John Woo's The Killer Kenneth E. HALL, 2009-01-01 Has the creative period of the New Hong Kong Cinema now come to an end? However we answer this question, there is a need to evaluate the achievements of Hong Kong cinema. This series distinguishes itself from the other books on the subject by focusing in-depth on individual Hong Kong films, which together make the New Hong Kong cinema.

Women Travel Natania Jansz, 1999 In this latest, completely revised *Women Travel* anthology, Rough Guides present a whole new crew of writers, journalists, travellers, dreamers and escapists, each with a journey to share and a tale to inspire. Featuring more than 80 adventures around the world, *Women Travel* tells you what it's like to: backpack around India with your mother in tow; hitch up with a shepherd in Spain; set up the ultimate writers' retreat on the icefields of Antarctica; hang out with hippies in the Australian rainforest; be crowned Queen Mother of an African village; have a girls' night out in the Kalahari Desert; and sweat behind the scenes at a Caribbean carnival.

Terra Incognita Sara Wheeler, 2014-10-01 It is the coldest, windiest, driest place on earth, an icy desert of unearthly beauty and stubborn impenetrability. For centuries, Antarctica has captured the imagination of our greatest scientists and explorers, lingering in the spirit long after their return. Shackleton called it the last great journey; for Apsley Cherry-Garrard it was the worst journey in the world. This is a book about the call of the wild and the response of the spirit to a country that exists perhaps most vividly in the mind. Sara Wheeler spent seven months in Antarctica, living with its scientists and dreamers. No book is more true to the spirit of that continent--beguiling, enchanted and vast beyond the furthest reaches of our imagination. Chosen by Beryl Bainbridge and John Major as one of the best books of the year, recommended by the editors of *Entertainment Weekly* and

the Chicago Tribune, one of the Seattle Times's top ten travel books of the year, Terra Incognita is a classic of polar literature.

Demon Hunting With a Dixie Deb Lexi George, 2016-05-24 Deep South legends. Deep fried curses. Deep dish revenge . . . This Debutante Is Having A Ball! Way down south in the land of cotton, one belle's plans are soon forgotten--when Sassy Peterson drives her Maserati off the road to avoid a deer and lands smack-dab in the proverbial creek without a paddle. The Alabama heiress should have known something weird was going on when she saw the deer's ginormous fangs. Hello, Predator Bambi! But nothing can prepare her for the leather-clad, muscle-bound, golden-eyed sex god who rescues her. Who wears leather in May? That's just the first of many questions Sassy has when her savior reveals he's a demon hunter named Grim. Also: Why would a troop of fairies want to give her magical powers and rainbow hair? Why would a style-challenged beast called the Howling Hag want to hunt her down? Most importantly, what's a nice debutante like Sassy doing in a place like this anyway? Besides feeling Grim . . . Praise for Demon Hunting in Dixie A demonically wicked good time.--Angie Fox A not-to-be-missed Southern-fried,

bawdy, hilarious romp. --Beverly Barton, New York Times
bestselling author A genuinely funny new voice in paranormal
romance.--Publishers Weekly

The Report: Morocco 2015 Oxford Business

Group,2015-10-09 Morocco's economy is well diversified,
particularly relative to many countries in the MENA region.
Tourism is a substantial contributor, generating nearly \$6bn
(€5.4bn) in annual revenues, as is the agricultural sector, which
can be susceptible to variations in rainfall. Manufacturing
industries include textiles, automotive and aeronautics, while
recent years have seen the expansion of the ICT sector,
particularly outsourcing. Investment in ports, transport and
industrial infrastructure, and the establishment of a free trade
zone, have boosted competitiveness and left the kingdom well-
positioned to act a transport hub and business broker across
many African markets.

Business, Civil Society and the 'New' Politics of Corporate Tax Justice Richard Eccleston,Ainsley Elbra,2018-11-30 Since the financial crisis the extent of corporate tax avoidance has attracted media headlines and the attention of political leaders the world over. This study examines the 'new' politics of corporate taxation and the role of civil society organisations in shaping the international tax agenda and influencing the tax practices of the world's largest and most powerful corporations. It highlights the complex and multi-dimensional strategies used by activists to influence public opinion, formal regulation and corporate behaviour in relation to international taxation.

Making a Place for Community Thad Williamson,David Imbroscio,Gar Alperovitz,2014-06-03 When pundits refer to the death of community, they are speaking of a number of social ills, which include, but are not limited to, the general increase in isolation and cynicism of our citizens, widespread concerns about declining political participation and membership in civic organizations, and periodic outbursts of small town violence. Making a Place for Community argues that this death of community is being caused by contemporary policies that, if not changed, will continue to foster the decline of community. Increased capital flow between nations is not at the root of the problem, however, increased capital flow within our nation is. Small towns shouldn't have to hope for a prison to open nearby

and downtown centers shouldn't sit empty as suburban sprawl encroaches, but they do and it's a result of widely agreed upon public policies.

The Art of Digital Marketing Ian Dodson, 2016-04-04 The premier guide to digital marketing that works, and a solid framework for success The Art of Digital Marketing is the comprehensive guide to cracking the digital marketing 'code,' and reaching, engaging, and serving the empowered consumer. Based on the industry's leading certification from the Digital Marketing Institute (DMI), this book presents an innovative methodology for successful digital marketing: start with the customer and work backwards. A campaign is only effective as it is reflective of the consumer's wants, needs, preferences, and inclinations; the DMI framework provides structured, implementable, iterative direction for getting it right every time. The heart of the framework is a three-step process called the 3i Principles: Initiate, Iterate, and Integrate. This simple idea translates into higher engagement, real customer interaction, and multichannel campaigns that extend even into traditional marketing channels. The evolution of digital marketing isn't really about the brands; it's about consumers exercising more control over their choices. This book demonstrates how using this single realization as a starting point helps you build and implement more effective campaigns. Get inside the customer's head with deep consumer research Constantly improve your campaigns based on feedback and interactions Integrate digital activities across channels, including traditional marketing Build campaigns based on customer choice and control Digital marketing turns traditional marketing models on their heads. Instead of telling the customer what to think, you find out what they already think and go from there. Instead of front-loading resources, you continually adjust your approach based on real interactions with real customers every day. Digital marketing operates within its own paradigm, and *The Art of Digital Marketing* opens the door for your next

campaign.
