Leaving Your Mark Simon Verduijn,2014-10-22 This book reports on Simon Verduijn's (1985) PhD research on a variety of individuals who try to leave their mark on the IJsselmeer area, the Netherlands. These individuals are regarded as policy entrepreneurs: people that strategically employ framing and networking strategies to advocate or oppose policy change by setting the public, policy and political agendas. The book discusses relevant literature on policy entrepreneurship, framing and networking strategies, and agenda setting. The empirical research comprises an in-depth study of

four cases, involving semi-structured interviews, document study and newspaper article analysis. The first case selected concerns the Second Delta Committee, which set the agenda for water safety and climate adaptation in the Dutch Delta, and recommended a substantial increase in the water level of the IJsselmeer. The second case concentrates on policy entrepreneurs who pushed for a change in Dutch nature policy, advocating a focus on nature development over nature preservation. The third case considers policy entrepreneurs' support or opposition to plans to realise outer-dike urbanisation and build an infrastructural connection—either a bridge or tunnel—through the Markermeer-IJmeer. The final case looks at policy entrepreneurs who advocated or opposed plans to create large clusters of wind turbines close to the historical village of Urk. The study reveals how policy entrepreneurs employ various framing and networking strategies, exploit the use of visualisations, frame issues at stake differently, and frame themselves and others. Insights are also offered into how policy entrepreneurs cope with the enabling and constraining factors of context, with their various strategies, resulting in successes as well as failures.

Moedertaalonderrig en taalaktivisme in Suid-Afrika: Analise van gedrukte mediadekking tussen 2006 en 2010 Johan C.

Moll,2016-11-01 Uiters belangrike narratief oor skooltaalvoorkeur het hom tussen 2006 en 2010 in Suid-Afrika afgespeel. Hierdie gebeurtenisse het diep in die Suid-Afrikaanse onderwys- en taalwêreld ingesny, en ook in die buiteland belangstelling gelok. Die koerante het volledig daaroor berig: oor die hofsake, die skoolhoofde, die skole, ouers en die leerders. Maar hoe gemaak as onderwyskundiges, sosiolinguïste, taalbeplanners, taalhistorici en vaklui van aansluitende dissiplines later die punte van hulle vingers op die besonderhede van daardie gebeurtenisse wil lê?

Ten Worlds of Welfare Capitalism Christian Aspalter,2023-02-02 This book presents a new step farther into the twenty-first century, for the first time truly combining a comprehensive global data analysis with social policy theory development. The theory of global ideal-typical welfare regimes, also known as the “Ten Worlds of Welfare Regime Theory”, as set forth earlier by Christian Aspalter, is now in this book tested empirically using a quantitative global data analysis for the first time. The strong and rich results fully vindicated the Ten Worlds Theory. All in all, about 150 countries are included in this test, measuring numerous variables on two main dimensions, i.e., povertization and inequality. The innovative approach of using a new indicator, Aspalter’s Standardized Relative Performance Index, is applied, which facilitated the exact measurements of distances between relative performances of each variable, each dimension, each country, and each ideal-typical welfare regime (in relation to one another, respectively). In addition, one explanative and one normative meta-study is added to the book, to point to ways to understand and deal with the global culprit of inequality and, hence, poverty. “On the backdrop of decades of comparative theoretical and empirical research we now, for the first time, have a truly global analysis of welfare regimes.” ---- Peter Abrahamson, Department of Sociology, University of Copenhagen

Radical Right-Wing Populist Parties in Western Europe Tjitske Akkerman,Sarah L. de Lange,Matthijs Rooduijn,2016-05-18 Radical right-wing populist parties, such as Geert Wilders’ Party for Freedom, Marine Le Pen’s National Front or Nigel Farage’s UKIP, are becoming increasingly influential in Western European democracies. Their electoral support is growing, their impact on policy-making is substantial, and in recent years several radical right-wing populist parties have assumed office or supported minority governments. Are these developments the cause and/or consequence of the mainstreaming of radical right-wing populist parties? Have radical right-wing populist parties expanded their issue profiles, moderated their policy positions, toned down their anti-establishment rhetoric and shed their extreme right reputations to attract more voters and/or become coalition partners? This timely book answers these questions on the basis of both comparative research and a wide range of case studies, covering Austria, Belgium, Denmark, Finland, France, the Netherlands, Norway, Switzerland, and the United Kingdom. Analysing the extent to which radical right-wing populist parties have become part of mainstream politics, as well as the factors and conditions which facilitate this trend, this book is essential reading for students and scholars working in European politics, in addition to anyone interested in party politics and current affairs more generally.
