📖 **TWELVE YEARS A SLAVE** SOLOMON NORTHUP,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup’s powerful slave narrative ‘Twelve Years a Slave’ depicts Nortup’s life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try ‘Uncle Tom’s Cabin’ by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir ‘Twelve Years a Slave’. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. ‘Twelve Years a Slave’ was published a year after ‘Uncle Tom’s Cabin’ by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup’s final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

📖 **GENDER, WAR, AND MILITARISM** LAURA SJOBERG,SANDRA E. VIA,2010-08-03 This compelling, interdisciplinary compilation of essays documents the extensive, intersubjective relationships between gender, war, and militarism in 21st-century global politics. Feminist scholars have long contended that war and militarism are fundamentally gendered. Gender, War, and Militarism: Feminist Perspectives provides empirical evidence, theoretical innovation, and interdisciplinary conversation on the topic, while explicitly—and uniquely—considering the links between gender, war, and militarism. Essentially an interdisciplinary conversation between scholars studying gender in political science, anthropology, and sociology, the essays here all turn their attention to the same questions. How are war and militarism gendered? Seventeen innovative explanations of different intersections of the gendering of global politics and global conflict examine the theoretical relationship between gender, militarization, and security; the deployment of gender and sexuality in times of conflict; sexual violence in war and conflict; post-conflict reconstruction; and gender and militarism in media and literary accounts of war. Together, these essays make a coherent argument that reveals that, although it takes different forms, gendering is a constant feature of 21st-century militarism.

Following an introductory look at the ‘uniqueness of social cognition’, the Handbook goes on to explore basic and underlying processes of social cognition, from implicit social cognition and consciousness and meta-cognition to judgment and decision-making. Also, the wide-ranging applications of social cognition research in ‘the real world’ from the burgeoning and relatively recent fields of social cognitive development and social cognitive aging to the social cognition of relationships are investigated. Finally, there is a critical and exciting exploration of the future directions in this field. The SAGE Handbook of Social Cognition will be an indispensable volume for any advanced student or academic wanting or needing to understand the landscape of social cognition research in the 21st century.
