**Women Rocking Business** Sage Lavine, 2021-08-03 Women  
are rocking the world of business, changing the face of  
commerce, and bringing our talents to the marketplace with  
fervor, commitment, and passion. Over the last 15 years, women  
have stepped into entrepreneurship in significantly greater  
numbers than men, but we're also failing at those businesses  
even faster than men. This book is going to change that. *Women  
Rocking Business* provides a revolutionary approach to building a  
business that honors innate feminine values. The book is full of  
practical how-to's that will help women become thriving  
entrepreneurs from a place of empowering others rather than  
powering over them, a place of collaboration rather than  
competition and contribution rather than greed. Sage Lavine has  
seen firsthand through working with thousands of emerging  
female entrepreneurs that when women learn about marketing  
and entrepreneurship through this lens, they are better  
positioned to implement effective strategies and create success.  
Sage is the CEO of Women Rocking Business, a consulting and  
coaching organization that has touched and inspired over 75,000  
aspiring women entrepreneurs around the globe to build  
businesses that change the world. In this practical guidebook, she  
lays out a specific plan for building a business that honors work-  
life balance to a degree readers may not have thought possible  
(or practical). They will discover how, by working just 12 days a  
month or less, they can have a career that both supports them

financially and fits into their lives, rather than having to settle for a life that fits around an overwhelming work schedule. It's a new day and the opportunity for women is great. This book will be an answered prayer for women who hope to unleash their life's potential and make their mark upon the world.

*Yes, You Can Do This! How Women Start Up, Scale Up, and Build The Life They Want* Claudia Reuter, 2020-02-14 How women can "lean in" to entrepreneurship to create the life they want! Claudia Reuter left a promising corporate career to raise her two young children but realized, when re-entering the workforce, that the gap in her resume looked like a gap in ambition—not a purposeful plan. Instead of leaning into a corporate career and fighting the structures and systems designed by and for men decades ago, or leaning out and giving up income, Claudia took a different path. That decision ultimately led to success in the corporate world and at home. In *Yes, You Can Do This!* Claudia shares her own reasons for starting a business, and makes a call to action for women to consider entrepreneurship so that they can create businesses with the rules they want and change the playing field for others, making a significant impact in the world. More than a How-to book on building a business, Claudia provides clear examples and practical resources to help others create the life they want through entrepreneurship. In *Yes, You Can Do This!* you'll learn: How to develop and share your vision

How to deal with stereotypes and unconscious bias  
How to leverage perceived weaknesses and turn them into strengths  
How to balance life at high speeds and avoid burnout  
How to cultivate the confidence to move from idea to creating a company with the culture and rules you want

In *Yes, You Can Do This!* women are provided with an electrifying third career option: it's not just lean in or lean out, but startup and change the playing field for others in the process. Praise for *Yes, You Can Do This!* "Combining compelling storytelling with practical, tactical advice, Reuter has created a manifesto for the next generation of female founders. Rooted in the research around gender and work, this is a must read for women looking to launch the next new thing. - Jennifer McFadden, Associate Director of Entrepreneurial Programs, Yale School of Management

"A must-read for any woman considering taking the leap into entrepreneurship, *You Can Do This* brings together today's best thinking about women in the workplace with practical advice for creating your dream career and life - by starting a company. Whether you are just curious or ready to take the leap, this book is a great read and a valuable resource." -Anna Barber, Managing Director, Techstars

"Claudia helps not just the female entrepreneur, but all entrepreneurs, find their footing in what can be an overwhelming whirlwind of starting a business. This book is not only inspiring and uplifting, but positively necessary for any woman looking to find success in the startup space! -Shira Atkins, Co-founder & CMO Wonder Media Network

Stories of entrepreneurial success exist in abundance for men who receive 97.8% of venture funding and hold 95% of CEO roles. What is most inspiring about Claudia's book, making me want to shout from the rooftop, is that it is told from the perspective of an everyday woman who pushed hard through barriers, doubts, and setbacks that any entrepreneur would face. On top of all that, she overcame obstacles that are uniquely ours as women today. Claudia is now a standout among women, but with her book in hand, women who want to build a business to scale have a

blueprint and path to do so. Here's to making dreams come true! - Coco Brown, CEO and Founder, The Athena Alliance. As I read through the book, there were multiple points where I thought, 'Every man in any startup or fast-growing business should read this.' As a man in technology, I took away a number of new ideas, along with examples that were explained in a way that I wouldn't have been able to do prior to reading Claudia's book -Brad Feld, Managing Director, at Foundry Group, author of Venture Deals and Do More

**Girl Code** Cara Alwill, 2017-07-04 Women around the world have responded to Cara Alwill Leyba's Girl Code with a resounding YES. Companies like Kate Spade and Macy's have brought her in to teach "the Code." Inc. magazine named Girl Code one of the "Top 9 Inspiring Books Every Female Entrepreneur Should Read" alongside Lean In, #Girlboss, and Thrive. A few years ago, I made a crazy claim in the first edition of Girl Code: that in today's competitive marketplace, the fiercest thing a female entrepreneur can do is to support other women. Something dynamic happens when women genuinely show up for each other. When we lose the facades, cut the bullsh\*t, and truly have each other's backs. When we stop pretending everything is perfect, and show the messy, beautiful parts of ourselves and our work—which all look awfully similar. When we talk about our fears, our missteps, and our breakdowns. And most importantly, when we share our celebrations, our breakthroughs, and our solutions. I'm convinced that there's no reason to hoard information, connections, or insight. Wisdom is meant to be shared, so let's start sharing what we've learned to make each other better. Let's start building each other up. Let's live up to our potential and start ruling the world. Girl Code is a roadmap for female entrepreneurs, professional women, "side hustlers" (those with a day job plus a part-time small business), and anyone in between. This book won't teach you how to build a multimillion-dollar company. It won't teach you about systems or

finance. But it will teach you how to build confidence in yourself, reconnect with your “why,” eradicate jealousy, and ultimately learn the power of connection. Because at the end of the day, that’s what life and business are all about.

**Real You Incorporated** Kaira Sturdivant Rouda, 2010-12-30

In the first section of the book, Find It Within You, readers will learn how to express internal personality, passions and essence to define the internal brand. In the second section, The Competitive Advantage, readers learn how to extend the internal message into the world—to their partners, employees and ultimately their customers. Part branding—the author is a nationally known marketing expert—and part business inspiration, Real You Incorporated includes case studies of real women entrepreneurs from a variety of industries: manufacturing, retail, restaurants, real estate, publishing and many more. Their stories bring the book to life, adding inspiration and role models. The book also includes a visualization tool in the form of a chart that women entrepreneurs can complete and keep with them, to remind them of their Real You, no matter what phase their business is in.

### **Growth-oriented Women Entrepreneurs and Their**

**Businesses** C. G. Brush, Candida G. Brush, 2006-01-01 The female entrepreneurship researchers community has to thank these women for their brilliant work in reviewing, revising and selecting the best papers from the second Diana International Conference that were finally edited for this volume. . . the book is a good compendium of female entrepreneurship circumstances in different countries that focuses specifically on the explanation as to why gender plays a role in the number of ventures started by women and why they are in general smaller and less growth-oriented. Manuela Pardo-del-Val, *International Entrepreneurship and Management Journal* . . . this edited text draws upon a range of international contributors to present a comparative overview of challenges facing female entrepreneurs seeking to grow their firms. . . this is an interesting book that makes a welcome contribution to contemporary debate. Susan Marlow, *International Small Business Journal* The data and information presented in this work will be of particular interest to students and scholars of entrepreneurship or labor and women's studies. Recommended. General readers; upper-division undergraduate through professional collections. E.P. Hoffman, *Choice* Enterprising new firms drive economic growth, and women

around the world are important contributors to that growth. As entrepreneurs, they seize opportunities, develop and deliver new goods and services and, in the process, create wealth for themselves, their families, communities, and countries. This volume explores the role women entrepreneurs play in this economic progress, highlighting the challenges they encounter in launching and growing their businesses, and providing detailed studies of how their experiences vary from country to country. Statistics show that businesses owned by women tend to remain smaller than those owned by men, whether measured by the number of employees or by the size of revenues. Because women-led firms fail to grow as robustly, the opportunities to innovate and expand are limited, as are the rewards. Based on recent studies that examine the links between entrepreneurial supply and demand issues, this volume provides insights into how women around the world are addressing the challenges of entrepreneurial growth. The first set of chapters consists of country overviews and provides discussions of the state of women growing businesses. The second set of chapters describes research projects under way in different countries and explores more focused topics under the umbrella of women business owners and business growth. The volume concludes with an agenda and projects for future research. Academics and policymakers will gain a greater understanding of women's entrepreneurial behaviors and outcomes through this path-breaking volume. Those who support women through education and training, policymaking, or providing entrepreneurial resources will also find the volume of great practical interest.
