*Women in the Qur'an* Asma Lamrabet, 2016-07-25 Today, the issue of Muslim women is held hostage between two perceptions: a conservative Islamic approach and a liberal Western approach. At the heart of this debate Muslim women are seeking to reclaim their right to speak in order to re-appropriate their own destinies, calling for the equality and liberation that is at the heart of the Qur'an. However, with few female commentators on the meaning of the Qur'an and an overreliance on the readings of the Qur'an compiled centuries ago this message is often lost. In this book Asma Lamrabet demands a rereading of the Qur'an by women that focuses on its spiritual and humanistic messages in order to alter the lived reality on the ground. By acknowledging the oppression of women, to different degrees, in social systems organized in the name of religion and also rejecting a perspective that seeks to promote Western values as the only means of liberating them, the author is able to define a new way. One in which their refusal to remain silent is an act of devotion and their demand for reform will lead to liberation. Asma Lamarbet is a pathologist in Avicenna Hospital, Rabat, Morocco. She is also an award-winning author of many articles and books tackling Islam and women's issues. Myriam Francois-Cerrah is a writer and broadcaster whose articles have been published in the Guardian, Salon, and elsewhere.

**Woman in Islamic Shari'ah** Vahīduddīn Khān, 2000 The book tries to clear the notion that to interpret the Islamic concept of woman as, degradation of woman is to distort the actual issue. Islam has never asserted that woman is inferior to man: it has only made the point that woman is differently constituted. The prophet used a parable to explain the delicacy of women s nature, pointing out that they should be treated in accordance with their nature. Their delicate emotional constitution should always be borne in mind.

Qur'an and Woman Amina Wadud, 1999-06-10 Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with Qu'ran and Woman, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but

patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. Qu'ran and Woman contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

**Women in Islam** Nicholas Awde, 2013-10-18 Collection of major references to women in the Quran and Hadiths, the two central Pillars of Islam on which Islamic legislation and social practice are based. Topics covered include Hygiene, Divorce, Marriage, Sex and Chastity, Inheritance, and Status and Rights.

*Women and Gender in the Qur'an* Celene Ibrahim, 2020-10-01 Stories about gendered social relations permeate the Qur'an, and nearly three hundred verses involve specific women or girls. The Qur'an features these figures in accounts of human origins, in stories of the founding and destruction of nations, in narratives of conquest, in episodes of romantic attraction, and in incidents of family devotion and strife. Overall, stories involving women and girls weave together theology and ethics to reinforce central Qur'anic ideas regarding submission to God and moral accountability. Celene Ibrahim explores the complex cast of female figures in the Qur'an, probing themes related to biological sex, female sexuality, female speech, and women in sacred history. Ibrahim considers major and minor figures referenced in the Qur'an, including those who appear in narratives of sacred history, in parables, in descriptions of the eternal abode, and in verses that allude to events contemporaneous with the advent of the Qur'an in Arabia. Ibrahim finds that the Qur'an regularly celebrates the aptitudes of women in the realms of spirituality and piety, in political maneuvering, and in safeguarding their own wellbeing; yet, women figures also occasionally falter and use their agency toward nefarious ends. *Women and Gender in the Qur'an* outlines how women and girls - old, young, barren, fertile, chaste, profligate, reproachable, and saintly - enter Qur'anic sacred history and advance the Qur'an's overarching didactic aims.

**Qur'an and Woman** Amina Wadud, 1999 The first pro-faith attempt by a Muslim woman to present a comprehensive, female-inclusive reading of the Qu'ran, the sacred Islamic text.

**Women in Islam** Nicholas Awde, 2005 What does Islam really say about women? Much of the answer may be found in this collection of major references to women in the Qur'an and the Hadiths--the two holy writings on which Islamic legislation and social practice are based. The role of women in Islam is a growing area of study and this collection, drawing on the Sahih of al-Bukhari, fulfills the need for a definitive resource which gathers together all the significant source material on the subject and presents it in an accessible way. Comprehensively indexed, the topics covered include hygiene, divorce, marriage, sex and chastity, inheritance, and status and rights. Extensive notes help to explain the cultural background of the first Muslims, including short biographies of the women of the Prophet Muhammad's household. All this draws a vivid picture of the era in which they lived--at the same time revealing an intimate portrait of the Prophet himself--and reinforces the central position of women in the Revelation of Islam and its subsequent development up to the present.--Publisher's website.

*Women in Islam* Abdur Raheem Kidwai, 2020-08-01 *Women in Islam* is an attractive book of simple compilation of quotations from the Qur'an and Hadith collections that refer to or address women specifically. It engages the reader in a moment of reflection on the Islamic view of womanhood: her existence as a creation of Allah, her role as a positive stakeholder in building a God-conscious society and her capacity for attaining proximity with Allah.

1996, ۱۹۹۶ Women face a lot of special problems regarding their menses, postpartum bleeding, istihada, hijab, mixing with men, rights & duties with respect to their husband, husband's household, children, inheritance, marriage, divorce, etc. More than 350 of such problems & issues have been answered in this book by Grand Mufti of Saudi Arabia Sheikh Ibn Baz, and the eminent scholars like Sheikh Ibn Uthaimin, Sheikh Ibn Jibreen and others.

**Women in the Qur'an, Traditions, and Interpretation** Barbara Freyer Stowasser, 1994-08-18 Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself. Despite the popular attention surrounding Middle Eastern attitudes toward women, there has been little systematic study of the statements regarding women in the Qur'an. Stowasser fills the void with this study on the women of Islamic sacred history. By telling their stories in Qur'an and interpretation, she introduces Islamic doctrine and its past and present socio-economic and political applications. Stowasser establishes the link between the female figure as cultural symbol, and Islamic self-perceptions from the beginning to the present time.

**Women and the Glorious Qur'ān** Gunawan Adnan, 2004

**The Rights of Women in Islam** Asgharali Engineer, 2008 Women's issues continue to dominate the Islamic world in particular, as there has been a very gradual change in the status of women in the Islamic world as a whole. This book covers various aspects relating to the status of women in the pre-Islamic period -- customs and -traditions, forms of marriage, divorce and forms of divorce, dower, traditions regarding slave-girls, and so on. It then goes on to deal with the status of women in the post-Islamic period -- the Qur'anic concept of women's rights in marriage, divorce, inheritance, custody of children, polygamy, maintenance, property, right to earn, etc. It quotes extensively from the Qur'an and Sunnah. It also deals with the Arab *adaat*, that is, pre-Islamic customs and traditions regarding women. Altogether, it attempts to arm Muslim women with Islamic arguments for their empowerment. The author, a renowned scholar, has sought to set the record straight by reinterpreting women's rights in the true Qur'anic spirit. He argues quite convincingly that the Holy Book gives equal rights to both the sexes, and it does not discriminate between them as regards personal, democratic and human rights. The question whether in a secular society Muslim personal law needs any change, and, if so, in which direction the reform should be undertaken is dealt with in detail. This third edition contains a chapter: 'On a Muslim Woman Leading the Congregational Prayer'. This chapter deals with the important aspect of Muslim women's problems and also hopes to further enhance their understanding of the Shari'ah issues.

Al-Muḥaddithāt Muḥammad Akram Nadwī, 2007 This book is an adaptation of the preface to Mohammad Akram's 40 volume biographical dictionary (in Arabic) of the Muslim women who studied and taught hadith.
