Conix Architects Conix Architects (Firm),Kas Oosterhuis,Moniek E. Bucquoye,2007 The Belgian architecture firm Conix was founded in 1979 and has, in nearly three decades led by Christine Conix, architect Sylvie Bruyninckx and interior designer An Steylaerts, grown to a staff of 55. No other firm is as widely represented along the quays of Antwerp, but that accomplishment doesn't convey the exceptional diversity of their projects, both residential and business. In recent years, Conix has received a great deal of international attention for one project in particular: the just-completed renovation of the midcentury design landmark, the Atomium, in Brussels, a replica of an atom that stands more than 300 feet high, with a different space in each 60-foot sphere, from a children's museum to a restaurant. Conix Architecten features an exceptionally sleek interior design and the book's pages are even edged in silver. With special emphasis on the Atomium, it features a selection of outstanding recent projects in 200 illustrations.

Game Sense Richard Lawrence Light, 2013 Game Sense is an exciting and innovative approach to coaching and physical education that places the game at the heart of the session. It encourages the player to develop skills in a realistic context, to become more tactically aware, to make better decisions and to have more fun. The first section of the book helps the reader to understand how learning occurs and how this informs player-centred pedagogy. It also explains the relationship between Game Sense and other approaches to Teaching Games for Understanding. The second section of the book demonstrates how the theory can be applied in practice, providing a detailed, step-by-step guide to using Game Sense in eleven sports, including soccer, basketball, field hockey and softball. Dayr Al-Barshā Harco Willems, Lies op de Beeck, 2007 This is the first volume of the final reports of the Mission of the K.U. Leuven in Dayr al-Barsha

(Middle Egypt). It contains the publication (in colour photographs and line drawings in colour) of three small tombs probably dated immediately after the Unification of Egypt in the reign of pharaoh Mentuhotep II (XIth Dynasty). After an introduction on the long-term research strategy of the Dayr al-Barsha project it first offers an account of the setting of the tombs and of earlier research carried out there. This is followed by a detailed account of each of the three monuments, including a detailed philological commentary of the texts. These include two autobiographical inscriptions, of which one has received little attention, while the other is here published in full for the first time. The scant archaeological remains found in the tombs are also dealt with in detail. The two tombs are contemporary with that of the nomarch Ahanakht I, and offers a rare insight into the functioning of a nomarchal court in the early Middle Kingdom. The last chapter offers an analysis of this, and also advances a hypothesis on the way king Mentuhotep succeeded in integrating the Middle Egyptian provincial elites into the newly united kingdom.

Star Trek Paula M. Block, Terry J. Erdmann, 2013-09-24 Ever since Star Trek first aired on television in 1966, the series has had a strong influence on pop culture. In 1976, due to the show's rising popularity in syndication, Topps released a series of collectible trading cards featuring full-color images from the classic television series created by Gene Roddenberry, as well as synopses and information on the cast and crew of the Starship Enterprise. This first-ever compilation includes the fronts and backs of all 88 cards and 22 rare and hard-to-find stickers (which were originally sold one per pack), as well as text and commentary by Star Trek insiders Paula M. Block and Terry J. Erdmann--guaranteed to please the die-hard Trekkie as well as a whole new generation of fans. Praise for Star Trek: The Original Topps Trading Card Series If you're like me, most of those cards are long gone by now, so I've loved the hardcover books devoted to the company's various product lines. --USA Today's Pop Candy blog

Childhood Jona Oberski, 2014-11-25 A rediscovered masterpiece: an unblinking view of the Holocaust through a child's eyes Told from the perspective of a child slowly awakening to the atrocities surrounding him, Childhood is a searing story of the Holocaust that no reader will soon forget. As five-year-old Jona waits with his mother and father to emigrate from Nazi-occupied Amsterdam to Palestine, they are awakened at night, put on a train, and eventually interred in the camps at Bergen-Belsen. There, what at first seems to be a merely dreary existence soon reveals itself to be one of the worst horrors humanity has ever created. A triumph of heartrending clarity and dispassionate amazement, Childhood stands tall alongside such monuments of Holocaust literature as The Diary of Anne Frank, Elie Wiesel's Night, and Primo Levi's Survival in Auschwitz. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Exploring the Social Impacts of Events Greg Richards, Marisa de Brito, Linda Wilks, 2013-03-12 Social impacts are increasingly used as one of the main justifications for staging and funding events, and yet there is very little empirical evidence on the extent to which these impacts are realised by different kinds of events or in different settings. This timely volume fills this gap by being the first to explore the different social aspects of events, looking in particular at the role of events in developing social capital, social cohesion and participation in local communities. Based on cutting edge empirical research, it evaluates the contribution of both cultural and sports events to social capital, social cohesion, community spirit and local pride in range of different types of events and settings, with case studies drawn from Europe, Australia and South Africa. It therefore furthers knowledge about the social benefits and impacts of events and significantly contributes to the development of Events as a discipline. Written by leading academics in this area, this volume is essential reading for all those interested in Events Management and Studies.
