**No One is Unemployable** Debra L. Angel, Elisabeth E. Harney, 1997 Details of experiences and suggestions from WorkNet. At WorkNet, we have found that all barriers, even those which seem insurmountable--a felony, homelessness, no high school education--can be overcome creatively and honestly. After nearly ten years of success, we can give you real examples of people who have done it and are working in good jobs.--Introduction, p. [3].

**Changing Corporate America from Inside Out** Nicole Christine Raeburn, 2004 Despite the backlash against lesbian and gay rights occurring in cities and states across the country, a growing number of corporations are actually expanding protections and benefits for their gay and lesbian employees. Why this should be, and why some corporations are increasingly open to inclusive policies while others are determinedly not, is what Nicole C. Raeburn seeks to explain in *Changing Corporate America from Inside Out*. A long-overdue study of the workplace movement, Raeburn's analysis focuses on the mobilization of lesbian, gay, and bisexual employee networks over the past fifteen years to win domestic partner benefits in Fortune 1000 companies. Drawing on surveys of nearly one hundred corporations with and without gay networks, intensive interviews with human resources executives and gay employee activists, as well as a number of case studies, Raeburn reveals the impact of the larger social and political environment on corporations' openness to gay-inclusive policies, the effects of industry and corporate characteristics on companies' willingness to adopt such policies, and what strategies have been most effective in transforming corporate policies and practices to support equitable benefits for all workers. Nicole C. Raeburn is assistant

professor and chair of sociology at the University of San Francisco.

Smartphones, social media, and the Internet can only get a professional so far. At some point, the success of an organization will depend on face-to-face relationships, which means the isolated employees trying to do everything virtually will at some point have to fall back on the tried-and-true, essential skill of relationship building if they are going to survive in today's increasingly collaborative workforce. Unveiling eight indispensable competencies for the new Network-Oriented Workforce, *Strategic Connections* provides practical advice anyone can use for building better, more productive business relationships. Practical Neural Network Recipes in C++ Masters,2014-06-28 This text serves as a cookbook for neural network solutions to practical problems using C++. It will enable those with moderate programming experience to select a neural network model appropriate to solving a particular problem, and to produce a working program implementing that network. The book provides guidance along the entire problem-solving path, including designing the training set, preprocessing variables, training and validating the network, and evaluating its performance. Though the book is not intended as a general course in neural networks, no background in neural works is assumed and all models are presented from the ground up. The principle focus of the book is the three layer feedforward network, for more than a decade as the workhorse of professional arsenals. Other network models with strong performance records are also included. Bound in the book is an IBM diskette that includes the source code for all programs in the book. Much of this code can be easily adapted to C compilers. In addition, the operation of all programs is thoroughly discussed both in the text and in the comments within the code to facilitate translation to other

languages.

**Sexual Minorities** Michael K. Sullivan, 2013-10-31 Explore the crucial issues facing the GLBT population in their struggle for acceptance in contemporary America! *Sexual Minorities: Discrimination, Challenges, and Development in America* examines the stumbling blocks that prevent gays, lesbians, bisexuals, and transgenders from living wholesome, healthy lives. This book concentrates on the effects of outside influences on the homosexual psyche from adolescence to mid-life and programs and services that need to be developed to improve quality of life. While some outside influences can make positive changes—such as Internet-based outreach to educate men in chat rooms about HIV—sexual minority groups face negativity from society in the forms of homophobia and heterosexism. *Sexual Minorities* uses statistics, charts, graphs, and surveys to reveal a remarkable trend correlating how contemporary American society treats sexual minorities and how it affects their psychological and psychosocial health. This book also reveals how—when internalized—this hurtful discrimination can cause self-hatred and depression. Each chapter focuses on a different aspect of the GLBT population, including: the history of homophobia and intolerance toward homosexuals with its basis in cultural, religious, and sociological views an in-depth survey utilizing Erikson's psychosocial model to determine the lifespan development of seven "out" gay males who discuss their coming-out period, their roles in society, their legacies, and later-life issues the lack of federal legislation protecting GLBT employees in the workplace and recommendations for creating a sense of security for these employees a case study revealing the high incidence rate of heterosexism amongst social workers and the repercussions this could have among homosexual clientele surveys and statistics

investigating the rate of abusive behavior in lesbian relationships three chapters involving specific issues of gay, lesbian, and bisexual adolescents, such as coming out, risk and protective factors, and being homosexual in a rural environment as opposed to a city Sexual Minorities is an important tool for everyone in today's society—from students and practitioners of social work, health care, human sexuality, psychology, and sociology, to legislators, lawyers, activists, and business owners. This book is also vital for every parent, relative, or friend of a man or woman labeled as a sexual minority.

Now, Diane Mott Davidson, who masterfully served up *The Last Suppers*, *Killer Pancake*, and *Dying for Chocolate*, returns with an irresistible five-star helping of suspense. When caterer Goldy Schulz takes a job with a multimillion-dollar financial firm, she finds herself in a high-stakes world where someone is out to make a killing.... Goldy, owner of Goldilocks' Catering, barely weathered a disastrous spring in which relentless rains and driving snow put a real damper on her business. But now, thanks to her best friend, Marla, the Colorado caterer is suddenly cooking up a storm...lovingly preparing Crab Quesadillas, Tomato-Brie Pie, and Gold Foil-Wrapped Fudge Bars for her wealthy new client, Prospect Financial Partners. The Prospect Partners' financial whiz, Tony Royce, with whom Marla is having a tempestuous affair, and Albert Lipscomb, who is personally managing Marla's money, have hired Goldy to prepare a sumptuous party to kick off their latest venture: the reopening of the Eurydice Gold Mine. Anxious to take advantage of a golden opportunity, Goldy arrives at the mine site early, loaded down with goodies. Yet just when she thinks she can relax, all hell breaks loose--and the main culprit is Marla. Her best friend is sure the mine venture is a scam. And when, several days later, Albert ends up missing, it looks as if Marla was right. Why, then, is the police captain treating Goldy's best friend as if she had committed a crime? And how can Goldy keep her fourteen-year-old son Arch and his unreliable

bloodhound from making matters worse? As Goldy works furiously to restore her business by whipping up hot, fragrant Sour Cream Cherry Coffeecake and featherlight Cinnamon Scones, she finds herself drawn into a most unusual situation of missing partners, stolen millions, and multiple homicides. And only when Goldy can discover which of the victims is the main corpse will she be able to unravel the mystery that threatens to cancel out her friend's dearest asset--her life.
