating characters’ emotional responses that are personalized and evocative, this ultimate show-don’t-tell guide for emotion can help. It includes: • Body language cues, thoughts, and visceral responses for over 130 emotions that cover a range of intensity from mild to severe, providing innumerable options for individualizing a character’s reactions • A breakdown of the biggest emotion-related writing problems and how to overcome them • Advice on what should be done before drafting to make sure your characters’ emotions will be realistic and consistent • Instruction for how to show hidden feelings and emotional subtext through dialogue and nonverbal cues • And much more! The Emotion Thesaurus, in its easy-to-navigate list format, will inspire you to create stronger, fresher character expressions and engage readers from your first page to your last.

The Healing Power of Angels Ambika Wauters, 2012-01-01 The Healing Power of Angels is a major and highly original addition to an increasingly popular publishing genre. The book will help readers heal themselves of every kind of stress and dysfunction by tapping into the healing powers of angels. Uniquely, the author presents angels in terms of an inner realm with a distinct spiritual hierarchy: nine levels of angels residing in the three levels of heaven. While based on traditional theology, this system offers a thoroughly effective way for the human mind to grasp the benevolent powers that angels can make available to all of us. The book explains how angelic forces work in the human energy system, especially the chakras, to benefit our personal development and spiritual evolution, and is aimed at everyone who is fascinated and moved by the notion of angels, or is interested in making new discoveries in the realm of the spirit. The Healing Power of Angels is immensely helpful to all healers and all those interested in understanding energy fields. The meditations, affirmations and prayers that punctuate the text provide a practical dimension for interactive work. There are also profound reflections that will change the way we think about ourselves and thus move us much closer to spiritual understanding.

The Worlds of Carol Shields David Staines, 2014-12-02 Carol was a very fine writer and a remarkable human being, a wonderful person whose work I closely followed for more than 20 years. I interviewed her frequently over those years, with virtually every work she produced —novel, radio drama, play, book of stories. So I had a good sense of the span of her work and also her evolution as a stylist. But the key reason I wanted to make a book focusing on her life and work is that we were friends. —Eleanor Wachtel This book strikes the right balance between intimate accounts and literary analysis. It opens with reminiscences by close friend Eleanor Wachtel, which are followed by a study of Shields’ poetry by her daughter and grandson, then by various aspects of her fiction, including a detailed examination of her plays. It closes with reminiscences by four close friends: Jane Urquhart, Joan Clark, Wayson Choy and Martin Levin. The 23 contributors offer new insights, new theories, and new perspectives about Shields’ illuminating career. Only one piece—her obituary written by Margaret Atwood—has been previously published.

[Groundbreakers](#) Elizabeth McKenna,Hahrie Han,2014-12-02 Much has been written about the historic nature of the Obama campaign. The multi-year, multi-billion dollar operation elected the nation's first black president, raised and spent more money than any other election effort in history, and built the most sophisticated voter targeting technology ever before used on a national campaign. What is missing from most accounts of the campaign is an understanding of how Obama for America recruited, motivated, developed, and managed its formidable army of 2.2 million volunteers. Unlike previous field campaigns that drew their power from staff, consultants, and paid canvassers, the Obama campaign's capacity came from unpaid local citizens who took responsibility for organizing their own neighborhoods months--and even years--in advance of election day. In so doing, Groundbreakers argues, the campaign engaged citizens in the work of practicing democracy. How did they organize so many volunteers to produce so much valuable work for the campaign? This book describes how. Elizabeth McKenna and Hahrie Han argue that the legacy of Obama for America extends beyond big data and micro-targeting; it also reinvigorated and expanded traditional models of field campaigning. Groundbreakers makes the case that the Obama campaign altered traditional ground games by adopting the principles and practices of community organizing. Drawing on in-depth interviews with OFA field staff and volunteers, this book also argues that a key achievement of the OFA's field organizing was its transformative effect on those who were a part of it. Obama the candidate might have inspired volunteers to join the campaign, but it was the fulfilling relationships that volunteers had with other people--and their deep belief that their work mattered for the work of democracy--that kept them active. Groundbreakers documents how the Obama campaign has inspired a new way of running field campaigns, with lessons for national and international political and civic movements.

Soul of Light Joma Sipe,2012-11-06 The visionary art of Portuguese artist Joma Sipe is all about light-not the ordinary light of day but the light of spiritual illumination, which brilliantly radiates from the over one hundred, full-color images in this stunning book. Sipe thinks of his work as sacred geometry that unites this temporal world with higher planes. Each painting thrills with the dispersion and concentration of light that seems to emanate from every line. Sipe regards it as springing from the heart of the universal Energy that shines forth in everything that exists. According to Sipe, his paintings come completely from inner inspiration. As if by their own volition, the thin silver or gold ink pen he holds will begin to move until the canvas is filled. Sipe then energizes certain points in the drawing with crystals, a process that infuses the work with spiritual intensity. Finally, he adds light and soft-color computer effects to achieve an ethereal quality. Many works in this volume are also accompanied by his mystical poetry. Since childhood, Sipe has been influenced by painters of the late nineteenth-century Symbolist Movement. He feels profoundly connected with early Theosophist H. P. Blavatsky and believes his works "not only provide an image of the nucleus of the universal brotherhood of humanity, they also mirror the laws of nature and the powers latent in humankind." Sipe has also studied Rudolf Steiner, Eliphas Levy, G. I. Gurdieff, the contemporary Gnostics, and the spirituality of Hindu teacher Paramahansa Yogananda and Eckart Tolle, who in turn led him to A Course in Miracles. His knowledge of occult anatomy and the chakras, meditation, alchemy, and the Kabbalah contributes to the wealth of esoteric wisdom he brings to bear in his art. All helps him reflect on canvas his powerful sense of the sacred that seems to illuminate the very being of the viewer as well as of the artist and his visionary world.
