Siiri Scott, Jay Paul Skelton

The United States and Europe After the Cold War John William Holmes,1997 As a former U.S. diplomat in Europe, John W. Holmes watched the North Atlantic Treaty Organization (NATO) fulfill its purpose with the disintegration of the Soviet Union. In *The United States and Europe after the Cold War*, he explores the possibilities for future transatlantic relations in light of NATO's ebbing usefulness. Finding that a basis still exists for an alliance between the United States and the European Union, Holmes sets forth a comprehensive plan for establishing an association as long-lasting and profitable as the one now drawing to a close. Holmes advocates a solid foundation for the alliance, one that approaches a formal economic union. He lists key considerations for the construction of a new, effective relationship, including the growing impatience of Americans and Europeans with substantial U.S. military contingents in Europe, the changing nature of intra-European relations, and the need for a distribution of power more equitable than that of NATO.

Law and Evil Ari Hirvonen, Janne Porttikivi, 2009-10-22 *Law and Evil* opens, expands and deepens our understanding of the phenomenon of evil by addressing the theoretical relationship between this phenomenon and law. Hannah Arendt said 'the problem of evil will be the fundamental question of post-war intellectual life in Europe'. This statement is, unfortunately, more than valid in the contemporary world: not only in the events of war, crimes against humanity, terror, repression, criminality, violence, torture, human trafficking, and so on; but also as evil is used rhetorically to condemn these acts, to categorise their perpetrators, and to justify forcible measures, both in international and domestic politics and law. But what is evil? Evil as a concept is too often taken as something that is self-evident, something that is always already defined. Taking Kant's concept of radical evil as a starting point, this volume counters such a tendency. Bringing together philosophical, political, and psychoanalytical perspectives, in analysing both the concept and the phenomenon of evil, the contributors to this volume offer a rich and thoroughgoing analysis of the multifaceted phenomenon of evil and its relationship to law.

Sino-American Security Relations Henry B. E. Gass, 1998-05 Focusing on political, economic, cultural, and security affairs, this essay examines the issue of U.S.-Chinese relations. The author discusses the prospects of a formal security relationship between the U.S. and China, regional and global implications of a militarily stronger China, and the delicate balancing of improved relations with China and concern for the security of Taiwan.

White Saviorism and Popular Culture Kathryn Mathers, 2022-09-15 This book interrogates the white savior industrial complex by exploring how America continues to present an imagined Africa as a space for its salvation in the 21st century. Through close readings of multiple mediated sites where Americans imagine Africa, *White Saviorism and Popular Culture* examines how an era of new media technologies is reshaping encounters between Africans and westerners in the 21st century, especially as Africans living and experiencing the consequences of western imaginings are also mobilizing the same mediated spaces. Kathryn Mathers emphasizes that the articulation

of different forms of humanitarian engagement between America and Africa marks the necessity to interrogate the white savior industrial complex and the ways Africa is being asked to fulfill American needs as life in the United States becomes increasingly intolerable for Black Americans. Drawing on case studies from Savior Barbie (@barbiesavior) to Black Panther and Black is King, Mathers posits that global imperialism not only still reigns, but that it also disguises white supremacy by outsourcing Black American emancipation onto an imagined Africa. This is crucial reading for courses on the cultural politics of representation, particularly in relation to race, social media and popular culture, as well as anyone interested in issues of representation in the global humanitarianism industry.

Transcending the Global Power Game Armin Risi, 2004-01-01 Whatever happens on the visible plane has its roots in invisible dimensions; reality is more than meets the eye. This is the essence of all spiritual teachings and mystery schools, and it is the key to understanding what actually happens on the stage of the global power game. Here, in a unique compendium, you get to know what the world looks like when seen from this paranormal viewpoint. Step by step, the author unfolds stunning insights into the hidden dimensions of secret politics, money manipulations, and the ongoing transformation. The pieces are put together to reveal an exciting puzzle: Topics Include: Ancient knowledge and new revelations The conclusive meaning of the symbolism of light and darkness The ideology of the Illuminati The roots and goals of today's secret societies Prophecies regarding money and the crash Alien forces and the presence of lightbeings Our role in this cosmic drama ?Had Armin Risi lived in classical times, he would now be counted among the great philosophers and theologians. Being a contemporary author, however, he is able to go beyond classical philosophy and shed light on problems, coverups, and challenges of today, using a revolutionary logic, or mytho-logic, as he calls it. ? Professor Jorg Rehberg, Zurich

New Genetics, New Social Formations Peter Glasner, Paul Atkinson, Helen Greenslade, 2006-12-15 New genetic technologies cut across a range of public regulatory domains and private lifeworlds, often appearing to generate an institutional void in response to the complex challenges they pose. As a result, a number of new social formations are being developed to legitimate public engagement and avoid the perceived democratic deficit that may result. Papers in this volume discuss a variety of these manifestations in a global context, including: genetic

data banks committees of inquiry non-governmental organisations (NGOs) national research laboratories. These institutions, across both health and agriculture, are explored in such diverse locations as Amazonia, China, Finland, Israel, the UK and the USA. This volume exhibits a clear thematic coherence around the impact of the new genetics and their associated technologies on new social formations, and the case studies included have a significant international focus, showing a balance between theoretical and empirical approaches in this rapidly changing field. This innovative new volume will be of interest to postgraduates and professionals in the fields of sociology, social anthropology, science and technology studies, and environmental studies.

Challenging Colonial Discourse ,2005 This first comprehensive analysis of the relationship between Jewish Studies and Protestant theology in Wilhelmine Germany challenges accepted opinions and contributes to a differentiated image of Jewish intellectual history as well as Jewish-Christian relations before the Holocaust.

Counter-Globalization and Socialism in the 21st Century Thomas Muhr,2013-06-26 Framed by critical globalisation theory and David Harvey's 'co-revolutionary moments' as a theory of social change, this book brings together a multi-disciplinary team of researchers to empirically analyse how socialism is being constructed in contemporary Latin America and the Caribbean, and beyond. This book uses the case of the Bolivarian Alliance for the Peoples of Our America - Peoples' Trade Agreement (ALBA-TCP) to invite to a re-thinking of resistance to global capitalism and the construction of socialism in the 21st century. Including detailed theory-based ethnographic case studies from Bolivia, Cuba, El Salvador, Nicaragua, Venezuela and the USA, the contributors identify social and structural forces at different levels and scales to illuminate politics and practices at work. Centred around the themes of democracy and justice, and the more general reconfiguration of the state-society relations and power geometries at the local, national, regional and global scales, ALBA and Counter-Globalization is at the forefront in the trend of interdisciplinary approaches to the study of social phenomena of global relevance. Counter-Globalization and Socialism in the 21st Century will be of interest to students and scholars of Latin American politics, global governance, global regionalisms and rising powers.

Living Without Domination Samuel Clark,2016-05-13 *Living Without Domination* defends the bold claim that humans can organise themselves to live peacefully and prosperously together in an anarchist utopia. Clark refutes errors about what anarchism is, about utopianism, and about human sociability and its history. He then develops an analysis of natural human social activity which places anarchy in the real landscape of sociability, along with more familiar possibilities including states and slavery. The book is distinctive in bringing the rigour of analytic political philosophy to anarchism, which is all too often dismissed out of hand or skated over in popular history.

Propaganda, War Crimes Trials and International Law Predrag Dojcinovic,2013-03-01 First Published in 2012. Propaganda, War Crimes Trials and International Law addresses the emerging jurisprudence and international law concerning propaganda in war crimes investigations and trials. The role of propaganda in the perpetration of atrocities has emerged as a central theme in the war crimes trials in the past century. The Nuremburg trials

initially, and the International Criminal Tribunal for the former Yugoslavia and the International Criminal Tribunal for Rwanda currently, have all substantially contributed to the development of international law in this respect. Investigating and exploring the areas between lawful and unlawful propaganda, they have dealt with specific mechanisms and consequences of the phenomenon within the perspective and framework of their international legal mandates. But the cultural codes and argots through which propaganda operates have vexed international courts struggling to assign responsibility to the instigators of mass crimes, as subtle, but potentially fatal, communications often remain undetected, misinterpreted or even dismissed as entirely irrelevant. With contributions from leading international scholars and legal practitioners, *Propaganda, War Crimes Trials and International Law* pursues a comparative approach to this problem: providing an overview of the current state of the theory of propaganda in the social sciences; exploring this theory in the legal analysis of war crimes and related proceedings; and, finally, offering a study of the prosecution of propaganda-related crimes in international law, and the newly emerging jurisprudence of war crimes propaganda cases.

Introduction ;Introducing Assyria ;Assyrian places ;Assyrians at home ;Assyrians abroad ;Foreigners in Assyria ;Assyrian world domination ;Chronology ;Glossary ;References ;Further reading ;Index Karen Radner, 2015 Assyria was one of the most influential kingdoms of the Ancient Near East. In this Very Short Introduction, Karen Radner sketches the history of Assyria from city state to empire, from the early 2nd millennium BC to the end of the 7th century BC. Since the archaeological rediscovery of Assyria in the mid-19th century, its cities have been excavated extensively in Iraq, Syria, Turkey and Israel, with further sites in Iran, Lebanon, and Jordan providing important information. The Assyrian Empire was one of the most geographically vast, socially diverse, multicultural, and multi-ethnic states of the early first millennium BC. Using archaeological records, Radner provides insights into the lives of the inhabitants of the kingdom, highlighting the diversity of human experiences in the Assyrian Empire. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Global Currents in Gender and Feminisms Glenda Tibe Bonifacio, 2017-12-13 This collection examines the ongoing shared struggles of diverse groups of women in Canada and beyond focusing on a diverse range of themes to explore the centrality of gender and feminist praxis in western and non-western contexts.

Global Capital and Social Difference V. Sujatha, 2020-08-31 This volume offers insights into ongoing global socioeconomic transformations by directing attention to the significance of labour, work, craft, community, social institutions, social movements and emergent subjectivities in different parts of the world. This is in contrast to

theories that project globalisation as a process driven exclusively by global capital and technology, a scheme in which some parts of the world forever will be 'peripheries' supplying labour and natural resources, the lives and work of those people purged of originality, meaning and value by the very construct that describes them. Together the chapters in the book present a nonessentialist and non-linear reading of global transformations by examining the relations and adaptations between economy, polity and society, which remains a fundamentally unresolved question in the social sciences. Combining a wealth of conceptual and empirical investigations, this book will be of interest to scholars and researchers of sociology, globalisation studies, anthropology, economics, development studies and area studies.

A Force So Swift Kevin Peraino, 2018-09-18 New York Times Book Review Editors' Choice • Winner of the 2018 Truman Book Award A gripping narrative of the Truman Administration's response to the fall of Nationalist China and the triumph of Mao Zedong's Communist forces in 1949--an extraordinary political revolution that continues to shape East Asian politics to this day. In the opening months of 1949, U.S. President Harry S. Truman found himself faced with a looming diplomatic catastrophe--perhaps the greatest that this country has ever suffered, as the journalist Walter Lippmann put it. Throughout the spring and summer, Mao Zedong's Communist armies fanned out across mainland China, annihilating the rival troops of America's one-time ally Chiang Kai-shek and taking control of Beijing, Shanghai, and other major cities. As Truman and his aides--including his shrewd, ruthless secretary of state, Dean Acheson--scrambled to formulate a response, they were forced to contend not only with Mao, but also with unrelenting political enemies at home. Over the course of this tumultuous year, Mao would fashion a new revolutionary government in Beijing, laying the foundation for the creation of modern China, while Chiang Kai-shek would flee to the island sanctuary of Taiwan. These events transformed American foreign policy--leading, ultimately, to decades of friction with Communist China, a long-standing U.S. commitment to Taiwan, and the subsequent wars in Korea and Vietnam. Drawing on Chinese and Russian sources, as well as recently declassified CIA documents, Kevin Peraino tells the story of this remarkable year through the eyes of the key players, including Mao Zedong, President Truman, Secretary of State Acheson, Minnesota congressman Walter Judd, and Madame Chiang Kai-shek, the influential first lady of the Republic of China. Today, the legacy of 1949 is more relevant than ever to the relationships between China, the United States, and the rest of the world, as Beijing asserts its claims in the South China Sea and tensions endure between Taiwan and the mainland.

Rousseau's Constitutionalism Eoin Daly, 2017-06-29 Despite Rousseau's legacy to political thought, his contribution as a constitutional theorist is underexplored. Drawing on his constitutional designs for Corsica and Poland, this book argues that Rousseau's constitutionalism is defined chiefly by its socially directive character. His constitutional projects are not aimed, primarily, at coordinating and containing state power in the familiar liberal-democratic sense. Instead, they are aimed at fostering the social conditions in which a fuller sense of freedom – understood broadly as non-domination – can be realised across all social domains. And in turn, since Rousseau views domination as being deeply embedded in complex social practices, his constitutionalism is aimed at

fostering a radical austerity – social, economic and cultural – as its foil. In locating Rousseau's constitutional projects within his social and political theory of servitude and domination, this book will challenge the predominant focus and orientation of contemporary republican theory. Leading republican thinkers have drawn on the historical republican canon to articulate a model of constitutionalism which is, on the whole, 'liberal' in focus and orientation. This book will argue that the more communitarian orientation of Rousseau's constitutionalism – that is, its socially-directive focus – stems from a sophisticated and compelling account of the sources of unfreedom in complex societies, sources which are ignored or downplayed by the neo-republican literature. Rousseau embraces a communitarian social politics as part of his constitutional project precisely because, pessimistically, he views domination as being deeply embedded in the social relations of the liberal order.

Stanislavsky and Race Siiri Scott, Jay Paul Skelton, 2023-09-22 Stanislavsky and Race is the first book to explore the role that Konstantin Stanislavsky's "system" and its legacies can play in building, troubling and illuminating today's anti-racist theatre practices. This collection of essays from leading figures in the field of actor training stands not only as a resource for a new area of academic enquiry, but also for students, actors, directors, teachers and academics who are engaged in making inclusive contemporary theatre. In seeking to dismantle the dogma that surrounds much actor training and replace it with a culturally competent approach that will benefit our entire community, the "system" is approached from a range of perspectives featuring the research, reflections and provocations of 20 different international artists interrogating Stanislavsky's approach through the lens of race, place and identity. Stanislavsky and ... is a series of multi-perspectival collections that bring the enduring legacy of Stanislavskian actor training into the spotlight of contemporary performance culture, making them ideal for students, teachers and scholars of acting, actor training and directing.

The New Asian Hemisphere Kishore Mahbubani, 2009-04-28 For centuries, the Asians (Chinese, Indians, Muslims, and others) have been bystanders in world history. Now they are ready to become co-drivers. Asians have finally understood, absorbed, and implemented Western best practices in many areas: from free-market economics to modern science and technology, from meritocracy to rule of law. They have also become innovative in their own way, creating new patterns of cooperation not seen in the West. Will the West resist the rise of Asia? The good news is that Asia wants to replicate, not dominate, the West. For a happy outcome to emerge, the West must gracefully give up its domination of global institutions, from the IMF to the World Bank, from the G7 to the UN Security Council. History teaches that tensions and conflicts are more likely when new powers emerge. This, too, may happen. But they can be avoided if the world accepts the key principles for a new global partnership spelled out in *The New Asian Hemisphere*.
