The Lost Diggers Ross Coulthart, 2016-12-01 'It's a treasure trove. It's previously unknown, candid images of our troops just out of the line. Men with the fear and experiences of battle written on their faces.' General Sir Peter Cosgrove Investigative journalist Ross Coulthart, joint winner of the Prime Minister's Prize for History 2015, brings together stunning images of Western Front diggers and the amazing stories behind them. This fully revised and expanded edition offers a wealth of fresh information including more soldiers newly identified with the aid of their families. A trove of

portraits taken in the tiny French town of Vignacourt just behind the front lines was found a century later in an ancient metal chest in a French farmhouse. The collection of glass plates has been hailed as one of the most important First World War discoveries ever made. Haunting images show diggers enjoying a brief respite from the horror of the trenches: having their portraits taken for a lark, for a keepsake or to send to loved ones. For all too many, this would be their only memorial, and to gaze into the eyes of these men is to meet a lost generation. 'These stunning black and white photographs stand as mute, yet eloquent, witness to the courage of soldiers and the horror of war ... Remarkably informative, beautifully illustrated and thoroughly researched ...' - Ross Fitzgerald, Sydney Morning Herald

A Time to Betray Reza Kahlili, 2013-02-12 A true story as exhilarating as a great spy thriller, as turbulent as today's headlines from the Middle East, A Time to Betray reveals what no other previous CIA operative's memoir possibly could: the inner workings of the notorious Revolutionary Guards of Iran, as witnessed by an Iranian man inside their ranks who spied for the American government. It is a human story, a chronicle of family and friendships torn apart by a terror-mongering regime, and how the adult choices of three childhood mates during the Islamic Republic yielded divisive and tragic fates. And it is the stunningly courageous account of one man's decades-long commitment to lead a shocking double life informing on the beloved country of his birth, a place that once offered the promise of freedom and enlightenment—but instead ruled by murderous violence and spirit-crushing oppression. Reza Kahlili grew up in Tehran surrounded by his close-knit family and two spirited boyhood friends. The Iran of his youth allowed Reza

to think and act freely, and even indulge a penchant for rebellious pranks in the face of the local mullahs. His political and personal freedoms flourished while he studied computer science at the University of Southern California in the 1970s. But his carefree time in America was cut short with the sudden death of his father, and Reza returned home to find a country on the cusp of change. The revolution of 1979 plunged Iran into a dark age of religious fundamentalism under the Ayatollah Khomeini, and Reza, clinging to the hope of a Persian Renaissance, joined the Revolutionary Guards, an elite force at the beck and call of the Ayatollah. But as Khomeini's tyrannies unfolded, as his fellow countrymen turned on each other, and after the horror he witnessed inside Evin Prison, a shattered and disillusioned Reza returned to America to dangerously become "Wally," a spy for the CIA. In the wake of an Iranian election that sparked global outrage, at a time when Iran's nuclear program holds the world's anxious attention, the revelations inside *A Time to Betray* could not be more powerful or timely. Now resigned from his secretive life to reclaim precious time with his loved ones, Reza Kahlili documents scenes from history with heart-wrenching clarity, as he supplies vital information from the Iran-Iraq War, the Marine barracks bombings in Beirut, the catastrophes of Pan Am Flight 103, the scandal of the Iran-Contra affair, and more . . . a chain of incredible events that culminates in a nation's fight for freedom that continues to this very day.

High-Speed Electronics Bengt Källbäck, Heinz Beneking, 2013-03-08 In the past, a number of Satellite Conferences have been held in connection with the International Conference on Physics of Semiconductors, covering selected fields of interest. In 1986, when the main conference was held in Stockholm, Sweden, new phenomena had to be discussed: super lattices, hot 'electron phenomena and new device structures for high-speed applications. The aim was to select topics which would be of interest to physicists as well as to electronics engineers. Therefore a Satellite Conference on High-Speed Electronics, Basic Physical Phenomena and Device Principles, was arranged at Saltjobaden, a coastal resort near Stockholm. An organizing committee was established after the first suggestion made by Professor Grimmeiss from the University of Lund, Sweden, and some preliminary discussions on the Conference format. A Program Committee was established to be responsible for the further selection of the invited talks, the regular papers and poster presentation. The aim was to have a broad spectrum of contributions to attract physicists as well as device oriented engineers and to stimulate discussions among the participants. These Proceedings contain all oral and poster presentations, with emphasis on the invited talks, which give a competent overview of the field. The fast publication by Springer-Verlag has

permitted the presentation of an up-to-date survey of the principles of high-speed electronics. Incorporation in the Springer Series in Electronics and Photonics will enable the book to be distributed worldwide and to reach all interested scientists.

Consumer Market Research Handbook Robert M. Worcester, 1986 As a Handbook, this volume is intended to provide a down-to-earth description of what is involved in designing, carrying out and applying market research to the kinds of problems regularly and widely encountered in business and commerce (and indeed in other fields of activity). The first half of the book deals with the different aspects of designing and carrying out research. The second half describes the ways in which market research is applied to diverse types of marketing and business problems. The text of this third edition has been substantially rewritten, by practising professionals, and therefore provides the most comprehensive up-to-date coverage of the field currently available.
