Hera the lovely resonator for rebirth from Sudden Circulatory Death (SCD) Antonio Silvestro, 2020-06-12 "Could people be awake from Sudden Circulatory Death (SCD) in 40 minutes far field? Well, it may be just an illusion, but only funding could unveil it."

Portrait and Candid Photography Photo Workshop Erin Manning, 2011-10-28 The latest tips and tricks for capturing high-quality photos Taking great people pictures isn't a matter of luck. The secret is in observing your subjects and connecting with them, and then using your camera to its best advantage. This new edition uses full-color photos to demonstrate how to work with lighting, location, angle, composition, physical characteristics, and environment in either portrait or candid situations. Professional photographer and veteran author Erin Manning offers invaluable advice for handling the unique challenges of photographing babies, large and small groups, and action. Assignments at the end of each chapter encourage you to test your newfound skills, while visiting pwsbooks.com allows you to post your work and benefit from feedback and constructive criticism. Explains how to study your subjects in their natural habitat, while you observe how they react and interact Features invaluable advice from veteran author Erin Manning that shares simple techniques for improving photos of babies and children Zeroes in on how to best capture facial expressions Highlights ways to tell a story with a series of candid photos Helps you add interest to large-group shots When you apply the techniques featured on the pages of *Portrait and Candid Photography Photo Workshop, 2nd Edition*, you'll watch your subjects come to life.

Applied Mathematics, Modeling and Computer Simulation C.-H. Chen, 2022-02-25 The pervasiveness of computers in every field of science, industry and everyday life has meant that applied mathematics, particularly in relation to modeling and simulation, has become ever more important in recent years. This book presents the proceedings of the 2021

International Conference on Applied Mathematics, Modeling and Computer Simulation (AMMCS 2021), hosted in Wuhan, China, and held as a virtual event from 13 to 14 November 2021. The aim of the conference is to foster the knowledge and understanding of recent advances across the broad fields of applied mathematics, modeling and computer simulation, and it provides an annual platform for scholars and researchers to communicate important recent developments in their areas of specialization to colleagues and other scientists in related disciplines. This year more than 150 participants were able to exchange knowledge and discuss recent developments via the conference. The book contains 115 peer-reviewed papers, selected from more than 250 submissions and ranging from the theoretical and conceptual to the strongly pragmatic and all addressing industrial best practice. Topics covered include mathematical modeling and applications, engineering applications and scientific computations, and the simulation of intelligent systems. Providing an overview of recent development and with a mix of practical experiences and enlightening ideas, the book will be of interest to researchers and practitioners everywhere.
