Stakeholder Analysis and Sport Organisations Anna-Maria Strittmatter, Josef Fahlén, Barrie Houlihan, 2021-12-26 This book provides a critical examination of the origins and development of stakeholder theory within sport management research and expands the existing literature by providing insights on stakeholding in sport from various perspectives, such as governance, communication and marketing. Examining cases from around the world and from a wide range of different sporting contexts, each chapter reflects on key insights derived from stakeholder theory before offering an analysis of the limitations of the theory and the ways in which it might be fruitfully extended or developed. It offers suggestions on how the literature on stakeholding in sport can be advanced in order to provide knowledge relevant not only to sport studies but also to organisation theory more broadly and points to future avenues of inquiry in order to extend the reach of stakeholder theory and other inter-organisational perspectives in sport management research. *Stakeholder Analysis and Sport Organisations* is fascinating reading for any advanced student, researcher, policy-maker or practitioner with an interest in sport management, sport governance, sport development or organisational theory.

Storytelling in the Modern Board Game Marco Arnaudo, 2018-08-30 Over the years, board games have evolved to include relatable characters, vivid settings and compelling, intricate plotlines. In turn, players have become more emotionally involved--taking on, in essence, the role of coauthors in an interactive narrative. Through the lens of game studies and narratology--traditional storytelling concepts applied to the gaming world--this book explores the synergy of board games, designers and players in story-oriented designs. The author provides development guidance for game designers and recommends games to explore for hobby players.

New Boots in New Zealand Gillian Orrell, 2010-04 When Gillian Orrell abandoned corporate life in London to tramp New Zealand's nine Great Walks, she had little idea of what to expect. But uncertainty and inexperience soon gave way to the challenge of the walks themselves, as she embarked on the greatest adventure of her life. Fighting snowstorms, blisters and the attentions of unwanted tramping companions, she determined to enjoy whatever fate might throw her way. The hazards were soon outweighed by the natural splendour of New Zealand's great outdoors, as she trekked over mountains, through rivers, along beaches, past glaciers, into craters, around lakes, beside active volcanoes and through some of the oldest forests in the world. **NEW BOOTS IN NEW ZEALAND** is a day-by-day account of all nine Great Walks, from the majesty of the famous Milford Track to the unexpected variety of the Heaphy and the beguiling mystery of the Whanganui River Journey. Full of humour and joie de vivre, it is a hugely enjoyable armchair read as well as an essential source of information for anyone intending to walk in New Zealand.

Risk Management in the Outdoors Tracey J. Dickson, Tonia L. Gray, 2011-11-23 Risk Management

in the Outdoors is essential reading for students and practitioners involved in outdoor education, sport, recreation and tourism. Written by an expert author team, it explores the value of the outdoors in a society that is increasingly risk-averse, but at the same time pushes the commodification of high risk and extreme activities. Drawing upon the risk management process from the International Standard on Risk Management, ISO 31000, this text adopts a whole-of-organisation approach to risk management. It covers: • organisational sustainability • legal issues • program design • activities • severe weather scenarios • incident analysis . Risk Management in the Outdoors provides direction on how best to manage the 'down-side' of risk taking while maximising the potential benefits. Each chapter contains focus questions, case studies, action points for practitioners, plus further questions and activities.

The Power of Sports Michael Serazio, 2019-04-23 A provocative, must-read investigation that both appreciates the importance of—and punctures the hype around—big-time contemporary American athletics In an increasingly secular, fragmented, and distracted culture, nothing brings Americans together quite like sports. On Sundays in September, more families worship at the altar of the NFL than at any church. This appeal, which cuts across all demographic and ideological lines, makes sports perhaps the last unifying mass ritual of our era, with huge numbers of people all focused on the same thing at the same moment. That timeless, live quality—impervious to DVR, evoking ancient religious rites—makes sports very powerful, and very lucrative. And the media spectacle around them is only getting bigger, brighter, and noisier—from hot take journalism formats to the creeping infestation of advertising to social media celebrity schemes. More importantly, sports are sold as an oasis of community to a nation deeply divided: They are escapist, apolitical, the only tie that binds. In fact, precisely because they appear allegedly “above politics,” sports are able to smuggle potent messages about inequality, patriotism, labor, and race to massive audiences. And as the wider culture works through shifting gender roles and masculine power, those anxieties are also found in the experiences of female sports journalists, athletes, and fans, and through the coverage of violence by and against male bodies. Sports, rather than being the one thing everyone can agree on, perfectly encapsulate the roiling tensions of modern American life. Michael Serazio maps and critiques the cultural production of today’s lucrative, ubiquitous sports landscape. Through dozens of in-depth interviews with leaders in sports media and journalism, as well as in the business and marketing of sports, *The Power of Sports* goes behind the scenes and tells a story of technological disruption, commercial greed, economic disparity, military hawkishness, and ideals of manhood. In the end, despite what our myths of escapism suggest, Serazio holds up a mirror to sports and reveals the lived realities of the nation staring back at us.

Opportunity in New Zealand Michael Hardwick, 1955 I believe I may say that the chances many of you have long imagined for yourselves are to be found in this attractive country, says the Rt. Hon. S.G. Holland, C.H., Prime Minister of New Zealand, in his foreword to *Opportunity in New Zealand*. This view is shared by its author ... who spent seven years there recently and was able to examine at first hand the conditions of living and working in the richly endowed Dominion whose living standards are among the world's highest and where unemployment is virtually unknown, yet whose population shortage means a continuing need for new settlers to share in its prosperity. The book is concerned with facts, not opinions, though the author has not hesitated to where necessary to criticise aspects of New Zealand life from a Briton's point of view. Appendices include details of wage rates, social security benefits, taxation, average retail prices, etc.--Inside front cover.
