Weather on the Air Robert Henson,2013-01-22 From low humor to high drama, TV weather reporting has encompassed an enormous range of styles and approaches, triggering chuckles, infuriating the masses, and at times even saving lives. In *Weather on the Air*, meteorologist and science journalist Robert Henson covers it all—the people, technology, science, and show business that combine to deliver the weather to the public each day. Featuring the long-term drive to professionalize weathercasting; the complex relations between government and private forecasters; and the effects of climate-change science and the Internet on today's broadcasts. With dozens of photos and anecdotes illuminating the many forces that have shaped weather broadcasts over the years, this engaging study will be an invaluable tool for students of broadcast meteorology and mass communication and an entertaining read for anyone fascinated by the public face of weather.

Life or Debt 2010 Stacy Johnson,2009-12-29 As creator and host of the hugely successful *Money Talks* television news series, Johnson has helped millions of people get out of debt, achieve financial freedom, and earn from wise investments. Now, in this practical book, Johnson shares the secrets of his amazing program that will help readers gain financial freedom. Freedom from debt has almost nothing to do with how much a person earns or how much they know about finance. It all comes down to three basic principles: get rid of the debt, learn to live below your means, and start investing sensibly. In *Life or Debt*, Johnson spells out exactly how to accomplish these goals in a step-by-step plan that covers the basics in a plan that takes seven days to implement— but will work for a lifetime.

Contextualizing Disaster Gregory V. Button,Mark Schuller,2016-09-01 *Contextualizing Disaster* offers a comparative analysis of six recent highly visible disasters and several slow-burning, hidden, crises that include typhoons, tsunamis, earthquakes, chemical spills, and the unfolding consequences of rising seas and climate change. The book argues that, while disasters are increasingly represented by the media as unique, exceptional, newsworthy events, it is a mistake to think of disasters as isolated or discrete occurrences. Rather, building on insights developed by political ecologists, this book makes a compelling argument for understanding disasters as transnational and global phenomena.

Teletext Leonard R. Grazioplene,2000 Teletext was a technology developed in Europe in the late 1970s and perfected in North America during the early 1980s by the Canadian Department of Communications and AT&T. Teletext was a digital database transmitted along with a regular television signal. It enabled broadcast, PBS, and cable statio

Leave Something on the Table Frank Bennack, 2019-10-15 One of the most innovative minds in business provides an equally original guide to getting ahead. Frank Bennack's accomplishments in media and business are unrivaled. He was named chief executive of Hearst in 1979, and for nearly 30 years he helped solidify the company's reputation as a leader in consumer media, overseeing the purchase of more than two dozen television stations and several major newspapers (Houston Chronicle), the launch of top-selling magazines (O, The Oprah Magazine), and a partnership with ABC, now the Walt Disney Company, to create the pioneering cable networks A&E, HISTORY, and Lifetime. One of his greatest achievements was when, in 1990, he negotiated a 20 percent stake in ESPN for \$167 million. The sports network would be valued by market analysts at roughly \$30 billion. He also played a key role in Hearst's march toward diversification, with acquisitions of business media assets including global ratings agency Fitch Group. In *Leave Something on the Table*, Bennack takes readers behind the scenes of these high-stakes moves and offers practical tips for excelling in the corporate world and beyond. He tells stories from his Texas childhood—a first job at 8, his own television show at 17—that foretold why he would become a CEO at 46. And he shares his encounters with US presidents, reflects on his longtime commitment to philanthropy, and describes his and his colleagues' unwavering quest to build the visionary Hearst Tower. This is a heartfelt handbook for how to advance not only as a professional but as a person. As Bennack writes, "It's not currently fashionable to make the case for the high road. It looks longer, and old-fashioned, and it's easy to conclude that while you're climbing the ladder, burdened by your values, others are reaching the top faster. But if the stories in these pages suggest a broader truth, it's exactly the opposite: The high road is quicker, with a better view along the way, and more satisfaction at the summit."

On Pluto: Inside the Mind of Alzheimer's Greg O'Brien, 2018-02-27 This is a book about living with Alzheimer's, not dying with it. It is a book about hope, faith, and humor—a prescription far more powerful than the conventional medication available today to fight this disease. Alzheimer's is the sixth leading cause of death in the US—and the only one of these diseases on the rise. More than 5 million Americans have been diagnosed with Alzheimer's or a related dementia; about 35 million people worldwide. Greg O'Brien, an award-winning investigative reporter, has been diagnosed with early-onset Alzheimer's and is one of those faceless numbers. Acting on long-term memory and skill coupled with well-developed journalistic grit, O'Brien decided to tackle the disease and his imminent decline by writing frankly about the journey. O'Brien is a master storyteller. His story is naked, wrenching, and soul searching for a generation and their loved ones about to cross the threshold of this death in slow motion. *On Pluto: Inside the Mind of Alzheimer's* is a trail-blazing roadmap for a generation—both a "how to" for fighting a disease, and a "how not" to give up!

The Second Home Christina Clancy, 2020-06-02 A novel of family and place and belonging. —Rebecca Makkai, Pulitzer Prize finalist Tender and suspenseful. —Chloe Benjamin, New York

Times bestselling author Some places never leave you... After a disastrous summer spent at her family's home on Cape Cod when she is seventeen, Ann Gordon is very happy to never visit Wellfleet again. If only she'd stayed in Wisconsin, she might never have met Anthony Shaw, and she would have held onto the future she'd so carefully planned for herself. Instead, Ann ends up harboring a devastating secret that strains her relationship with her parents, sends her sister Poppy to every corner of the world chasing waves (and her next fling), and leaves her adopted brother Michael estranged from the family. Now, fifteen years later, her parents have died, and Ann and Poppy are left to decide the fate of the beach house that's been in the Gordon family for generations. For Ann, the once-beloved house is forever tainted with bad memories. And while Poppy loves the old saltbox on Drummer Cove, owning a house means settling, and she's not sure she's ready to stay in one place. Just when the sisters decide to sell, Michael re-enters their lives with a legitimate claim to a third of the estate. He wants the house. But more than that, he wants to set the record straight about what happened that long-ago summer that changed all of their lives forever. As the siblings reunite after years apart, their old secrets and lies, longings and losses, are pulled to the surface. Is the house the one thing that can still bring them together--or will it tear them apart, once and for all? Told through the shifting perspectives of Ann, Poppy, and Michael, this assured and affecting debut captures the ache of nostalgia for summers past and the powerful draw of the places we return to again and again. It is about second homes, second families, and second chances. Tender and compassionate, incisive and heartbreaking, *The Second Home* is the story of a family you'll quickly fall in love with, and won't soon forget.
