High Frequency Sight Words Gr. PK-2 Staci Marck, 2009-12-01 Sight words are

words that must become automatically recognized by the reader because they are often not pronounced or spelled in regular ways. Our resource will increase sight word recognition, vocabulary and comprehension as students identify 130 Dolch sight words using real-life pictures as an aid. Write the sight word in the boxes that match the shape of the word. Boxes are used to help students come to understand that words can be recognized by the shapes of their letters, as they contain small, tall or hanging letters. Finish the sentence by matching the sight words with their boxes. Make sure that the words not only fit inside the boxes, but also make sense within the sentence. With 100 high-frequency words that make up almost 50% of everything we read as adults, having a bank of high frequency words is essential to building fluent reading skills. Aligned to your State Standards and written to Bloom's Taxonomy, reproducible writing tasks, sight word flash cards, crossword, word search, comprehension quiz and answer key are also included.

Wacky-Shaped Word Search Puzzles to Keep You Sharp Mark Danna, 2004-03 What makes this collection of mind-boggling word search puzzles unlike any other? The shapes of each and every puzzle can be downright wacky at times. Instead of looking for hidden words in a jumble of letters that usually comes in a ho-hum square or rectangle, the words in these grids form distinctive picture outlines that are directly related to the puzzles' themes. You get a grid in the shape of a charging bull, for example, in a puzzle about the stock market. There are 58 word searches in all and each one is fun and challenging as well as a little different. Clever Word Search Puzzles for Kids Mark Danna, 2004 Word search puzzles don't get much better than this. Will Shortz, Puzzlemaster for National Public Radio Mark Danna whose earlier Word Search Puzzles for Kids was a huge success has come up with even more smart search challenges to delight brainy youngsters. What makes them so special? First, the letters in every grid form a picture, so instead of ho-hum squares, children get lively shapes. Then, the puzzles feature a few additional twists. Three of the searches don't have word lists, for example; the puzzler has to create them from a series of clues. And finally, each puzzle has a hidden message: once kids have circled all the correct phrases, the uncircled letters will spell out a silly quote, fun fact, or punch line to a punny riddle.
