**Arts Integration in Diverse K-5 Classrooms** Liane Brouillette, 2019-07-12 Partnerships are now pervasive in global education and development, but are they creating equitable, cooperative, and positive relationships? Through case studies of prominent multistakeholder partnerships—including the Education Cannot Wait Fund and Global Partnership for Education—as well as a comprehensive analysis of the global education network, this book exposes clear power imbalances that persist in the international aid environment. The author reveals how actors and organizations from high-income countries continue to wield disproportionate influence, while the private sector holds a growing degree of authority in public policy circles. In light of such evidence, this book questions if partnerships truly ameliorate power asymmetries, or if they instead reproduce the precise inequities they are meant to eliminate. “This text offers a thoughtful look into both theoretical and practical issues surrounding arts integration as a viable strategy for increasing students’ achievement and access to higher education and career pathways. It is especially timely in the context of a widespread focus on equity and inclusion as teachers are facing more diversity in the classroom than ever before.” —Kristen Greer-Paglia, CEO, P.S. ARTS “This book, offering a rich buffet of art-based activities grounded in critical ideas about teaching and learning, includes topics as oral language development, visual thinking strategies, making meaning of narrative and informational texts, and expression through narrative and informational writing. An excellent guide to teachers aspiring to integrate the arts into their curriculum, it is both a delightful and useful read!” —Liora Bresler, University of Illinois, Champaign-Urbana
