Pure Julianna Baggott,2012-02-08 We know you are here, our brothers and sisters . . . Pressia barely remembers the Detonations or much about life during the Before. In her sleeping cabinet behind the rubble of an old barbershop where she lives with her grandfather, she thinks about what is lost-how the world went from amusement parks, movie theaters, birthday parties, fathers and mothers . . . to ash and dust, scars, permanent burns, and fused, damaged bodies. And now, at an age when everyone is required to turn themselves over to the militia to either be trained as a soldier or, if they are too damaged and weak, to be used as live targets, Pressia can no longer pretend to be small. Pressia is on the run. Burn a Pure and Breathe the Ash . . . There are those who escaped the apocalypse unmarked. Pures. They are tucked safely inside the Dome that protects their healthy, superior bodies. Yet Partridge, whose father is one of the most influential men in the Dome, feels isolated and lonely. Different. He thinks about loss-maybe just because his family is broken; his father is emotionally distant; his brother killed himself; and his mother never made it inside their shelter. Or maybe it's his claustrophobia: his feeling that this Dome has become a swaddling of intensely rigid order. So when a slipped phrase suggests his mother might still be alive, Partridge risks his life to leave the Dome to find her. When Pressia meets Partridge, their worlds shatter all over again.

The Arabesque Table Reem Kassis,Hans Stofregen,2021 Much-loved author and James Beard nominee Reem Kassis presents an acclaimed and unique collection of original contemporary recipes tracing the rich history of Arab cuisine.

The Cambridge Handbook of Linguistic Typology Alexandra Y. Aikhenvald,R. M. W. Dixon,2017-03-30 Linguistic typology identifies both how languages vary and what they all have in common. This Handbook provides a state-of-the art survey of the aims and methods of linguistic typology, and the conclusions we can draw from them. Part I covers phonological typology, morphological typology, sociolinguistic typology and the relationships between typology, historical linguistics and grammaticalization. It also addresses typological features of mixed languages, creole languages, sign languages and secret languages. Part II features contributions on the typology of morphological processes, noun categorization devices, negation, frustrative modality, logophoricity, switch reference and motion events. Finally, Part III focuses on typological profiles of the mainland South Asia area, Australia, Quechuan and Aymaran, Eskimo-Aleut, Iroquoian, the Kampa subgroup of Arawak, Omotic, Semitic, Dravidian, the Oceanic subgroup of Austronesian and the Awyu-Ndumut family (in West Papua). Uniting the expertise of a stellar selection of scholars, this Handbook highlights linguistic typology as a major discipline within the field of linguistics.

Politics and Ideology in Marxist Theory Ernesto Laclau,2012-01-16 Ernesto Laclau is best known for co-authoring Hegemony and Socialist

Strategy, with Chantal Mouffe. Politically active in the social and student movements of the 1960s, and a member of PSIN (Socialist Party of the National Left), Laclau's oeuvre links the working class and new social movements. Rejecting Marxist economic determinism and the notion of class struggle, Laclau instead urged for a radical democracy where antagonisms could be expressed. Frequently described as post-Marxist, Laclau's writings have focused on political movements. Politics and Ideology in Marxist Theory was Laclau's first published work, where readers can trace the early formation of ideas that shaped the twentieth century.

The Magic Numbers of Dr. Matrix Martin Gardner, 2020-10-06 Martin Gardner's Mathematical Games columns in Scientific American inspired and entertained several generations of mathematicians and scientists. Gardner in his crystal-clear prose illuminated corners of mathematics, especially recreational mathematics, that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one--before Gardner--had written about mathematics like this. They continue to be a marvel. This volume is a collection of Irving Joshua Matrix columns published in the magazine from 1960-1980. There were several collections of Dr. Matrix, the first in 1967; they were revised as Gardner reconnected with the good doctor over the years. This is the 1985 Prometheus Books edition and contains all the Dr. Matrix columns from the magazine.

Cross-Disciplinary Perspectives on Lexical Blending Vincent Renner, François Maniez, Pierre Arnaud, 2013-01-01 The volume brings together a well-selected collection of twelve articles providing a comprehensive and very informative summary of contemporary work on lexical blending. It combines theoretically informed descriptions of a variety of languages and a number of contributions with a theoretically original focus. It is the first book of its kind on the subject, and because of its cross-disciplinary nature, it is of high relevance not only to word-formation scholars and students, but also to a wide readership within the linguistics community.

The Shaping of a Jewish Identity in Nineteenth-Century France Jay R. Berkovitz, 1995 Nineteenth-century French Jewry was a community struggling to meet the challenges of emancipation and modernity. This struggle, with its origins in the founding of the French nation, constitutes the core of modern Jewish identity. With the Revolution of 1789 came the collapse of the social, political, and philosophical foundations of exclusiveness, forcing French society and the Jews to come to terms with the meaning of emancipation. Over time, the enormous challenge that the emancipation posed for traditional Jewish beliefs became evident. In the 1830s, a more comprehensive ideology of regeneration emerged through the efforts of younger Jewish scholars and intellectuals. A response to the social and religious implications of emancipation, it was characterized by the demand for the elimination of rituals that violated the French conceptions of civilisation and social integration; a drive for greater administrative centralization; and the quest for inter-communal and ethnic unity. In its various elements, regeneration formed a distinct ideology of emancipation that was designed to mediate Jewish interaction with French society and culture. In this book, Jay Berkovitz reveals the complexities inherent in the processes of emancipation and modernization, focusing on the efforts of French Jewish leaders to come to terms with the social and religious implications of modernity. All in all, his emphasis on the intellectual history of French Jewry provides a new perspective on a significant chapter of Jewish history.

Word-Formation in English Ingo Plag, 2003-10-30 This textbook provides an accessible introduction to the study of word-formation, that is, the ways in which new words are built on the bases of other words (e.g. happy - happy-ness), focusing on English. The book's didactic aim is to enable students with little or no prior linguistic knowledge to do their own practical analyses of complex words. Readers are familiarized with the necessary methodological tools to obtain and analyze relevant data and are shown how to relate their findings to theoretical problems and debates. The book is not written in the perspective of a particular theoretical framework and draws on insights from various research traditions, reflecting important methodological and theoretical developments in the field. It is a textbook directed towards university students of English at all levels. It can also serve as a source book for teachers and advanced students, and as an up-to-date reference concerning many word-formation processes in English.
