**The Japanese Buddhist World Map** D. Max Moerman, 2021-12-31 From the fourteenth through the nineteenth centuries Japanese monks created hundreds of maps to construct and locate their place in a Buddhist world. This expansively illustrated volume is the first to explore the largely unknown archive of Japanese Buddhist world maps and analyze their production, reproduction, and reception. In examining these fascinating sources of visual and material culture, author D. Max Moerman argues for an alternative history of Japanese Buddhism—one that compels us to recognize the role of the Buddhist geographic imaginary in a culture that encompassed multiple cartographic and cosmological world views. The contents and contexts of Japanese Buddhist world maps reveal the ambivalent and shifting position of Japan in the Buddhist world, its encounter and negotiation with foreign ideas and technologies, and the possibilities for a global history of Buddhism and science. Moerman's visual and intellectual history traces the multiple trajectories of Japanese Buddhist world maps, beginning with the earliest extant Japanese map of the world: a painting by a fourteenth-century Japanese monk charting the cosmology and geography of India and Central Asia based on an account written by a seventh-century Chinese pilgrim-monk. He goes on to discuss the cartographic inclusion and marginal position of Japan, the culture of the copy and the power of replication in Japanese Buddhism, and the transcultural processes of engagement and response to new visions of the world produced by Iberian Christians, Chinese Buddhists, and the Japanese maritime trade. Later chapters explore the transformations in the media and messages of

Buddhist cartography in the age of print culture and in intellectual debates during the eighteenth and nineteenth centuries over cosmology and epistemology and the polemics of Buddhist science. The Japanese Buddhist World Map offers a wholly innovative picture of Japanese Buddhism that acknowledges the possibility of multiple and heterogeneous modernities and alternative visions of Japan and the world.

**Maps of the World** Enrico Lavagno, 2018-09-18 A lavishly illustrated, fact-filled,

oversized atlas that allows children to discover the world without leaving their home. Covering every continent, country, even outer space, Maps of the World is a vibrant and comprehensive atlas that children of all ages will love to explore. The dozens of colorful, detailed maps are filled with charming, educational icons representing the aboriginal people in Australia, giant tortoises in the Galapagos, the Gold Rush in California, traditional dress in Mali, and even James Bond in England. Flip the next page in the book, and the corresponding icon key explains hundreds of these cultural, environmental, and societal illustrations. Organized by continent, the atlas also includes details on populations, language, agricultural, politics, and other bite-size facts. Each map includes a link allowing kids to download a version of them on computers and tablets to explore even further. Captivating and comprehensive, Maps of the World will entice even the most reluctant young explorer.

The World Book Encyclopedia ,2002 An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

**Geography Education in the Digital World** Nicola Walshe, Grace Healy, 2020-10-07 Geography Education in the Digital World draws on theory and practice to provide a critical exploration of the role and practice of geography education within the digital world. It considers how living within a digital world influences teacher identity and professionalism and is changing young people's lives. The book moves beyond the applied perspective of educational technology to engage with wider social and ethical issues of technology implementation and use of digital data within geography education. Situated at the intersection between research and practice, chapters draw on a wide range of theory to

consider the role, adoption and potential challenges of a range of digital technologies in furthering geographical education for future generations. Bringing together academics from the fields of geography, geography education and teacher education, the book engages with four key themes within the digital world: Professional practice and personal identities. Geographical sources and connections. Geospatial technologies. Geographical fieldwork. This is a crucial read for geographers, geography educators and geography teacher educators, as well as those engaging with existing and new technologies to support geographical learning in the dynamic context of the digital world. It will also be of interest to any students, academics and policymakers wanting to better understand the impact of digital media on education.

The Rough Guide to First-Time Around the World Rough Guides, 2016-02-01 Whether you're heading off on a gap year or taking a sabbatical, the new full-colour The Rough Guide to First-Time Around the World will be indispensable when planning your trip. From the big things (entry requirements, round-the-world tickets) to the very smallest (how many pairs of socks you'll need), this guide has you covered. Beyond the inspirational section on how to enrich your trip, it includes maps, regional profiles, an FAQ section, a directory and plenty of practical, budget-conscious tips. The Rough Guide to First-Time Around the World also contains a well-researched selection of the best the internet has to offer independent travellers, from using your phone abroad to the best services available through the new sharing economy, plus information on staying safe on the road and how to pick volunteer programmes wisely. Planning your first trip around the world can be daunting for even veteran travellers, but the Rough Guides author leads you through the process with

experience, insight and humour, showing you how to create your own journey - not just how to tick off everything you're supposed to see.

**The Changing World Religion Map** Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the “changing world religion map”, the book first focuses on nature, ethics and the environment. It examines humankind’s eternal search for the sacred, and discusses the emergence of “green” religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many “new faces” that are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of

globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.

**Avignon A World Heritage Site** Jérôme Sabatier, Travel guide updated in February 2019. Avignon is immediately associated with its bridge, known worldwide thanks to the now famous song. But Avignon is also, of course, bathed in history from its reign as capital of the papacy in the 14th century. This glorious period of its past provides visitors an exceptionally rich environment. Avignon also hosts an annual world-renown theater festival. Avignon is all of this, and much more. A bustling and lively city, Avignon is best enjoyed by walking in the heart of the city, absorbing its unique atmosphere and following in the footsteps of its history, religion and culture. Here you'll find all the information necessary to prepare your trip and your stay in Avignon in order to discover this exceptional site of indisputable universal value. You will find the following under the sections for the site : the reasons for its selection for the World Heritage list, the history of the site, many practical informations (Tourist Offices, suggested tours, museums, events, transports), and a selection of accommodation and restaurants. Informations, prices and opening hours shown are for 2019. But most importantly, this Avignon, A World Heritage Site travel guide also offers a suggested itinerary for visiting each site and monument. You will also find tips (transport, pricing, activities ... ), anecdotes and all the possibilities for family-friendly visits

to encourage children and families in their discovery. Let us guide you...

**Digital Research Confidential** Eszter Hargittai, Christian Sandvig, 2015-12-11 Behind-the-scenes stories of how Internet research projects actually get done. The realm of the digital offers both new methods of research and new objects of study. Because the digital environment for scholarship is constantly evolving, researchers must sometimes improvise, change their plans, and adapt. These details are often left out of research write-ups, leaving newcomers to the field frustrated when their approaches do not work as expected. Digital Research Confidential offers scholars a chance to learn from their fellow researchers' mistakes—and their successes. The book—a follow-up to Eszter Hargittai's widely read *Research Confidential*—presents behind-the-scenes, nuts-and-bolts stories of digital research projects, written by established and rising scholars. They discuss such challenges as archiving, Web crawling, crowdsourcing, and confidentiality. They do not shrink from specifics, describing such research hiccups as an ethnographic interview so emotionally draining that afterward the researcher retreated to a bathroom to cry, and the seemingly simple research question about Wikipedia that mushroomed into years of work on millions of data points. Digital Research Confidential will be an essential resource for scholars in every field. Contributors Megan Sapnar Ankerson, danah boyd, Amy Bruckman, Casey Fiesler, Brooke Foucault Welles, Darren Gergle, Eric Gilbert, Eszter Hargittai, Brent Hecht, Aron Hsiao, Karrie Karahalios, Paul Leonardi, Kurt Luther, Virág Molnár, Christian Sandvig, Aaron Shaw, Michelle Shumate, Matthew Weber

**Running The World** Nick Butter, 2020-11-12 'Superb - a great book to fuel your wanderlust.' Mark Beaumont 'The ultimate running book, showcasing the ultimate running

adventure.' Sean Conway --- In 2019, Nick Butter became the first person to run a marathon in every country on Earth. This is Nick's story of his world record-breaking adventure and the extraordinary people who joined him along the way. On January 6th 2018, Nick Butter tied his laces and stepped out on to an icy pavement in Toronto, where he began to take the first steps of an epic journey that would see him run 196 marathons in every one of the world's 196 countries. Spending almost two years on the road and relying on the kindness of strangers to keep him moving, Nick's odyssey allowed him to travel slowly, on foot, immersing himself in the diverse cultures and customs of his host nations. Running through capital cities and deserts, around islands and through spectacular landscapes, Nick dodges bullets in Guinea-Bissau, crosses battlefields in Syria, survives a wild dog attack in Tunisia and runs around an erupting volcano in Guatemala. Along the way, he is often joined by local supporters and fellow runners, curious children and bemused passers-by. Telling their stories alongside his own, Nick captures the unique spirit of each place he visits and forges a new relationship with the world around him. Running the World captures Nick's journey as he sets three world records and covers over five thousand miles. As he recounts his adventures, he shares his unique perspective on our glorious planet, celebrates the diversity of human experience, and reflects on the overwhelming power of running.

**Recent Advances in Geographic Information System for Earth Sciences** Yosoon Choi, 2020-06-23 Geographic information systems (GISs) have played a vital role in Earth sciences by providing a powerful means of observing the world and various tools for solving complex problems. The scientific community has used GISs to reveal fascinating details about the Earth and other planets. This book on recent advances in GIS for Earth sciences

includes 12 publications from esteemed research groups worldwide. The research and review papers in this book belong to the following broad categories: Earth science informatics (geoinformatics), mining, hydrology, natural hazards, and society.

*Mont Saint Michel A World Heritage Site* Jérôme Sabatier, Travel guide updated in February 2019. The Mont-Saint-Michel stands on a rocky mount in the middle of stretches of sand and water that make up the immense bay. Not really on the continent, not really at sea, between the world of men and the wild vastness of the ocean. Between heaven and earth, its imposing figure seems to rise to the heavens. The lights, which change from morning to night, and the atmosphere, at times mystical in the sea mist, enhance these impressions, along with the breathtaking vision upon arrival at the site. For the full effect, travel to Mont Saint Michel on foot from the mainland, as did hundreds of thousands of pilgrims for centuries, and you will understand the magic that surrounds this place. Victor Hugo summed up the feeling in 1884 : Mont-Saint-Michel is to France what the Great Pyramid is to Egypt. Here you'll find all the information necessary to prepare your trip and your stay in Mont Saint Michel in order to discover this exceptional site of indisputable universal value. You will find the following under the sections for the site : the reasons for its selection for the World Heritage list, the history of the site, many practical informations (Tourist Offices, suggested tours, museums, events, transports), and a selection of accommodation and restaurants. Informations, prices and opening hours shown are for 2019. But most importantly, this Mont Saint Michel, A World Heritage Site travel guide also offers a suggested itinerary for visiting each site and monument. You'll also find tips (transport, pricing, activities ... ), anecdotes and all the possibilities for family-friendly visits

**Globalization in Practice** N. J. Thrift, Adam Tickell, Steve Woolgar, William H. Rupp, 2014 The concept of globalization has become ubiquitous in social science and in the public consciousness and is often invoked as an explanation for a diverse range of changes to economies, societies, politics and cultures - both as a positive liberating force and as a wholly negative one. While our understanding of the politics, economics, and social resonance of the phenomenon has become increasingly sophisticated at the macro-level, this book argues that globalization too often continues to be depicted as a set of extra-terrestrial forces with no real physical manifestation, except as effects. The essays challenge this dominant understanding of 'globalization from above' through explorations of the mundane means by which globalization has been achieved. Instead of a focus on the meta-political economy of global capitalism, the book concentrates on the everyday life of capitalism, the not-so-'little' things that keep the 'large' forces of globalization ticking over. With its eye on the mundane, the book demonstrates that a series of everyday and, consequently, all but invisible formations critically facilitate and create the conditions under which globalization has flourished. The emphasis is on concrete moments in the history of capitalism when these new means of regular reproduction were invented and deployed. Only by understanding these infrastructures can we understand the dynamics of globalization. In short, punchy essays by distinguished researchers from across a range of disciplines, this book provides a new way of understanding globalization, moving away from the standard accounts of global forces, economic flows, and capitalist dynamics, to show how ordinary practices and artefacts are crucial elements and symbols of globalization.
