James L. Butler, John J. Butler

Cucamonga Valley Wine George M. Walker & John Peragine, 2017-09-11 The Cucamonga Valley was once America's largest wine-producing region, crafting quality vintages decades before Napa and Sonoma. Secondo Guasti, an ambitious and enterprising Italian immigrant, established the region's first vineyard in 1901, and others soon followed. Wineries like the Vai Brothers, Padre, Galleano, Brookside and more made the valley the epicenter of a burgeoning industry. Not even Prohibition could halt production. While domestic breweries and distilleries shuttered, Cucamonga's brandy and sherry continued to be legally made for culinary and medicinal purposes. Yet by the late 1970s, harvests had dwindled and vineyards vanished. Urbanization, vine disease and property taxes effectively ended production. Today, local vintners and wine enthusiasts are reviving the region's proud heritage. Authors George M. Walker and John Peragine uncork a legacy too delectable to die.

Indiana Wine James L. Butler, John J. Butler, 2001-10-03 During election years in the early 1800s, touring politicians would often stop at Vevay in an effort to gather votes. On one such occasion the governor, Jonathan Jennings, was visiting Vevay with his entourage. They all stopped at Father Morerod's home to taste some of his wine. The governor and one or two others from abroad, being unaccustomed to wine, became considerably befuddled, as did some of the 'Vevay boys.' The way back to town was blocked by a large growth of dog fennel, a yellow flowering weed. The politicians passed through this field wearing white trousers and shirts. In their confused condition they soon emerged and presented to the townsfolk an amusing spectacle of the governor and fellow dignitaries wearing yellow pants and yellow spotted vests. -- From *Indiana Wine: A History* John James Dufour arrived in America in 1796, looking for land for a colony of 'vinedressers.' They first settled in Kentucky, but then purchased land in the Indiana Territory on the north bank of the Ohio River. Here, in the town they called Vevay, the Swiss winegrowers successfully produced America's first commercial wines. In *Indiana Wine*, a richly anecdotal history of wine production in Indiana, James L. and John J. Butler relate a vintage story of early triumph, followed by precipitous decline, and ending in present-day success. Though the economic decline of the 1820s ended the first flowering of Indiana vineyards, John James Dufour continued his work, and in 1826 he published the first book written about American grape growing and winemaking. Thereafter the heart of America's wine production was centered near Cincinnati, Ohio. That industry collapsed in the 1870s, but small wineries could still be found scattered across southern Indiana. With the coming of Prohibition, the idea of Indiana wine was lost. It was not until the passing of the Small Winery law in 1971 that winemaking began anew in the state. Today some 25 wineries, large and small, produce a wide variety of Indiana wine.

Rogue Valley Wine MJ Daspit, Eric Weisinger, 2011-03-28 Winemaking in Oregon began more than 150 years ago when Peter Britt of Jacksonville brought grapevine cuttings from California to create his Valley View Vineyard. By 1890, the Southern Oregon State Board of Agriculture forecast a vineyard-dotted Rogue Valley to rival the castled Rhine, the classical vales of Italy and the sunny slopes of France. But Prohibition, which became law in Oregon four years before the rest of the country, killed the nascent industry. Not until the 1970s, when Americans discovered a passion for wine, was

winegrowing and winemaking in Southern Oregon's Rogue Valley reestablished. Pear orchards were converted to vineyards, and winemaking--not on a California scale, but rather in boutique wineries tucked away along scenic country roads--began anew and thrived.

American Wine Jancis Robinson, 2013 Over the past three decades, a wine revolution has been taking place across the United States. There are now more than 7,000 American wine producers--up from 440 in 1970--and the best bottles are every bit as good as the finest wines of Europe. *American Wine* is the first comprehensive and authoritative reference on the wines, wineries, and wine makers of America. Written by world-renowned wine author Jancis Robinson and U.S. wine expert Linda Murphy, this book is the natural companion to the international bestseller, *The World Atlas of Wine*. More than 200 breathtaking photographs, profiles of key personalities, and informational graphics bring to life the vitality of American wine culture and 54 detailed full-color maps locate key regions, wineries, and vineyards. Organized by geographical region, *American Wine* concentrates on areas such as California that produce the finest wines, yet ventures across the entire country to introduce gems such as Rieslings from Michigan, bright-fruited Tempranillo from Texas and southern Oregon, and uniquely characterful Nortons from the Midwest--

American Winescapes Gary L Peters, 2018-02-12 Winescapes are unique agricultural landscapes that are shaped by the presence of vineyards, winemaking activities, and the wineries where wines are produced and stored. Where viticulture is successful it transforms the local landscape into a combination of agriculture, industry, and tourism. This book demystifies viticulture in a way that helps the reader understand the environmental and economic conditions necessary in the art and practice of wine making. Distinctive characteristics of the book include a detailed discussion of more than thirty grape cultivars, an overview of wine regions around the country, and a survey of wine publications and festivals. Peters discusses the major environmental conditions affecting viticulture, especially weather and climate, and outlines the special problems the industry faces from lack of capital, competition, and changing public tastes.

Finger Lakes Wine Country Sarah Thompson, 2015-03-23 For more than 150 years, Finger Lakes Wine Country has played a major role in American wine history. At its heart are the four deepest Finger Lakes, part of a group of 11 long, narrow lakes in central New York. There, nestled among Canandaigua, Keuka, Seneca, and Cayuga Lakes, farmers began planting vineyards in the 1830s. In 1860, the Pleasant Valley Wine Company became America's first bonded winery, turning Keuka Lake into a busy shipping hub for fresh grapes and award-winning champagnes. Other wineries soon followed, as did railroads and basket factories. Early 20th century business was good until Prohibition forced wineries to reinvent themselves. In the 1950s and 1960s, innovators

like Charles Fournier, Dr. Konstantin Frank, and Walter S. Taylor experimented with hybrid and European vinifera grape varieties. But by the 1970s, local grape growers faced extinction; it would take a grassroots movement and landmark legislation in 1976 to bring about a Finger Lakes wine renaissance.

Oregon Wine: A Deep Rooted History Scott Stursa, 2019 The history of winemaking in Oregon is steeped in legends so well known they've become gospel, but reality is even more fascinating. Learn about Portland's daring Italian Americans, who kept home wineries during Prohibition, and the flourishing agriculture that contributed to the popularity of fruit wine. From the nineteenth-century winemakers through the modern industry that now includes more than seven hundred wineries, places like HillCrest and The Eyrie have been serving Oregonians for a half century. Uncover the forgotten roots of Oregon wine with author Scott Stursa and raise a glass to its prosperous future.

Sonoma County Wineries Thomas Maxwell-Long, 2001-12 As early as the California Gold Rush of the mid-19th century, the first settlers of Sonoma County recognized that the rich soil and unique array of climates of the region's valleys were particularly conducive for the ages-old livelihood of viticulture. Beginning in 1857 with Buena Vista Winery, Sonoma became one of the preeminent winemaking regions in the world. Chronicled here in over 200 vintage images is Sonoma's wine producing history, covering its many wineries, vineyards, towns, and townsfolk that grew up alongside the development of this fantastic agricultural enterprise. The first Sonoma County venture was Buena Vista Winery, founded in 1857 by the eccentric Count Agoston Haraszthy. Since then, and over the course of the next 150 years, hundreds of wineries would dot the landscape; while some succeeded and lasted through the years, others fell in the face of life's trials, including earthquakes, wildfires, and Prohibition. Covering three centuries of award-winning winemaking, this new book captures in photographs the history of some of the world's most famous wineries, their proprietors, workers, and families, including those from Korbel, Geyser Peak, Simi, Sebastiani, Pedroncelli, Orr, Seghesio, and Ravenswood.

Southern California Wine Country Through Time Marge Bitetti, 2019 Grapes have been grown in the Temecula Valley since the mission days in the 1830s, but the development of the region as a renowned wine-producing area occurred centuries later. Temecula Valley received formal recognition as an American Viticultural Area in 1984. Viticulture refers to the cultivation and harvesting of grapes. Temecula Valley has over forty licensed wineries, producing over 500,000 cases annually. The name Temecula comes from the Luiseño Indian word Temecunga--temet meaning sun and -ngna which means place of. The Spanish settlers who came into the region translated the word to mean, where the sun breaks through the mist. The city of Temecula is in the extreme southwestern section of Riverside County and is 58 miles north of San Diego, and 86 miles from Los Angeles. Visitors can enjoy award-winning wines in a friendly, welcoming atmosphere set in the beauty of the verdant Temecula Valley. In 2019, a popular magazine for wine connoisseurs named Temecula as one of the ten best wine vacation destinations in the world.
