The Art of Eric Carle Eric Carle, 2021-03-09 Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

Making a Hand Michael R. Grauer, 2019-10-03 Winner, 2021 National Cowboy and Western Heritage Museum Western Heritage Award, Art/Photography Book (The Wrangler) Sometime in 1947, a letter arrived in the mailbox of Harold Dow Bugbee, already a well-known and highly sought illustrator for western pulp magazines and other publications. "Sir," it began, "I have seen several of your pictures in the Cattleman. Sure like them and I am writing you to ask if you have all of your pictures in a book—if you do—we want to buy one." "After seventy years of waiting," writes Michael R. Grauer in this colorful survey of Bugbee's life and career, "here is such a book." Bugbee and his family arrived in Clarendon, Texas, in 1914, from Massachusetts. He helped his father with the 1,000-acre family ranch and eventually attended the Agricultural and Mechanical College of Texas, where he studied architectural drawing. Subsequently, he enrolled at the Cumming School of Art in Des Moines, Iowa, but left after two years when the founder of the school told the young Texan that he had learned all the school had to offer. Bugbee avidly absorbed cowboy scenes and the lifestyle that birthed them. He filled canvases with colorful, authentic images that capture the spirit of the American West of the early to mid-1900s, especially in and near his beloved Texas Panhandle. By the 1930s, Bugbee was providing pen-and-ink sketches for magazines such as Ranch Romances, Western Stories, Country Gentleman, and Field and Stream. This richly illustrated overview of the man and his art provides a valuable and entertaining resource for collectors and students of western and Texas art.

Gerhard Richter Benjamin H. D. Buchloh, 2022-09-06 The first full-scale monographic study in English of one of the most important artists of the second half of the twentieth century. In this first full-scale monograph in English on the German painter Gerhard Richter, the distinguished art historian Benjamin H. D. Buchloh maps the unfolding of Richter's ever more complex and contradictory lifework. A painter in an age that disdains painting, a German confronting the impossibility of representing the historical trauma inflicted by his country upon the world between 1933 and 1945, a European artist in dialogue with his American counterparts, Richter (b. 1932) is shown by Buchloh to be a unique and singular artist, outside and beyond every other formation contemporaneous with his own development and evolution. What emerges from Buchloh's detailed analysis of Richter's key works is a far more complex set of painterly strategies than has been previously assumed, strategies that have inverted and relativized all the principles of the modernist and even the postmodernist painterly aesthetic. In a series of essays that proceeds chronologically, Buchloh begins with Elbe (1957), seeing it as a foundational moment in Richter's confrontation with Socialist Realism, and goes on to consider such works as October 18, 1977 (1988), the series of representational photo-based paintings of Baader-Meinhof members; Richter's glass works; and the late group of Birkenau Paintings (2014). Richly illustrated in color, dense with insights that represent half a lifetime of engagement with Richter's work, this book will stand as the definitive, essential examination of a major contemporary artist.

Visions and Ecstasies H.D., 2019-11-26 H.D.'s writing continues to inspire generations of readers. Bringing together a number of never-before-published essays, this new collection of H.D.'s writings introduces her compelling perspectives on art, myth, and the creative process. While H.D. is best known for her elemental poetry, which draws heavily on the imagery of natural and ancient worlds, her critical writings remain a largely underexplored and unpublished part of her oeuvre. Crucial to understanding both the formative contexts surrounding her departure from Imagism following the First World War and her own remarkable creative vision, Notes on Thought and Vision, written in 1918, is one of the central works in this collection. H.D. guides her reader to the untamed shores of the Scilly Isles, where we hear of powerful, transformative experiences and of her intense relationship with the paintings of Leonardo da Vinci. The accompanying essays, many published here for the first time, help color H.D.'s astute critical engagement with the past, from the city of Athens and the poetry of ancient Greece. Like Letters to a Young Painter (2017), also published in the ekphrasis series, this collection is essential reading for anyone interested in the creative process.

Gerhard Richter, 2011 The first set of paints, Perizade, is made by pouring liquid paint randomly on glass plates. Here, the material of the paint is present and forms are rolling, in contrast to large digital prints entitled Strip, consisting of a rigorous system of parallel lines. The starting point of the Strip is still a painting by the artist in 1990: Abstract Painting (724-4). Using software, has vertically divided the work, first by 2, then 4, 8, 16, 32, 64, 128, 256, 512, 1024, 2048 and 4096. This process led to the creation of 8190 strips, the height of the paint to start. At each stage of the division, the bands refined. They are repeated in mirror, producing patterns. The more stages of division, the more they are repeated so that the patterns are visible. The Strip exposed here are unique prints selected and combined from different bands.

Contraband Guides Paul H. D. Kaplan, 2020-04-23 In his best-selling travel memoir, The Innocents Abroad, Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a "contraband guide," a term coined to describe fugitive slaves who assisted Union armies during the Civil War. By means of this and similar case studies, Paul H. D. Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth-century concepts of race in the United States. Americans of the Civil War era were struck by the presence of people of color in European art and society, and American artists and authors, both black and white, adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans. Taking up the work of both well- and lesser-known artists and writers—such as the travel writings of Mark Twain and William Dean Howells, the paintings of German American Emanuel Leutze, the epistolary exchange between John Ruskin and Charles Eliot Norton, newspaper essays written by Frederick Douglass and William J. Wilson, and the sculpture of freed slave Eugène Warburg—Kaplan lays bare how racial attitudes expressed in mid-nineteenth-century American art were deeply inflected by European traditions. By highlighting the contributions people of black African descent made to the fine arts in the United States during this period, along with the ways in which they were represented, Contraband Guides provides a fresh perspective on the theme of race in Civil War-era American art. It will appeal

to art historians, to specialists in African American studies and American studies, and to general readers interested in American art and African American history.

The Inside Story Molly Harrower,Dawn Bowers,2013-06-17 This unusual book was written to provide a glimpse into the inner Rorschach world of individuals -- psychology students in training -- representing the basic Rorschach subtypes. The Rorschach records of these graduate students in clinical psychology are presented along with their own interpretations and analyses of their records. In short, The Inside Story offers both a new approach to learning projective diagnostic methods such as the Rorschach and a new experience in the adventure of self-understanding.

"Painting, Politics and the Struggle for the ?ole de Paris, 1944?964 " Natalie Adamson,2017-07-05 Painting, Politics and the Struggle for the ?ole de Paris, 1944-1964 is the first book dedicated to the postwar or 'nouvelle' ?ole de Paris. It challenges the customary relegation of the ?ole de Paris to the footnotes, not by arguing for some hitherto 'hidden' merit for the art and ideas associated with this school, but by establishing how and why the ?ole de Paris was a highly significant vehicle for artistic and political debate. The book presents a sustained historical study of how this 'school' was constituted by the paintings of a diverse group of artists, by the combative field of art criticism, and by the curatorial policies of galleries and state exhibitions. By thoroughly mining the extensive resources of the newspaper and art journal press, gallery and government archives, artists' writings and interviews with surviving artists and art critics, the book traces the artists, exhibitions, and art critical debates that made the ?ole de Paris a zone of aesthetic and political conflict. Through setting the ?ole de Paris into its artistic, social, and political context, Natalie Adamson demonstrates how it functioned as the defining force in French postwar art in its defence of the tradition of easel painting, as well as an international point of reference for the expansion of modernism. In doing so, she presents a wholly new perspective on the vexed relationships between painting, politics, and national identity in France during the two decades following World War II.

Gerhard Richter Sheena Wagstaff,Benjamin H. D. Buchloh,Briony Fer,Hal Foster,Peter Geimer,Brinda Kumar,André Rottmann,2020 Over the course of his acclaimed 60-year career, Gerhard Richter (b. 1932) has employed both representation and abstraction as a means of reckoning with the legacy, collective memory, and national sensibility of post-WWII Germany, in both broad and very personal terms. This handsomely designed book spans the artist's rich and varied oeuvre from the early 1960s to the present, including photo paintings, portraits, large-scale abstract series, and works on glass. Essays by leading experts on the artist illuminate Richter's preoccupation with painting in relation to other modes of representation, and emphasize the ongoing importance of the medium's formal and conceptual possibilities in contemporary art.

Conceptual Structures: Theory, Tools and Applications Marie-Laure Mugnier,Michel Chein,1998-07-22 This book constitutes the refereed proceedings of the 6th International Conference on Conceptual Structures, ICCS'98, held in Montpellier, France, in August 1998.
