Present-Day Corporate Communication Rudolf Beger,2018-06-22 This book serves as an easy-to-read, up-to-date practical guide on professional corporate communication. The key market for this book is the Asia-Pacific region, mainly because there is a gap in know-how in corporate communication among many industry sectors. In addition, at present, one cannot find a lot of educational literature about corporate communication in the market. Therefore, this guidebook closes that gap. In Asia, companies are starting to realize the importance of corporate communication in all areas (external and internal corporate communication, crisis communication (Example: TEPCO) and political communication / government relations / lobbying). This is triggered not only by the recent high profile and success of targeted (political) communication in the USA, but also by the notorious export-orientation of many Asian companies and their increasingly multi-national orientation (fostered by M&A and foreign investments). In addition, the increasing importance of online communication and digital/social media is an important reason why existing guidebooks on corporate communication have to be reassessed and modernized. This book focuses on all major aspects of modern corporate communication, including online / digital communication, and covers new developments, such as “fake news”, “post-truths”, “political correctness”, “the art of bridging” and other new phenomena in the world of (corporate) communication. Simple cartoon-style drawings supplement the text in order to facilitate reading and learning. Corporate communication professional, as well as students and professors in business/management programs, will be given tools to effectively and successfully plan and implement corporate communication strategies and tactics in all major areas.

Missionary Writing Jeff Calloway,2013-08-01 Missionary Writing focuses on the writers pursuit of passion to write much like the passion a missionary has to abandon all. This short eBook looks at a writer's calling of spreading the message they have to share that must be heard. Think about a missionary, the first image I described above. That person has a calling and acts on it knowing that there will be sacrifice, but in the end it will be worth it. A Christian missionary's job is to spread the good news and love of Jesus Christ. They are willing to do so at a great cost. Some at the cost of their own life. They believe have a message worth dying for and will do whatever it takes to spread that message. Is this the kind of writer you are or want to become? Do you have a message that you believe people need to hear regardless of the cost or do you want to write for the sake of writing to please yourself? Do you believe so strongly in your message that you are willing to sacrifice for it to be heard? If not, you will not reach the masses and your message will be drowned out with the thousand others who do not have this writers passion I am describing. What I am going to describe to you in this eBook in regard to becoming a missionary writer might take you by surprise.
