Never Too Late Sloan Johnson,2016-03-06 Dax: My life ended six years ago. No, really. I was dead on the side of the road following a gruesome motorcycle accident. From what I've been told, it's only because of one stubborn man that I have another chance to make something of my life. I no longer hate him for screwing up what I thought I wanted. I want to thank him. NEED to tell him what his actions mean to me. Now, I'm headed back to the town I've never set foot in even though it's a huge part of my life. I'm not thrilled about that, but the job offers haven't exactly been flowing in. They'll probably think I'm crazy, because there's no way I won't be able to look at every guy I walk past, wondering if he's the one who saved me. Michael: My entire life, I wanted to save lives. I'd earned a full-ride scholarship and had been accepted to med schools across the country. I was so close to making those dreams a reality until the night I held a dying man in my arms. I've never been able to get the images of his lifeless body, caked in mud, out of my head. Even when the paramedics tried to take over saving him, I couldn't let go. I never let go. Eventually, my guilt over not doing more cost me everything but my son. And now, I worry I'll lose him if I don't get it together. I've often thought that if I could find him, maybe I could get some closure and finally get my life back on track. Now he's here and I'm more of a mess than ever. Once the truth comes out, will he keep trying to save me or will he realize that it's too late?

**Violence in Families** Committee on the Assessment of Family Violence Interventions,Commission on Behavioral and Social Sciences and Education,Division of Behavioral and Social Sciences and Education,National Research Council and Institute of Medicine,1998-02-27 Reports of mistreated children, domestic violence, and abuse of elderly persons continue to strain the capacity of police, courts, social services agencies, and medical centers. At the same time, myriad treatment and prevention programs are providing services to victims and offenders. Although limited research knowledge exists regarding the effectiveness of these programs, such information is often scattered, inaccessible, and difficult to obtain. Violence in Families takes the first hard look at the successes and failures of family violence interventions. It offers recommendations to guide services, programs, policy, and research on victim support and assistance, treatments and penalties for offenders, and law enforcement. Included is an analysis of more than 100 evaluation studies on the outcomes of different kinds of programs and services. Violence in Families provides the most comprehensive review on the topic to date. It explores the scope and complexity of family violence, including identification of the multiple types of victims and offenders, who require different approaches to intervention. The book outlines new strategies that offer promising approaches for service providers and researchers and for improving the evaluation of prevention and treatment services. Violence in Families discusses issues that underlie all types of family violence, such as the tension between family support and the protection of children, risk factors that contribute to violent behavior in families, and the balance between family privacy and community interventions. The core of the book is a research-based review of interventions used in three institutional sectors--social services, health, and law enforcement settings--and how to measure their effectiveness in combating maltreatment of children, domestic violence, and abuse of the elderly. Among the questions explored by the committee: Does the child protective services system work? Does the threat of arrest deter batterers? The volume discusses the strength of the evidence and highlights emerging links among interventions in different institutional settings. Thorough, readable, and well organized, Violence in Families synthesizes what is known and outlines what needs to be discovered. This volume will be of great interest to policymakers, social services providers, health care professionals, police and court officials, victim advocates, researchers, and concerned individuals.

**Continuing Bonds** Dennis Klass,Phyllis R. Silverman,Steven Nickman,2014-05-12 First published in 1996. This new book gives voice to an emerging consensus among bereavement scholars that

our understanding of the grief process needs to be expanded. The dominant 20th century model holds that the function of grief and mourning is to cut bonds with the deceased, thereby freeing the survivor to reinvest in new relationships in the present. Pathological grief has been defined in terms of holding on to the deceased. Close examination reveals that this model is based more on the cultural values of modernity than on any substantial data of what people actually do. Presenting data from several populations, 22 authors - among the most respected in their fields - demonstrate that the health resolution of grief enables one to maintain a continuing bond with the deceased. Despite cultural disapproval and lack of validation by professionals, survivors find places for the dead in their on-going lives and even in their communities. Such bonds are not denial: the deceased can provide resources for enriched functioning in the present. Chapters examine widows and widowers, bereaved children, parents and siblings, and a population previously excluded from bereavement research: adoptees and their birth parents. Bereavement in Japanese culture is also discussed, as are meanings and implications of this new model of grief. Opening new areas of research and scholarly dialogue, this work provides the basis for significant developments in clinical practice in the field.

*The Mental Load* Emma,2018-12-18 A new voice in comics is incisive, funny, and fiercely feminist. The mental load. It's incessant, gnawing, exhausting, and disproportionately falls to women. You know the scene--you're making dinner, calling the plumber/doctor/mechanic, checking homework and answering work emails--at the same time. All the while, you are being peppered with questions by your nearest and dearest 'where are my shoes?', 'do we have any cheese?...' --Australian Broadcasting Corp on Emma's comic In her first book of comic strips, Emma reflects on social and feminist issues by means of simple line drawings, dissecting the mental load, ie all that invisible and unpaid organizing, list-making and planning women do to manage their lives, and the lives of their family members. Most of us carry some form of mental load--about our work, household responsibilities, financial obligations and personal life; but what makes up that burden and how it's distributed within households and understood in offices is not always equal or fair. In her strips Emma deals with themes ranging from maternity leave (it is not a vacation!), domestic violence, the clitoris, the violence of the medical world on women during childbirth, and other feminist issues, and she does so in a straightforward way that is both hilarious and deadly serious.. If you're not laughing, you're probably crying in recognition. Emma's comics also address the everyday outrages and absurdities of immigrant rights, income equality, and police violence. Emma has over 300,000 followers on Facebook, her comics have been shared 215,000 times, and have elicited comments from 21,000 internet users. An article about her in the French magazine L'Express drew 1.8 million views--a record since the site was created. And her comic has just been picked up by The Guardian. Many women will recognize themselves in THE MENTAL LOAD, which is sure to stir a wide ranging, important debate on what it really means to be a woman today.

Life in Tanganyika in the Fifties Godfrey Mwakikagile,2009 Life in Tanganyika in the 1950s and a look at race relations between whites and black Africans and others in this East African country are some of the subjects covered in the book. It's full of human interest stories, including the author's. Born and brought up in Tanganyika, the author writes from personal experience. He also got the chance to ask many ex-Tanganyikans a number of questions about life in Tanganyika in the fifties. Many of them were born and brought up in Tanganyika during the same period the author was. And many others went to Tanganyika as children but grew up there. The ex-Tanganyikans he contacted lived in different parts of the world including Tahiti, Britain, Australia, New Zealand, Canada, Italy, South Africa, Zambia, Zimbabwe, the United States, the Middle East, and Russia among others. And they all had interesting stories to tell about life in Tanganyika in the fifties. The perspectives they provided, and the memories they shared with the author about their lives in Tanganyika, are some of the most interesting aspects of this book which focuses on one of the most important periods in the history of Africa. The book is a primary source of information on how life was then in Tanganyika during one of the most important decades in the history of the country just before independence.

Beasts of Extraordinary Circumstance Ruth Emmie Lang,2017-11-14 Told with brains and heart —Michelle Gable, New York Times bestselling author of A Paris Apartment Bristles with charm and curiosity —Winston Groom, New York Times bestselling author of Forrest Gump A wholly original and superbly crafted work of art, Beasts of Extraordinary Circumstance is a masterpiece of the imagination. —Lori Nelson Spielman, New York Times bestselling author of The Life List and Sweet Forgiveness Charlotte's Web for grown-ups who, like Weylyn Grey, have their own stories of being different, feared, brave, and loved. —Mo Daviau, author of Every Anxious Wave Ruth Emmie Lang teaches us how to find magic in the ordinary in her magical realism debut Beasts of Extraordinary Circumstance. Orphaned, raised by wolves, and the proud owner of a horned pig named Merlin, Weylyn Grey knew he wasn't like other people. But when he single-handedly stopped that tornado on a stormy Christmas day in Oklahoma, he realized just how different he actually was. As amazing as these powers may appear, they tend to manifest themselves at inopportune times and places, jeopardizing not only his own life, but the life of Mary, the woman he loves. Beasts of Extraordinary Circumstance tells the story of Weylyn Grey's life from the perspectives of the people who knew him, loved him, and even a few who thought he was just plain weird. Although he doesn't stay in any of their lives for long, he leaves each of them with a story to tell: great storms that evaporate into thin air; fireflies that make phosphorescent honey; a house filled with spider webs and the strange man who inhabits it. There is one story, however, that Weylyn wishes he could change: his own. But first he has to muster enough courage to knock on Mary's front door.
