Gibson, 2017-06-19 Just 25 most commonly used words make up about one-third of all words written or spoken in English. The first 100 most frequently used words make up about one-half of all written and spoken English. These are most commonly used and most important words when it comes to understanding and creating correct sentences. However, most of these words are not the nouns and verbs presented in most sight word collections. As well as the most commonly used nouns and verbs, they include the glue words without which understandable sentences cannot exist. These are words such as: Yes, No, the, not with, and, too, very, all and many others. All these and many more of the most important and most frequently used words are effectively presented in both word and sentence form in this book.

YesPhonics Flash Cards Pauline M. Adamson, Flash Card Phonogram Pack - Color Edition The mnemonic catch phrases in the YesPhonics™ Flash Card Phonogram Pack teach all 45 sounds heard in the English language. Capitalizing on the brilliant 72 Orton phonograms, each flash card illuminates every sound the letters (phonograms) make. They come in color for extra eye-popping attention. Kids love the color edition as it enhances the fun and informative illustrations they see. Combining phonics sounds with mnemonic aids and illustrations, the Flash Card Phonogram Pack, unique to YesPhonics, helps students learn to read and understand words without arduous, unproductive memorization. The Power of Phonograms Phonograms are tremendously powerful because serve as strong memory aids by linking a mnemonic (visual prompt) with a sound or sound sequence. The mnemonic "have a ball" for example, links the three sounds made by the letter "a" with a simple phrase and an illustration that completes the learning cycle. The YesPhonics signature mnemonics empower

students with the ability to easily recall the sounds of the phonograms in the order of their use frequency. This enables the student to use the most frequently used sound first, which, more often than not, is the correct one to use. If it doesn't work for that particular word, the second most commonly used sound is tried, and so on. Not All Phonograms are Created Equal Some phonograms, particularly consonants such as the letter "m" or "t", are straightforward, with one sound. The letter "t" for example makes the sound in "top", "tip" or "tape". Add an "h" to that t", however, and you have the two sounds made by the phonogram "th". The YesPhonics phonogram flash cards teach the two distinct sounds of "th" as illustrated in the words breathe and breath. In fact, phonograms (letters and letter combinations) in the English language have up to six distinct sounds. Consider the phonogram "ough," for example. Six distinct sounds of "ough" are illustrated in these words: dough, through, rough, cough, bought, plow. If these seems challenging you, imagine how confusing it can be for your student/s. Easy as Pie

Fortunately, the YesPhonics flash cards help students embed these sounds and sound sequences into their memories, learning without the arduous effort of whole language (memorize and recite) systems. Learning the 72 Orton phonograms, in the order of the frequency, embeds a strong foundation upon which students build all their reading, writing and spelling skills. YesPhonics phonogram flash cards are easy as pie for the teacher to use, as the sounds of the phonograms and captions are readily available on the back of the card. While the student sees the big bold phonogram itself, the teacher reads from the back of the card, and the student repeats. Combining the visual code embedded in the phonogram, with the auditory process of hearing and repeating the sound or sound sequence, creates a powerful

learning mechanism for the student. For teachers, the phonogram Flash Card Phonogram Pack presents a fun and easy diversion, allowing them to have fun with their students as they use a powerful tool in teaching students to read. The Gift that Keeps on Giving Fun, simple and engaging, the high-quality phonogram flash cards are also printed on 100-pound card stock to ensure that they will last for generations.

*Sight Word Flash Cards* Dwayne Douglas Kohn, 2019-05-28 The Rainbow Word series takes the 500 most common words in the English language (similar to Fry and Dolch words) and groups them into different levels, based on difficulty, for easier learning by students. The levels are red (easiest), orange, yellow, green, blue and purple (most difficult). Students experience success by

mastering the easier words first, and working their way up through longer words with non-phonetic spellings. In addition, there are five different groups of 100 words. The first 100 are for beginning readers in kindergarten. The next level is appropriate to first grade readers. The third set of 100 words is mid/late first grade and the fourth set is for beginning second grade, etc. Of course, any student, including kindergarten students, could master all 500 words with this program.
