*Zoo Portraits* Yago Partal,2017 While a fantastic cause, can the task of protecting animal rights and habitats also be fun? The answer for Spanish photographer Yago Partal is yes! as he joyfully embraces important environmental activism with his form of inventive entertainment. His aim is to increase our awareness of animals who need protection - from the Amur leopard to the plains zebra - with his Zoo Portraits project, which launched in 2013. The project presents animals in anthropomorphized form, wearing clothing and accessories that echo the animal's temperament and preferred habitat. It is not Partal's intention to create distance or make light of the animals, but rather to make people think and nudge them to get involved in protecting animals via pictures, education, and awareness. Mission accomplished: Yago Partal's wonderful animal portraits have found a huge audience, with media like CBS and the Daily Mail reporting enthusiastically on the phenomenon. Beautiful, functional products including iPhone cases and even clothes hangers are available for purchase under the Zoo Portraits label. Ten percent of all proceeds are donated to animal welfare organisations. The book has the same objective: to make people smile as well as inform them. In addition to the unique pictures, there is information on each animal's habitat, size, and population as well as interesting and surprising facts. Presented in a clear and attractive format, this book is equally exciting for children and adults. AUTHOR: Yago Partal studied visual arts at the University of Barcelona. One of his creative projects gave him the inspiration for Zoo Portraits. With his enthusiasm for animals, cartoons, and fashion, he began experimenting with the popular anthropomorphisation of animals; the result was a cosmos of unique artworks. Yago Partal's work has been the subject of shows in Barcelona, London, Montreal, and Tokyo. His customers include world-renowned companies such as Apple and Body Shop. SELLING POINTS: \* A creative animal atlas - new, unexpected, educational \* Unique portraits of both familiar and less-known species as you've never seen them before \* Lots of fun for everyone interested in animals and anyone who wants to join the movement to help protect them 70 colour photographs

The Design, Production and Reception of Eighteenth-Century Wallpaper in Britain Clare Taylor,2018-06-12 Wallpaper's spread across trades, class and gender is charted in this first full-length study of the material's use in Britain during the long eighteenth century. It examines the types of wallpaper that were designed and produced and the interior spaces it occupied, from the country house to the homes of prosperous townsfolk and gentry, showing that wallpaper was hung by Earls and merchants as well as by aristocratic women. Drawing on a wide range of little known examples of interior schemes and surviving wallpapers, together with unpublished evidence from archives including letters and bills, it charts wallpaper's evolution across the century from cheap textile imitation to innovative new decorative material. Wallpaper's growth is considered not in terms of chronology, but rather alongside the categories used by eighteenth-century tradesmen and consumers, from plains to flocks, from China papers to papier mâché and from stucco papers to materials for creating print rooms. It ends by assessing the ways in which eighteenth-century wallpaper was used to create historicist interiors in the twentieth century. Including a wide range of illustrations, many in colour, the book will be of interest to historians of material culture and design, scholars of art and architectural history as well as practicing designers and those interested in the historic interior.

London Wallpapers Treve Rosoman,2009 London Wallpapers, first published in 1992, has long been out of print. In this new, revised edition there is a substantially enlarged list of wallpaper manufacturers in all their various guises; stationers, paper stainers, paper hanging manufacturers, paper hangers, even Thomas William Paul fancy cabinet maker & paper stainer. The list has doubled in size to nearly 800 names covering the longer period 1690 to 1840. Also included for the first time is a particularly fine water-colour of a hand-block printer at work c.1880; a time when the process had achieved its apogee but had not yet been totally replaced by mechanical printing methods. The book describes the method in which rag-based paper was made for wallpaper use, the manner in which wallpaper was printed using hand-carved wooden blocks - with a detailed description of printing flock papers, a fashion for which has recently re-emerged. There is a brief description of the taxes on wallpaper introduced in 1712 and which still govern the normal length of paper today. The various ways that paper were designed and the methods by which wallpaper was hung are also covered. Finally in the text there is an examination of how the London wallpaper trade worked, looking briefly at one of the great eighteenth century paper stainers Thomas Bromwich, at the Sign of the Golden Lyon on Ludgate Hill, near St Paul's Churchyard. The book has 16 black and white pictures, mostly of eighteenth century trade cards used by wallpaper merchants as advertisements and for writing out receipts. Most notably the book has 40 full colour plates of London made wallpapers with descriptions of each paper and the house from which it came.
