📖 **Windows 10 for Seniors: The Complete Guide** Mark Lancer, 2015-09-03 Microsoft as the leader of software for operating systems has now released the new Windows 10. It was released on the Twenty Ninth of July 2015. The new and improved computer program has been praised with honors and great reviews for its ability to meet needs while maintaining new trends. Critics have suggested that one major strength of Windows 10 is the fact that it is a made up of all the previous strengths from earlier Windows systems. This indicates that Microsoft has taken the bold initiative to forever be the leader in their field and this will be linked to all the positives of their existing systems combined in one. One amazing way they used to ensure customer satisfaction, was to release a preview version before their formal release. This was done so users could preview the system and give their feedback and possible suggestions on improvements.
