Part-Time Work in the Nordic Region III Hayfield, Erika Anne, Olavson, Rógvi, Patursson, Lív, 2016-04-19 Gender equality in the labour market is a key topic in the Nordic cooperation on gender equality. As a follow up to two earlier reports on part-time work this third report is an introductory study to part-time work and gender in the Faroe Islands, Greenland and Åland Islands. The aim is to map what is known about part-time work, and where possible, explain working patterns in these areas. The report gives an overview of the labour markets of the three areas and introduces part-time work based on existing data. The report also presents findings from an exploratory study with women who work part-time in the Faroe Islands. Erika Anne Hayfield, PhD, Assistant Professor of Social Sciences at the University of the Faroe Islands, Rógvi Olavson, MSc Sociology and Lív Patursson, MSc Gender Studies wrote the report on request by NIKK, for the Nordic Council of Ministers.

Burnout at Work Michael P Leiter, Arnold B Bakker, Christina Maslach, 2014-04-24 The psychological concept of burnout refers to long-term exhaustion from, and diminished interest in, the work we do. It's a phenomenon that most of us have some understanding of, even if we haven't always been affected directly. Many people start their working lives full of energy and enthusiasm, but far fewer are able to maintain that level of engagement. *Burnout at Work: A Psychological Perspective* provides a comprehensive overview of how the concept of burnout has been conceived over recent decades, as well as discussing the challenges and possible interventions that can help confront this pervasive issue. Including contributions from the most eminent researchers in this field, the book examines a range of topics including: The links between burnout and health How our individual relationships at work can affect levels of burnout The role of leadership in mediating or causing burnout The strategies that individuals can pursue to avoid burnout, as well as wider interventions. The book will be required reading for anyone studying organizational or occupational psychology, and will also interest students of business and management, and health psychology.

Women, Work, and Globalization Bahira Sherif Trask,2013-10-30 Women increasingly make up a significant percentage of the labor force throughout the world. This transformation is impacting everyone's lives. This book examines the resulting gender role, work, and family issues from a comparative worldwide perspective. Working allows women to earn an income, acquire new skills, and forge social connections. It also brings challenges such as simultaneously managing domestic responsibilities and family relationships. The social, political, and economic implications of this global transformation are explored from an interdisciplinary perspective in this book. The commonalities and the differences of women's experiences depending on their social class, education, and location in industrialized and developing countries are highlighted throughout. Practical implications are examined including the consequences of these changes for men. Engaging vignettes and case studies from around the world bring the topics to life. The book argues that despite policy reforms and a rhetoric of equality, women still have unique experiences from men both at work and at home. **Women, Work, and Globalization** explores: Key issues surrounding work and families from a global cross-cultural perspective. The positive and negative experiences of more women in the global workforce. The spread of women's empowerment on changes in ideologies and behaviors throughout the world. Key literature from family studies, IO, sociology, anthropology, and economics. The changing role of men in the global work-family arena. The impact of sexual trafficking and exploitation, care labor, and transnational migration on women. Best practices and policies that have benefited women, men, and their families. Part 1 reviews the research on gender in the industrialized and developing world, global changes that pertain to women's gender roles, women's labor market participation, globalization, and the spread of the women's movement. Issues that pertain to women in a globalized world including gender socialization, sexual trafficking and exploitation, labor migration and transnational motherhood, and the complexities entailed in care labor are explored in Part 2. Programs and policies that have effectively assisted women are explored in Part 3 including initiatives instituted by NGOs and governments in developing countries and (programs) policies that help women balance work and family in industrialized countries. The book concludes with suggestions for global initiatives that assist women in balancing work and family responsibilities while decreasing their vulnerabilities. Intended as a supplemental text for advanced undergraduate and/or graduate courses in Women/Gender Issues, Work and Family, Gender and Families, Global/International Families, Family Diversity, Multicultural Families, and Urban Sociology taught in psychology, human development and family studies, gender and/or women's studies, business, sociology, social work, political science, and anthropology. Researchers, policy makers, and practitioners in these fields will also appreciate this thought provoking book.

Work Ben Witherington III, Ben Witherington, 2011-01-15 Most Christians spend most of their waking hours working, yet many regard work as at best a necessary evil just one more unfortunate by-product of humanity's fall from grace. Not so, says Ben Witherington III, and in *Work: A Kingdom Perspective on Labor*, he considers work as neither the curse nor the cure of human life but, rather, as something good that God has given us to do. In this brief primer on the biblical theology and ethics of work, Witherington carefully unpacks the concept of work, considering its relationship to rest, play, worship, the normal cycle of human life, and the coming Kingdom of God. Work as calling, work as ministry, work as a way to make a living, and the notably unbiblical notion of retirement Witherington's *Work* engages these subjects and more, combining scholarly acumen with good humor, common sense, cultural awareness, and biblically based insights from Genesis to Revelation. Ben Witherington has given the whole people of God something desperately needed to make sense of Monday to Friday a theology of work that breaks down the heretical sacred-secular distinction. . . . Offers a work-view and life-view that, if embraced, would revitalize the mission of God's people in the world. It's that good. R. Paul Stevens author of *The Other Six Days* and *Taking Your Soul to Work* Conducting a critical dialogue with the theological voices of our day, drawing upon the wisdom of the Christian tradition, and offering a sensitive reading of New Testament parables, Witherington delivers sound counsel on the Kingdom meaning of work and its implications for our lives today. Lee Hardy author of *The Fabric of This World*
