Stolen Focus Johann Hari,2022-01-25 NEW YORK TIMES BESTSELLER • Our ability to pay attention is collapsing. From the author of Chasing the Scream and Lost Connections comes a groundbreaking examination

of why this is happening—and how to get our attention back. "The book the world needs in order to win the war on distraction."—Adam Grant, author of Think Again "Read this book to save your mind."—Susan Cain, author of Quiet WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: The Wall Street Journal, Financial Times, New York Post, Mashable, Mindful In the United States, teenagers can focus on one task for only sixty-five seconds at a time, and office workers average only three minutes. Like so many of us, Johann Hari was finding that constantly switching from device to device and tab to tab was a diminishing and depressing way to live. He tried all sorts of self-help solutions—even abandoning his phone for three months—but nothing seemed to work. So Hari went on an epic journey across the world to interview the leading experts on human attention—and he discovered that everything we think we know about this crisis is wrong. We think our inability to focus is a personal failure to exert enough willpower over our devices. The truth is even more disturbing: our focus has been stolen by powerful external forces that have left us uniquely vulnerable to corporations determined to raid our attention for profit. Hari found that there are twelve deep causes of this crisis, from the decline of mind-wandering to rising pollution, all of which have robbed some of our attention. In Stolen Focus, he introduces readers to Silicon Valley dissidents who learned to hack human attention, and veterinarians who diagnose dogs with ADHD. He explores a favela in Rio de Janeiro where everyone lost their attention in a particularly surreal way, and an office in New Zealand that discovered a remarkable technique to restore workers' productivity. Crucially, Hari learned how we can reclaim our focus—as individuals, and as a society—if we are determined to fight for it. Stolen Focus will transform the debate about attention and finally show us how to get it back.

Strategic Human Resource Management: Volume 1 Feza Tabassum Azmi,2019-05-23 This book provides a comprehensive and up-to-date text in the subject. It seeks to address a wide gap existing in terms of the availability of a book that provides extensive coverage in the field. It aims to provide students in human resource management courses and practising managers with a comprehensive view of essential concepts and techniques in a highly readable and understandable form. This book particularly focuses on practical applications, examples and cases that managers can utilise in gaining insights into the subject in order to carry out their HR-related responsibilities. It focuses on practical applications, examples and cases that will be useful for both students and HR managers. It serves two important purposes: to provide an academically rigorous study, and at the same time, offer comprehensive and user-friendly pedagogy. The case studies cited in the book are from across the globe, including studies from India, and will appeal to a large audience.

LPWAN Technologies for IoT and M2M Applications Bharat S. Chaudhari,Marco Zennaro,2020-04-02 Low power wide area network (LPWAN) is a promising solution for long range and low power Internet of Things (IoT) and machine to machine (M2M) communication applications. The LPWANs are resource-constrained networks and have critical requirements for long battery life, extended coverage, high scalability, and low device and deployment costs. There are several design and deployment challenges such as media access control, spectrum management, link optimization and adaptability, energy harvesting, duty cycle restrictions, coexistence and interference, interoperability and heterogeneity, security and privacy, and others. LPWAN Technologies for IoT and M2M Applications is intended to provide a one-stop solution for study of LPWAN technologies as it covers a broad range of topics and multidisciplinary aspects of LPWAN and IoT. Primarily, the book focuses on design requirements and constraints, channel access, spectrum management, coexistence and interference issues,

energy efficiency, technology candidates, use cases of different applications in smart city, healthcare, and transportation systems, security issues, hardware/software platforms, challenges, and future directions. One stop guide to the technical details of various low power long range technologies such as LoRaWAN, Sigfox, NB-IoT, LTE-M and others Describes the design aspects, network architectures, security issues and challenges Discusses the performance, interference, coexistence issues and energy optimization techniques Includes LPWAN based intelligent applications in diverse areas such as smart city, traffic management, health and others Presents the different hardware and software platforms for LPWANs Provides guidance on selecting the right technology for an application

The key focus will be on how rich data analysis can improve the delivery of above defined services.

Topics for Group Discussion Prof Shrikant Prasoon,2017-09 There are no specific rules to prepare for a GD. And no one knows what the topic of GD is going to be. This book includes topics that are likely to be put by the Group Testing Officer before the candidates to gauge their personality and leadership qualities. It will be a good idea to keep yourself abreast with topics from: 1. Current Affairs - Current Affairs is something that you have to be thorough with. Understand the recent crises affecting the world, latest developmental initiatives, and important national & global events. 2. Historical topics- Have a fair knowledge about the history of India and the world. Having historical information will help you cite examples and make references whenever needed. 3. Sports, Arts & Literature - In these topics, try to have a decent idea about what is popular, who are the leaders in each area, the latest that has happened in these areas. 4. Data crunching - Do familiarize yourself with important data. Throwing in some data if required in your GD will definitely create an impression among the assessors. Speak with a measure of confidence on the given topic; and secure the nod of the evaluator.

England's Motoring Heritage from the Air John Minnis,2014 The arrival of aerial photography came at a particularly significant moment in terms of the visual appearance of England. This selection of photographs makes use of the Aerofilms collection, acquired by English Heritage in 2007. When Aerofilms fliers first went up in the skies in 1919, they captured a country that had more or less been preserved in aspic in 1914. What we are looking at in many of the earliest photographs in this book is essentially Edwardian England, with towns and villages generally quite compact, with fields reaching almost up to the High Streets in many cases, and little sign of the sprawl that was to engulf them in the 1920s and 30s. This fantastically illustrated book shows just how radically that position changed over the ensuing half century. We trace the outward expansion of places brought about by the availability of the car: the new suburbs and ribbon development. We see how new arterial roads came into being to meet the needs of motor transport and how the centre of cities start to be rebuilt to accommodate it. We witness the growth of sprawl around road junctions on the edge of built-up areas and the arrival of new types of building there to service both cars and people: the filling station, the roadhouse. We see how the car encouraged more people to go further afield for sport and pleasure: to the seaside, the races or to new forms of attractions such as the amusement park in the country. And we see how public transport changes over the period from trams to buses with the advent of new facilities such as bus stations. The scale of traffic congestion becomes apparent by the late 1930s. In addition, the impact on the landscape of large motor factories and provision for motor sport is made clear.
