Global Workplace Roger Blanpain, Susan Bisom-Rapp, 2014-10-30 The first casebook covering both international and comparative labor and employment law is characterized by its authorship by prolific, respected scholars, all of whom have taught law outside the United States. A solid conceptual framework compares national laws dealing with individual collective employment rights, including antidiscrimination law and privacy law, and considers the systems used to resolve labor and employment disputes in the context of international labor law. A sweeping coverage of international labor law considers the International Labour Organization, NAFTA and other bilateral trade agreements that include labor standards, and the European Union. In addition, The Global Workplace explores transnational corporations' self-regulatory efforts (or codes of conduct,) and the mechanisms for pursuing international labor standards in United States courts. Comparisons are drawn among the laws of the United States, Canada, Mexico, the United Kingdom, Germany, France, China, Japan and India. Exploring the similarities and the differences among various approaches to the employment relationship allows students to better understand and evaluate the approach each country takes, and helps them develop a normative approach to labor and employment law. National legal materials are presented within historical and cultural context. Hallmark features of The Global Workplace: International and Comparative Employment Law: First casebook covering both

**Teaching and Learning for Social Justice and Equity in
 Higher Education** Laura Parson,C. Casey Ozaki,2022-01-14 This
 book focuses on research-based teaching and learning practices
 that promote social justice and equity in higher education. The
 fourth volume in a four-volume series, this book critically
 addresses virtual and remote classroom settings. Chapters
 explore contexts within and outside the classroom, including a
 history of online learning; research on student engagement and
 perceptions; specific, actionable pedagogical or curriculum
 recommendations; and the application of traditional learning

theories in virtual settings. The volume also explores how online education, through a technopositivist lens, promotes and reinforces sexist, racist, and gendered behaviors, as well as the role of the student as consumer, troubling education in virtual settings in a way that allows for deeper discussion about how to make virtual education emancipatory and empowering.

2018 CFR Annual Print Title 32 National Defense Parts 800 to End Office of The Federal Register, 2018-07-01

Re-enchanting Nationalisms Brad West, 2015-04-13 This book provides original insight into the way we now engage and remember national history. Drawing on fieldwork and analysis of international case studies on state commemoration, memorialization, recreational and tourism and times of disaster and crisis, the author demonstrates that not only does the nation frequently retain a strong cultural relevance in our global world but that the emergence of new forms of ritual and remembrance means that in many instances we are seeing the re-enchantment of nationalism. Drawing upon and developing an empirically informed cultural sociology, the author charts the distinctive qualities of these new national rites and how they feed into and advance particular cosmopolitan and orthodox national politics. Because social science has so often wrongly assumed the end of nationalism, the insights of this of the book about the possibilities and limitations of contemporary nationalism demand serious consideration by academics and also by policy makers and the general public.

Political Conflict in Pakistan Mohammad Waseem, 2022-04-01 This book is a major reinterpretation of politics in Pakistan. Its focus is conflict among groups, communities, classes, ideologies and institutions, which has shaped the country's political dynamics. Mohammad Waseem critically examines the theory surrounding the millennium-long conflict between Hindus and Muslims as separate nations who practiced mingled faiths, and the Hindu, Muslim and Sikh renaissances that created a

twentieth-century clash of communities and led to partition. Political Conflict in Pakistan addresses multiple clashes: between the high culture as a mission to transform society, and the low culture of the land and the people; between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the colonial state; between the corrupt and those seeking to hold them to account; between the political class and the middle class; and between civil and military power. The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics, rendering the federalist arrangement an empty shell and thus grossly alienating the provinces. He sets all this within the contexts of education and media as breeders of conflict, the difficulties of establishing an anti-terrorist regime, and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside. This is a wide-ranging account of a country of contestations.

Santa Claus Worldwide Tom A. Jerman, 2020-05-01 This is a comprehensive history of the world's midwinter gift-givers, showcasing the extreme diversity in their depictions as well as the many traits and functions these characters share. It tracks the evolution of these figures from the tribal priests who presided over winter solstice celebrations thousands of years before the birth of Christ, to Christian notables like St. Martin and St. Nicholas, to a variety of secular figures who emerged throughout Europe following the Protestant Reformation. Finally, it explains how the popularity of a poem about a miniature sleigh and eight tiny reindeer helped consolidate the diverse European gift-givers into an enduring tradition in which American children awake early on Christmas morning to see what Santa brought. Although the names, appearance, attire and gift-giving practices of the world's winter solstice gift-givers differ greatly, they are all recognizable as Santa, the personification of the Christmas and Midwinter festivals. Despite efforts to eliminate him by groups as diverse as the Puritans of seventeenth century New England, the Communist Party of the twentieth century Soviet Union and the government of Nazi Germany, Santa has survived and prospered, becoming one of the best known and most beloved figures in the world.

The Emotional Calendar John R. Sharp, 2011-01-04 A leading Harvard psychiatrist reveals how our emotional lives are profoundly shaped by the seasons, and how to recognize our own seasonal patterns and milestones In two decades of psychiatry practice, John R. Sharp has worked with many people who

experienced the same emotional distresses at specific times of the year—a young woman who became depressed before Thanksgiving, a middle-aged man who felt anxious about making his summer travel plans, people who made uncharacteristically extreme decisions as spring approached. In *The Emotional Calendar*, Sharp reveals how environmental, psychological, and cultural forces profoundly affect the way we feel, and how the enduring effects of personal anniversaries can influence our moods and behavior year after year. Sharp also illustrates a wide range of individual responses to cultural phenomena: some people feel anxious at the start of a new school year or are undone by the prospect of tax season while others are buoyed by the start of a sports season. Sharp shows us how to recognize the milestones on our own emotional calendars, providing guidance for how to break stifling patterns and remedy destructive moods. This empathetic and deeply resonant book will help readers reach an emotional balance for the years ahead.
