Evaluation Methods in Medical Informatics Charles P. Friedman,Jeremy C. Wyatt,2013-03-14 As director of a training program in medical informatics, I have found that one of the most frequent inquiries from graduate students is, Although I am happy with my research focus and the work I have done, how can I design and carry out a practical evaluation that proves the value of my contribution? Informatics is a multifaceted, interdisciplinary field with research that ranges from theoretical developments to projects that are highly applied and intended for near-term use in clinical settings. The implications of proving a research claim accordingly vary greatly depending on the details of an individual student's goals and thesis state ment. Furthermore, the dissertation work leading up to an evaluation plan is often so time-consuming and arduous that attempting the perfect evaluation is frequently seen as impractical or as diverting students from central programming or implementation issues that are their primary areas of interest. They often ask what compromises are possible so they can provide persuasive data in support of their claims without adding another two to three years to their graduate student life. Our students clearly needed help in dealing more effectively with such dilemmas, and it was therefore fortuitous when, in the autumn of 1991, we welcomed two superb visiting professors to our laboratories.

Design for Assisted Living Victor Regnier,2003-02-28 Destined to become the defining work on the subject, this timely reference addresses the single fastest growing segment of the senior living industry -- assisted living for those who are unable to live independently but who do not need intensive nursing home care, meals, housekeeping, or twenty-four hour access to medical assistance. Victor Regnier's visually rich guide includes dozens of design solutions from successful assisted living facilities along with fifteen case studies from the U.S. and Europe. The book also covers recent developments in the industry including major changes in financing, growth of dementia, and interest in aging-in-place. All in all, this is the most comprehensive guide to assisted living design that you'll find in any single volume.

Safety and Health Acts Raymond Byrne,2013-11-12 Safety and Health legislation has become increasingly complex. The Safety, Health and Welfare at Work Act 2005, the Chemicals Act 2008, and the Fire Services Act 1981 have all been amended many times and are now the subject of a growing body of case law. Similarly, the Safety, Health and Welfare at Work (General Application) Regulations 2007 to 2012 now contain 194 Regulations and 12 Schedules when you take into account all the amendments since 2007. Safety and Health Legislation: Annotated and Consolidated is the only book that provides the full up-to-date, consolidated text of the main Acts and Regulations in this area, along with authoritative commentary on each section of the key Acts. It makes navigating the legislation this area much more straightforward. KEY FEATURES * Full up-to-date consolidated text, alongside detailed section by section annotations of the Safety, Health and Welfare at Work Act 2005, Chemicals Act 2008, and Fire Services Act 1981 * Full up-to-date consolidated text of the Safety, Health and Welfare at Work (General Application) Regulations 2007 to 2012 * User-friendly - Presents the Safety, Health and Welfare at Work (General Application) Regulations 2007 to 2012 with each of the 18 elements in the Regulations presented in separate and easy-to-navigate sub-divisions so you can find the relevant Regulations followed immediately by the Schedule to which they refer * Full up-to-date consolidated text of other key Regulations, including the Safety, Health and Welfare at Work (Chemical Agents) Regulations 2001 and the Safety, Health and Welfare at Work (Construction) Regulations 2013 About the Author Raymond Byrne is a barrister and Director of Research with the Law Reform Commission. He is the author of Safety, Health and Welfare at Work Law in Ireland (2nd edition, 2008). In 2011, he was awarded IOSH Ireland's Safety Person of the Year. He is also co-author of Byrne & McCutcheon on the Irish Legal System (5th edition, 2009) and of the Annual Review of Irish Law series (in its 26th year in 2013).

Biomedical Informatics Edward H. Shortliffe,James J. Cimino,2013-12-02 The practice of modern medicine and biomedical research requires sophisticated information technologies with which to manage patient information, plan diagnostic procedures, interpret laboratory results, and carry out investigations. Biomedical Informatics provides both a conceptual framework and a practical inspiration for this swiftly emerging scientific discipline at the intersection of computer science, decision science, information science, cognitive science, and biomedicine. Now revised and in its third edition, this text meets the growing demand by practitioners, researchers, and students for a comprehensive introduction to key topics in the field. Authored by leaders in medical informatics and extensively tested in their courses, the chapters in this volume constitute an effective textbook for students of medical informatics and its areas of application. The book is also a useful reference work for individual readers needing to understand the role that computers can play in the provision of clinical services and the pursuit of biological questions. The volume is organized so as first to explain basic concepts and then to illustrate them with specific systems and technologies.

Psychology and Geriatrics Benjamin A. Bensadon,2015-04-16 Psychology and Geriatrics demonstrates the value of integrating psychological knowledge and insight with medical training and geriatric care. Leading physician and geropsychologist contributors come together to share their collective wisdom about topics that are as emotionally uncomfortable as they are universally relevant. As the world struggles to respond to unprecedented gains in life expectancy and an explosion of new retirees living with chronic health conditions, this collaboration could not be more timely. This exceptional resource is, itself, evidence that physicians and psychologists can work together to optimize truly patient-centered geriatric care. Here at last is a scientifically rigorous, evidence-based response to the aging mind and body from those most expertly trained. Illustrates why and how psychologists must assume a more integrated role in meeting the health care needs of older patients Confronts emotionally laden topics such as cognitively impaired driving, caregiver burden, end-of-life communication, suicide, and systemic issues such as bias, payment, and the culture of medicine Challenges decades-long barriers to integration, from both physician and psychologist perspectives, suggesting how they can finally be overcome Provides an innovative, practical response to academic medicine's growing emphasis on psychological and behavioral science Demonstrates how health care reform creates a behavioral health niche that clinical psychologists are uniquely qualified to fill

Social Work in Ireland Alastair Christie,Brid Featherstone,Suzanne Quin,Trish Walsh,2020-05-31 During a period of great economic and political change and uncertainty this book offers a timely evaluation of social work in Ireland. Social Work in Ireland: Changes and Continuities has brought together a range of academics and professionals to provide a comprehensive analysis of social work in the Republic of Ireland. It addresses key questions such as 'How is social work in Ireland responding to rapidly changing social, cultural and economic circumstances?'; 'How will the new relationships between the state/NGO/private sectors impact on the provision of social services?' and 'How does, and will, social work respond to the needs of specific service user groups?' In addressing these questions the book explores key areas of practice, including child welfare, domestic violence, mental health, working with migrants and minority ethnic groups, substance misuse, probation services, and work with older people and people with a disability. This book is an essential read for

students of social work and social care in Ireland and will also be of great interest to qualified practitioners in both the social work field and other social care professions.

The System Designer's Guide to VHDL-AMS Peter J. Ashenden,Gregory D. Peterson,Darrell A. Teegarden,2002-09-10 The demand is exploding for complete, integrated systems that sense, process, manipulate, and control complex entities such as sound, images, text, motion, and environmental conditions. These systems, from hand-held devices to automotive sub-systems to aerospace vehicles, employ electronics to manage and adapt to a world that is, predominantly, neither digital nor electronic. To respond to this design challenge, the industry has developed and standardized VHDL-AMS, a unified design language for modeling digital, analog, mixed-signal, and mixed-technology systems. VHDL-AMS extends VHDL to bring the successful HDL modeling methodology of digital electronic systems design to these new design disciplines.Gregory Peterson and Darrell Teegarden join best-selling author Peter Ashenden in teaching designers how to use VHDL-AMS to model these complex systems. This comprehensive tutorial and reference provides detailed descriptions of both the syntax and semantics of the language and of successful modeling techniques. It assumes no previous knowledge of VHDL, but instead teaches VHDL and VHDL-AMS in an integrated fashion, just as it would be used by designers of these complex, integrated systems. Explores the design of an electric-powered, unmanned aerial vehicle system (UAV) in five separate case studies to illustrate mixed-signal, mixed-technology, power systems, communication systems, and full system modeling.

Safety, Health and Welfare at Work Act 2005 Raymond Byrne,2006-01-01 Reproduces the full text of The Safety, Health and Welfare at Work Act 2005, an extract from the Irish Current Law Statutes Annotated. This book explains the landmark nature of the Act by way of clause-by-clause annotations. It shows how it will bring about significant changes to health and safety regulation in Ireland.

Reasonable Compensation Anne E. Moran, ... analyzes the issues relating to the deduction by an employer for a reasonable allowance under [section] 162(a) for compensation paid with regard to personal services rendered. It discusses in depth the factors applied in determining reasonableness, the necessity for the actual performance of services, situations where a deduction for reasonable compensation is not allowable, and other aspects of reasonable compensation. Various tax planning and controversy considerations also are discussed--Portfolio description (p. iii).
