It's OK to Be Different Richard Berger,Scott McGowan,2020-10-27 In a world which tends to reinforce conformity rather than being different, the story of Brody the Boxer AKA Hollywood teaches children that it's OK to be different, important to be kind and that there are solutions to challenges. Brody the Boxer was adopted by a kind man named Richard when he was just 6 weeks old. He has led the typical life of a family pet in some ways, but in other ways he has also had more interesting types of adventures and outings than some other dogs. Brody is a very popular dog, and much more well known around his hometown than a lot of other dogs. Not only is he famous on Facebook, but he has proven, thanks to the kindness of others that there are ways to deal with unexpected challenges....like his Degenerative Myelopathy. Brody's back legs no longer work, but with his own special doggy wheelchair and roller skates, he still gets to enjoy all the same kinds of things he did before he developed this disease. Brody is a very special dog who wins the hearts of children, adults and other dogs as well. Children may be surprised by some of the things they learn about him in this introductory book. Like that he got married or likes to help with the grocery shopping.We hope that meeting Brody and following his adventures will teach children that it's OK to be different and that we should accept and be respectful of individual differences - knowing that deep down inside - we're really all the same.

Flickering Treasures Amy Davis,2017-08-01 These vintage and contemporary images of Baltimore movie palaces explore the changing face of Charm City with stories and commentary by filmmakers. Since the dawn of popular cinema, Baltimore has been home to hundreds of movie theaters, many of which became legendary monuments to popular culture. But by 2016, the number of cinemas had dwindled to only three. Many theaters have been boarded up, burned out, or repurposed. In this volume, Baltimore Sun photojournalist Amy Davis pairs vintage black-and-white images of downtown movie palaces and modest neighborhood theaters with her own contemporary color photos. Flickering Treasures delves into Baltimore’s cultural and cinematic history, from its troubling legacy of racial segregation to the technological changes that have shaped both American cities and the movie exhibition business. Images of Electric Park, the Century, the Hippodrome, and scores of other beloved venues are punctuated by stories and interviews, as well as commentary from celebrated Baltimore filmmakers Barry Levinson and John Waters. A map and timeline reveal the one-time presence of movie houses in every corner of the city, and fact boxes include the years of operation, address, architect, and seating capacity for each of the 72 theaters profiled, along with a brief description of each theater’s distinct character.

Football in Baltimore Ted Patterson,Dean Smith,2013-11-06 He includes the next chapters in this eventful story: the fight to bring pro football back to the city, the dawn of the Ravens era, and the building of a new football stadium in downtown Baltimore.

Planetology Tom Jones,2008 In this new view of the planets, images from NASA and other space agencies reveal how volcanoes, wind, asteroids, and flowing fluids have shaped the entire solar system - and tell us about the history and future of our Earth. Planetology pairs dramatic images of Earth's terrain with the latest, astonishing views of alien surfaces - examining landforms never before seen and highlighting, for the first time, the similarities between Earth and its sister planets. Using the very best and latest NASA images - including those from the Cassini mission to Saturn and the fleet of spacecraft on and around Mars - Planetology examines the forces that shape the solar system, comparing mountains, craters, volcanoes, glaciers, and other landscapes across its myriad planets and moons.--BOOK JACKET.
