Protecting Your Home from Wildfire ,1989

This Is Wildfire Nick Mott,Justin Angle,2023-09-26 A practical guide for living with wildfire, including essential history and science, actions you can take to protect your home, and guiding principles for life in an increasingly fiery future. Wildfires are getting more destructive than ever before. Flames in forests are scorching about twice as many trees as they did two decades ago, and nearly 100,000 homes, barns, and other structures have been incinerated. “Fire seasons” are now fire years. Tens of millions of people live in areas vulnerable to fire, and more keep moving in. Driven in part by climate change, the areas burned and prevalence of smoke in the skies is expected to skyrocket in the decades to come. At the same time that wildfires leave swathes of the country in ash, they also renew. Wildfire is crucial for ecosystems to function and flourish. We're putting out many of the fires our landscape needs, and the ones that escape our control are devastating for forests and communities. It's clear what we're doing isn't working. Wildfire is inevitable, and we need to learn to live with it. The first of its kind, *This Is Wildfire* is required reading for our new reality. It offers everything you need to know about fire in one useful volume: reflects on the history of humanity's connection to flames; analyzes how our society arrived at this perilous moment; and recounts stories of those fighting fire and trying to change our relationship with it. It also offers practical advice: choosing your insurance and making your home resilient to burns; packing an emergency go-bag; rebuilding after a fire; and so much more.

Fire Smart Home Handbook Clyde Soles,2014-04-01 As climate change continues to wreak havoc on the environment, devastating wildfires, both natural and manmade, are increasing. The figure for average acres burned has increased from almost 2 million acres in 1992 to nearly 7 million in 2012, which set a new record with an average of 165 acres burned per fire. Things are heating up, but global warming isn't the only problem. Budgets for fire suppression have been slashed severely. The number of air tankers has decreased from 44 in 2002 to just 9 in 2012, which means fast attacks on fledgling fires will grow more difficult in the future. If you live in a wildland-urban interface, the zone between unoccupied and developed land, sooner or later fire will happen. Fortunately you can prepare for the worst, and it doesn't have to cost a fortune. This highly detailed and practical reference guide will help you live more safely in the red zone and save you time and money along the way, providing multiple methods of risk mitigation along with the financial level of each action. Effectively prepping your land can even enhance the scenery and increase the value of your home. Learn how wildfires begin and behave, how to evaluate your property, what essential tools you'll need and what they will cost, how to prepare your land and home—including tips on how to avoid insurance nightmares—when to stay and fight, when it's time to evacuate, how to clean up after a fire event, and more. Even if you live in the middle of a suburb, the information on how fires start and spread and how to deal with insurance claims will prove enlightening and helpful. No one can guarantee that your house or land will survive if a major conflagration erupts, but you can greatly improve your odds with this book and a little preparation.

Firescaping Douglas Kent,2019-10-08 Your guide to beautiful, fire-resistant landscaping techniques Tens of thousands of wildfires burn across the country every year, destroying millions of acres of land. If you live in fire country, take action. Use firescaping to defend your home against wildfires—while maintaining the beauty of your garden. This unique form of landscaping design keeps your property healthy, clean, and clear. Horticultural expert Douglas Kent shares secrets, tricks, and simple instructions in the new edition of this practical, hands-on guide, recommended by AAA Homeowners Insurance. Find out which landscapes have a high fire risk and why. Get tips on landscaping and maintenance—such as effective watering and brush-clearing techniques—that reduce a property's fire risk. Learn which plants and building materials are best for reducing damage. Discover how to make your home accessible to firefighters in the event of a wildfire. Homeowners, landscaping professionals, and community fire prevention officials will find Firescaping invaluable. If you live in an area at risk, this book can help to prepare you and give you peace of mind.

Home Fires Fiona Lowe,2020-09-14 For fans of Liane Moriarty comes a story of a community in crisis from best-selling Australian author Fiona Lowe. When a deadly wildfire tears through small town Myrtle, nestled along Australia's breathtaking Great Ocean Road, the town's buildings — and the lives of its residents — are left as smoldering ash. Eighteen months later, Myrtle stands restored, shiny and new. But is the outside polish just a veneer? For four women in particular, the fire fractured their lives and their relationships. Julie thinks tourism could bring some financial stability to their town and soon prods Claire, Bec and Sophie into joining her women's support group. But the scars of trauma run deep. As family secrets and town lies emerge, and each woman faces the damage the wildfire wrought, a shocking truth will emerge that will shake the town to its newly rebuilt foundations... With her sharp eye for human flaws, bestselling author Fiona Lowe writes an evocative, page-turning tale of everyday people fighting for themselves, their families and their town. See for yourself; read *Home Fires* today.

Surviving Wildfire Linda Masterson,2013-01-20 Covers what to do before, during, and after wildfire disasters. Advice for homeowners includes advance preparations for land, home and family; evacuation essentials and survival strategies when wildfire threatens; understanding insurance; and rebuilding and recovery--

Firescaping Your Home Adrienne Edwards,Rachel Schleiger,2023-06-20 This hardworking, actionable guide is a must-have for homeowners looking to fight the risks of wildfire spreading to their homes and property. Wildfires are burning over longer seasons and more intensely than ever before, and everyone living in a wildland-urban interface or wildland-adjacent area should take precautionary steps to mitigate the risk of property damage. In *Firescaping Your Home*, Adrienne Edwards and Rachel Schleiger provide expert guidance and specific recommendations on how to harden your home against fire and create defensible space that is lush and attractive. They also provide in-depth native plant lists of hundreds of species that have evolved to coexist with fire in the West, and show how and why including these on your property sustains wildlife and can actually be your most powerful defense.

A Fire Story Brian Fies,2019-03-05 The award-winning author and illustrator presents a personal account of the Northern California wildfires of 2017 in this moving graphic memoir. On October 9th, 2017, wildfires burned through Northern California, resulting in forty-four fatalities and the destruction of thousands of homes. In *A Fire Story*, Brian Fies shares an unflinching account of this tragedy as he and his wife experienced it—including losing their house and every possession that didn't fit in their car. As the fires continued to burn through the area, Brian pulled together *A Fire Story* and posted it online. It immediately went viral. He later expanded the webcomic to include environmental insight and the fire stories of his neighbors. *A Fire Story* is a candid testimony of the wildfires that left homes destroyed, families broken, and a community determined to rebuild. This updated and expanded

edition includes thirty-two pages of all-new material, extending the story past the events of the hardcover edition to include updates on the rebuilding, wrestling with insurance, wrangling with contractors, the management of sometimes volatile emotions, and the threats of yet another wildfire.

Designing with Succulents Debra Lee Baldwin,2011-03-18 Succulent plants offer dazzling possibilities for garden design and require only minimal maintenance to remain lush and alluring year round. Featuring the work of more than 50 professional garden designers and creative homeowners, this complete design compendium is as practical as it is inspirational. Lavishly illustrated with over 300 photographs, it gives design and cultivation basics for paths, borders, slopes, and containers; hundreds of succulent plant recommendations; and descriptions of 90 easy-care, drought-tolerant companion plants. Beginners and experienced designers, landscapers, and collectors alike will find what they need to visualize, create, and nurture the three-dimensional work of art that is the succulent garden.

We Will Live in This Forest Again Gianna Marino,2020-10-06 When wildfires consume their forest home, the animals must flee--but as the flames subside, they return and look to new beginnings . . . At first, they didn't notice the spark flying above the dry treetops. But then the smoke blew from the north, and the flames began to grow. . . This story of recovery and resilience will comfort young readers concerned about forest fires, reassuring them that in time new growth will sprout and, like the wildlife in the story, we can rebuild. Lush watercolor illustrations explore the bittersweet cycle of burning and rebirth in the forest, following a lone deer as it sees its only home scorched by flame--and later, returns to find new plants already sprouting, the promise of a day when the air will be filled with birdsong once again. As a Northern California resident, Gianna Marino witnessed the 2017 Sonoma wildfire firsthand when it came within inches of destroying her property. Her personal experience is palpably reflected through her portrayal of dignified animal silhouettes and stark, ashen landscapes in the wake of the flames. The book closes with an essay describing her encounter with the wildfire. Accessible information on wildfires, including a list of recommendations for further reading, is also included. Fans of Chelsea Clinton's *Don't Let Them Disappear* will recognize Gianna's distinctive, beautiful art and appreciate the hopeful ecological message of *We Will Live in This Forest Again*. Parents and children with a soft spot for the fragile ecology of the forest will connect immediately with this book, and gain appreciation for what it takes to protect the natural world.

Home Landscaping for Fire ,2007 Incorporating fire safe concepts into your landscape is one of the most important ways you can help your home survive a wildfire. You can have both a beautiful landscape and a fire safe home when you establish and maintain a defensible space.

What You Take with You Therese Greenwood,2019-04-02 Four years after Therese Greenwood and her husband moved to Fort McMurray, Alberta, their new community was devastated by one of the worst wildfires in Canadian history. As the flames approached, they had only minutes to pack, narrowly escaping a fire that would rage for weeks, burn more than 85,000 hectares and force 80,000 people to flee. This skillfully told first-person account is more than a disaster narrative: Greenwood's experience and skill as a journalist and a mystery writer engages and maintains suspense. Her portrayal of how people behave in an emergency and how a community comes together is uplifting. Her stories of what she saved from the fire will resonate with anyone who has lived through a crisis, and help make sense of a life-changing event that garnered interest throughout the world.

The Homeowner's Guide to Wildfire Prevention Robert Sieben,2014-05 Once a major wildfire is burning, it's too late for fire prevention and sometimes beyond the efforts of firefighters. That's why the most important person preventing a house from burning is the homeowner. If you live in an area threatened by wildfires, here are the most important steps you can take to preserve your home. Install an automatic gas shut off valve. Ember-proof your home. Keep decks clear. Create and maintain a non-ignition zone adjacent to your house. Remove junipers from your property. Take advantage of the wet season for vegetation management. Provide both vertical and horizontal spacing between plants and trees. Your fire insurance will not replace the time, anguish, valued personal items, or loss of community that occurs when your house burns down. The Homeowner's Guide to Fire Prevention provides information that may save your home.
