Cassandra: The Definitive Guide Jeff Carpenter,Eben Hewitt,2016-06-29 Imagine what you could do if scalability wasn't a problem. With this hands-on guide, you'll learn how the Cassandra database management system handles hundreds of terabytes of data while remaining highly available across multiple data centers. This expanded second edition—updated for Cassandra 3.0—provides the technical details and practical examples you need to put this database to work in a production environment. Authors Jeff Carpenter and Eben Hewitt demonstrate the advantages of Cassandra's non-relational design, with special attention to data modeling. If you're a developer, DBA, or application architect looking to solve a database scaling issue or future-proof your application, this guide helps you harness Cassandra's speed and flexibility. Understand Cassandra's distributed and decentralized structure Use the Cassandra Query Language (CQL) and cqlsh—the CQL shell Create a working data model and compare it with an equivalent relational model Develop sample applications using client drivers for languages including Java, Python, and Node.js Explore cluster topology and learn how nodes exchange data Maintain a high level of performance in your cluster Deploy Cassandra on site, in the Cloud, or with Docker Integrate Cassandra with Spark, Hadoop, Elasticsearch, Solr, and Lucene

Taxi Cab Stories John Egan,2018-12-22 Infused with John's unique sense of wry humor, these stories take the reader along on a ride through John's experiences as a cab driver in Brockton, Mass during the late 1970s. The stories are a mixture of the hilarious, odd, insightful, and sorrowful; introducing the reader to such characters as Black Laurel and Hardy, Captain Quaalude, and Mr. Magoo.This is how one cab ride ended as John pulled up to an ER...An orderly, hearing the tires give up their remaining tread in an anguished squeal, ran out expecting a near death emergency arrival. I jammed my driver seat forward and ran over to open Mom's door. She got out calmly, I was anticipating a warm thanks.She got hold of her purse. I figured to get the fare and a great tip. Instead, she starts beating me with it! Hard! I am 6'4" and she was able to hit me squarely on top of my head. She was going to nail me into the ground like a human spike!She said, I told you to get me to the hospital quickly, not to put me in it! (as she rained beats down on me with her purse) Little Guy (her son) was hopping up and down saying Can we do that again?! That was unbelievable! which made Mom angrier.The orderly skidded to a stop, wondering if I was the bad guy, Mom was a maniac, or this might be some personal matter between two consenting adults, especially one (Mom) that weighed about 4 times what he did. He said nothing, did not come an inch closer. He seemed frozen in fear, a desire for personal safety, and a crushing curiosity to see how it played out.This is how another cab ride ended after two guys considered robbing John...I got them to their destination in one piece. The fare was just under \$10, blond threw me a twenty and said, Keep it, as they fell over themselves in their hurry to get out. I didn't even thank them for the tip, just acted as if I expected it. Like it was payment for the 'joy ride.'The last thing the black-haired guy said as the scrambled out. I never met someone as nuts as you, man. Never!Blond goes, You're not safe, man. You're nuts. You shouldn't be f**kin' driving!I looked at them with a bored, 'do this all the time' look and shrugged....I radioed for Gary to get the cops. I gave the address, a description, and said the cops should be careful as at least one was armed.Join John for other fares as he drives from experience to experience, wending his way through an incredible world of stories from his cab driving days.

He heads off to find his game partner and lover, Asuna Yuuki. But Asuna never made it back from the nightmare. Lost and desperate, Kirito's only clue to her virtual whereabouts is a mysterious screenshot of Asuna as a fairy trapped in a giant birdcage. His conclusion: She must be trapped within the new, high-powered VRMMORPG, ALfheim Online. Now Kirito must plunge into the world of ALO, where players are fairies who fly gracefully through the air!

Malaria Microscopy Quality Assurance Manual - Version 2 World Health Organization,2016-04-05 The first version of the WHO Malaria microscopy quality assurance manual (2009) was based on recommendations made at a series of informal consultations organized by WHO particularly a bi-regional meeting of the WHO regional offices for South-East Asia and the Western Pacific in April 2005 in Kuala Lumpur Malaysia followed by informal consultations held in March 2006 and February 2008 in Geneva Switzerland. Subsequently extensive consultations among international malaria experts led to consensus and preparation of the manual. This second version of the Manual is based on the recommendations of experts made at a WHO technical consultation in March 2014 in Geneva Switzerland. The aim of the meeting was to review the experiences of national malaria control programmes (NMCPs) national reference laboratories (NRLs) and technical agencies in using the Manual and country experience in order to improve systems for managing the quality of malaria microscopy. This second version takes into account the many years of experience of several agencies in the various aspects of quality assurance (QA) described in the Manual. In particular the sections on assessment of competence in malaria microscopy are based on use of this method by the WHO regional offices for South-East Asia and the Western Pacific in collaboration with the WHO Coordinating Centre for Malaria in Australia and by the WHO Regional Office for Africa in collaboration with Amref Health Africa. The section on setting up and managing an international reference malaria slide bank is based on the work of the WHO Regional Office for the Western Pacific in collaboration with the WHO Coordinating Centre for Malaria Diagnosis in the Philippines. The section on proficiency testing for malaria microscopy is based on work in the WHO Regional Office for Africa in collaboration with the National Institute for Communicable Diseases in South Africa and experience in regional initiatives by Amref Health Africa. The section on slide validation is based on work by Médecins sans Frontières and the section on outreach training and supportive supervision (OTSS) is based on work by the President's Malaria Initiative Malaria Care Project Medical Care Development International and Amref Health Africa. The Manual is designed primarily to assist managers of NMCPs and general laboratory services responsible for malaria control. The information is also applicable to nongovernmental organizations (NGOs) and funding agencies involved in improving quality management systems for malaria microscopy. The Manual is not designed for QA of microscopy in research situations such as in clinical trials of new drugs and vaccines or for monitoring parasite drug resistance. It forms part of a series of WHO documents designed to assist countries in improving the quality of malaria diagnosis in clinical settings including the revised training manuals on Basic malaria microscopy (2010) and the Bench aids for malaria microscopy (2010).

The Etymologies of Isidore of Seville ,2006-06-08 This work is a complete English translation of the Latin Etymologies of Isidore, Bishop of Seville (c.560–636). Isidore compiled the work between c.615 and the early 630s and it takes the form of an encyclopedia, arranged by subject matter. It contains much lore of the late classical world beginning with the Seven Liberal Arts, including Rhetoric, and touches on thousands of topics ranging from the names of God, the terminology of the Law, the technologies of fabrics, ships and agriculture to the names of cities and rivers, the theatrical arts, and cooking utensils. Isidore provides etymologies for most of the terms he explains, finding in the causes of words the underlying key to their meaning. This book offers a highly readable translation of the twenty books of the Etymologies, one of the most widely known texts for a thousand years from Isidore's time.

Requirements Elicitation for the Development and Implementation of a B2B Mobile App. Writing A Consultant Bid Report Sixbert Sangwa,2021-03-20 Submitted Assignment from the year 2018 in the subject Business economics - General, grade: 80, University of South Wales (Business School), language: English, abstract: This document is a report bid proposal for conducting a scoping study that determines the necessary requirements for development and implementation of a B2B mobile application for the client, company X. The report focuses on different things that the client should consider before investing resources into the project, helps the company to make the necessary preparations and serves as a strategic decision making tool. The approach presented are techniques and methods approved by industry experts as well as case study-based experiences. The bid introduces the appropriate methods to investigate the suitable functionalities of the B2B application (Functional requirements), conditions necessary for the adequacy of the implementation of the application in the structural conditions of the company X (Structural requirements) and the resources requirements for the project. While the study will be conducted within six (6) months, a Gantt chart is used to indicate which activities should be performed; as well as where and when, in order to complete the study efficiently and effectively. Lastly, the contribution section acknowledges the benefits of the methods/techniques chosen, their relevance to the project and the reasons why they were adopted in the study.

Spectrum Women Barb Cook,Michelle Garnett,2018-08-21 Barb Cook and 14 other autistic women describe life from a female autistic perspective, and present empowering, helpful and supportive insights from their personal experience for fellow autistic women. Michelle Garnett's comments validate and expand the experiences described from a clinician's perspective, and provide extensive recommendations. Autistic advocates including Liane Holliday Willey, Anita Lesko, Jeanette Purkis, Artemisia and Samantha Craft offer their personal guidance on significant issues that particularly affect women, as well as those that are more general to autism. Contributors cover issues including growing up, identity, diversity, parenting, independence and self-care amongst many others. With great contributions from exceptional women, this is a truly well-rounded collection of knowledge and sage advice for any woman with autism.

#HashtagActivism Sarah J. Jackson,Moya Bailey,Brooke Foucault Welles,2020-03-10 This “well-researched, nuanced” study of the rise of social media activism explores how marginalized groups use Twitter to advance counter-narratives, preempt political spin, and build diverse networks of dissent (Ms.) The power of hashtag activism became clear in 2011, when #IranElection served as an organizing tool for Iranians protesting a disputed election and offered a global audience a front-row seat to a nascent revolution. Since then, activists have used a variety of hashtags, including #JusticeForTrayvon, #BlackLivesMatter, #YesAllWomen, and #MeToo to advocate, mobilize, and communicate. In this book, Sarah Jackson, Moya Bailey, and Brooke Foucault Welles explore how and why Twitter has become an important platform for historically disenfranchised populations, including Black Americans, women, and transgender people. They show how marginalized groups, long excluded from elite media spaces, have used Twitter hashtags to advance counternarratives, preempt political spin, and build diverse networks of dissent. The authors describe how such hashtags as #MeToo, #SurvivorPrivilege, and #WhyIStayed have challenged the conventional understanding of gendered violence; examine the voices and narratives of Black feminism enabled by #FastTailedGirls, #YouOKSis, and #SayHerName; and explore the creation and use of #GirlsLikeUs, a network of transgender women. They investigate the digital signatures of the “new civil rights movement”—the online activism, storytelling, and strategy-building that set the stage for #BlackLivesMatter—and recount the spread of racial justice hashtags after the killing of Michael Brown in Ferguson, Missouri, and other high-profile incidents of killings by police. Finally, they consider hashtag created by allies, including #AllMenCan and #CrimingWhileWhite.

Industrial Cloud-Based Cyber-Physical Systems Armando W. Colombo,Thomas Bangemann,Stamatis Karnouskos,Jerker Delsing,Petr Stluka,Robert Harrison,Francois Jammes,Jose L. Lastra,2014-05-08 This book presents cutting-edge emerging technologies and approaches in the areas of service-oriented architectures, intelligent devices and cloud-based cyber-physical systems. It provides a clear view on their applicability to the management and automation of manufacturing and process industries. It offers a holistic view of future industrial cyber-physical systems and their industrial usage and also depicts technologies and architectures as well as a migration approach and engineering tools based on these. By providing a careful balance between the theory and the practical aspects, this book has been authored by several experts from academia and industry, thereby offering a valuable understanding of the vision, the domain, the processes and the results of the research. It has several illustrations and tables to clearly exemplify the concepts and results examined in the text and these are supported by four real-life case-studies. We are witnessing rapid advances in the industrial automation, mainly driven by business needs towards agility and supported by new disruptive advances both on the software and hardware side, as well as the cross-fertilization of concepts and the amalgamation of information and communication technology-driven approaches in traditional industrial automation and control systems. This book is intended for technology managers, application designers, solution developers, engineers working in industry, as well as researchers, undergraduate and graduate students of industrial automation, industrial informatics and production engineering.
