Every Nation for Itself Ian Bremmer,2012-05-03 Following the acclaim for *The End of the Free Market*, Ian Bremmer is back with *Every Nation for Itself*, where he addresses the next big issue for the shifting world economy. 'Smart and snappy ... provides the most cogent prediction of how the politics of a post-America world will play out' *New Statesman* What happens when nobody's running the world? The United States is in financial crisis and can't hold onto the reins of the G-20. But China has no interest in international leadership, Europe is trying to save the euro, and emerging powers like Brazil and India are focused on domestic development. No government has the time, resources or political capital needed to take an international lead. The world power structure is about to have a vacancy...at the top. Welcome to the G-Zero world, in which no single country has the power to shape a truly global agenda. That means we are about to see 20 years of conflict over economics, finance and climate change. Bestselling author and strategist Ian Bremmer reveals how world powers are rapidly turning into gated communities, locked in competition. Who will prevail? 'A prodigy in the US global commentariat. Mr Bremmer's rehearsal of the consequences should make us all wise up' *Financial Times* 'An author who is always full of insights' *George Osborne* Ian Bremmer is the president of the world's leading global political risk research and consulting firm, Eurasia Group. He has written for the *Wall Street Journal*, *Washington Post*, *Newsweek*, and *Harvard Business Review*. His six books include *The J Curve* and *The End Of The Free Market*.

An Atlas of Countries That Don't Exist Nick Middleton,2017-03-21 A "fascinating" journey to little-known and contested lands around the globe, from Tibet to the Isle of Man to Elgaland-Vargaland (*Geographical Magazine*). What is a country? Acclaimed travel writer and Oxford geography don Nick Middleton brings to life the origins and histories of fifty states that, lacking international recognition and United Nations membership, exist on the margins of legitimacy in the global order. From long-contested lands like Crimea and Tibet to lesser-known territories such as Africa's last colony and a European republic that enjoyed independence for a single day, Middleton presents fascinating stories of shifting borders, visionary leaders, and "forgotten" peoples. "Engrossing . . . You'll not find Middle-earth, Atlantis or Lilliput inside, but you will find something just as intriguing . . . sure to prompt discussions about what makes a country a 'real country.'" –*Seattle Times*

Factfulness Hans Rosling,Anna Rosling Rönnlund,Ola Rosling,2018-04-03 INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." –Melinda Gates Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases. - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

All the Countries of the World John Embry,Annelise Hobbs,2006-03 This book describes every independent nation that exists today, together with the most important dependencies and territories belonging to them.
