Beautiful Bad Annie Ward, 2019-03-05 A perfect marriage reveals its dark secrets in this psychological thriller of a devoted wife, her veteran husband, and a shocking murder. Maddie and Ian's love story began with a chance encounter at a party overseas; he was serving in the British Army and she was a travel writer visiting her best friend, Jo. Now almost two decades later, married with a beautiful son, Charlie, they are living the perfect suburban life in Middle America. But when a camping accident leaves Maddie badly scarred, she begins attending writing therapy, where she gradually reveals her fears about Ian's PTSD; her concerns for the safety of their young son; and the couple's tangled and tumultuous past with Jo. From the Balkans to England, Iraq to Manhattan, and finally to an ordinary family home in Kansas, sixteen years of love and fear, adventure and suspicion culminate in The Day of the Killing, when a frantic 911 call summons the police to the scene of a shocking crime.

Stuck in Manistique Dennis Cuesta, 2019-03-24 In this humorous and heartfelt novel, two out-of-town strangers cross paths in Michigan's Upper Peninsula.

Culture, Learning, and Technology Angela D. Benson, Roberto Joseph, Joi L. Moore, 2017-02-17 Culture, Learning, and Technology: Research and Practice provides readers with an overview of the research on culture, learning, and technology (CLT) and introduces the concept of culture-related theoretical frameworks. In 13 chapters, the book explores the theoretical and philosophical views of CLT, presents research studies that examine various aspects of CLT, and showcases projects that employ best practices in CLT. Written for researchers and students in the fields of Educational Technology, Instructional Design, and the Learning Sciences, this volume represents a broad conceptualization of CLT and encompasses a variety of settings. As the first significant collection of research in this emerging field of study, Culture, Learning, and Technology overflows with new insights into the increasing role of technology use across all levels of education.

The Next Generation of Distance Education Leslie Moller, Jason B. Huett, 2012-02-07 The world of education is being radically altered with the change being driven by technology, openness, and unprecedented access to knowledge. Older correspondence-style methods of instructional delivery are passé and "classroom adapted to the web" approaches to learning are often ineffective and do little to harness the transformational potential of technology. E-Learning scenarios, mobile technologies, communication and information access, and personal learning environments are becoming mainstream and, as a result, control of the learning process is shifting away from institutions and into the hands of learners. This volume promotes a forward-thinking agenda for research and scholarship that highlights new ideas, deep insights, and novel approaches to "unconstrained" learning.

Inclusive Learning 365 Christopher Bugaj, Karen Janowski, Mike Marotta, Beth Poss, 2022-08-03 Designed to be read one day - and page - at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes: • Explanation of how to use the strategy to design inclusive educational experiences. • Examples of tools that can be used to implement the strategy. • Alternative ways to use

the strategy to extend student learning. • Images illustrating the strategy or tool. • Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources. The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

Creativity and English Language Teaching Alan Maley, Tamas Kiss, 2017-10-05 This book offers a unique perspective on creativity in an educational environment where there is a relative dearth of literature on this subject. The authors link practice and principle to provide a practical and valuable guide for more creative language learning and teaching, using not only theoretical ideas but useful practical advice and recommendations on how better to introduce creativity into teaching and daily life. This innovative volume is sure to become a crucial reference point for teachers and practitioners of language teaching, and anyone interested in the ways in which creativity can be channelled into the teaching and learning process.

Learning, Problem Solving, and Mindtools J. Michael Spector, Barbara B. Lockee, Sharon Smaldino, Mary Herring, 2013-04-12 *Learning, Problem Solving, and Mindtools* is inspired by the substantial body of learning research by David H. Jonassen in the areas of mind tools and problem solving. The focus of the volume is on educational technology, especially with regard to how new technologies have facilitated and supported problem solving and critical thinking. Each chapter focuses on a particular aspect of learning with technology and elaborates the implications for the design and implementation of learning environments and activities aimed at improving the conceptualization of problems, reasoning and higher-order thinking, and solving challenging problems. This collection of scholarly essays provides a highly engaging treatment of using tools and technologies to improve problem solving; multiple perspectives on integrating educational technology to support learning in complex and challenging problem solving domains; guidance for the design of instruction to support problem solving; a systemic account of the relationships between mental models, instructional models, and assessment models; and a look into the future of educational technology research and practice.

Playing with Media Wesley A. Fryer, 2011-08-01 We need to play with media to become more effective communicators. This book was written to inspire and empower you, as a creative person, to expand your personal senses of digital literacy and digital agency as a multimedia communicator. As you learn to play with digital text, images, audio and video, you will communicate more creatively and flexibly with a wider variety of options. Although written primarily for educators, anyone who is interested in learning more about digital communication will learn something new from this book. As children, we learn to progressively make sense of our confusing world through play. The same dynamics apply to us as adults communicating with new and different media forms.

Who's on First? Bud Abbott, Lou Costello, 2013-02-19 "Who's on first. What's on second. I Don't Know's on third." One of the classic comedy sketches of all time is now transformed into a priceless picture book--and it's a great read for kids of all ages. Follow the mistaken identities, confusion, and lots of laughs as Rabbit and Bear act out this scene. The book will appeal to Abbott and Costello fans, baseball fans, and anyone who enjoys funny banter-driven picture books. Illustrated in full color with slightly retro stylized illustrations. "The book is stunning ~ dad and Bud would be proud!!"--Chris Costello, Daughter of Lou Costello

ONCE THERE WAS ME Bobby Sachdeva, 2020-06-25 Caught in the web of communal violence repeatedly, Bobby Sachdeva stares at his burning house set afire by the bloodthirsty mob of the anti-Sikh riots in Delhi. As a fourteen-year-old, his world turns upside down, exactly at the age his father had escaped from Pakistan during the Partition of India. Recovering from the trauma, Bobby rebuilds his business and journeys across the US and China, experiencing a life unhindered by religious animosity. Having experienced both sides of religion - of immersion and detachment - he starts questioning the role of religion in our lives. Based on his vision of an emergent India, Bobby finally submits a PIL in the Supreme Court for religious shrines to distribute their excess income for the downtrodden. What happens next as religious hardliners turn against him?

The New Assistive Tech Christopher Bugaj, 2023-12-12 The updated edition of this playful yet professional book guides educators in selecting, acquiring and implementing technology to help all students, but particularly those with disabilities. School districts often struggle to develop consistent practices for meeting the needs of special education students. In the updated edition of this bestselling book, you'll learn how embracing student-centered approaches like project-based learning and growth mindset help support students with disabilities. You'll get guidance on how to plan and execute education experiences using technology centered around students' individual needs. And you'll discover how to effectively and consistently evaluate and select technology supports based on the specific needs of an individual student, while actively including the learner in the technology consideration process. Building on lessons learned from the COVID-19 pandemic, this edition also explores ways to support students, especially learners with disabilities, through distance learning, and how adopting personalized learning principles can help facilitate a smooth transition to distance learning. This revised edition:

- Includes new content on the necessity and long-term benefits of making educational materials accessible.
- Offers guidance on expanding practices that are already inclusive, such as increasing the flexibility of learning spaces and establishing gaming and maker clubs.
- Explains how to conduct and document assessments to help an educational team make informed decisions about technology needs.
- Assists individuals or teams in creating an action plan for developing a culture of inclusion.
- Interweaves stories, songs and other features to make learning fun!

With his accessible approach and conversational style, Christopher R. Bugaj takes what can sometimes be an intimidating topic and makes it relevant and easy to understand, with examples that illustrate how to reach all learners in every classroom. Audience: Elementary and secondary educators; education coaches and administrators
