Christoph Engels

Sacred Places of a Lifetime National Geographic, 2008 A listing of five hundred sites new and old, famous and unknown, that have been used to connect humanity with its gods.

Sacred Places Brad Olsen, 2000 A travel guide to the world's most sacred locales offers travel tips and detailed maps to the Great Pyramid, Easter Island, the Himalayas, Ayers Rock, Chaco Canyon, Jericho, Delphi, Stonehenge, and Mayan ruins, among other sites of spiritual importance. Original.

Holy Places, Sacred Sites Eduardo Rubio, Juan Masiá Clavel, 2008 Eduardo Rubio Méndez travelled the length and breadth of the world for three years, visiting a hundred or so countries and taking over 70,000 photographs. His mission? To search for God and the gods, as well as those who believe in them, and live with them and off them. His journey took him to all the most holy places of the earth and revealed a whole host of legends. In the process he met people who seek in their gods meaning, redemption, consolation and miracles. The transcendent photographs he took on his pilgrimage portray spaces of nature and humanity, of landscapes and rural areas: all are imbued with a sacred atmosphere that overflows from within.

Sacred Places Around the World Brad Olsen, 2004 World travelers and armchair tourists who want to explore the mythology and archaeology of the ruins, sanctuaries, mountains, lost cities, and temples of ancient civilizations will find this guide ideal. Detailed here are the monuments and sites where ancient peoples once gathered to perform sacred rituals and ceremonies to worship various gods and to achieve spiritual enlightenment. Important archaeological, historical, and geological destinations

worldwide are profiled, from the Great Pyramid in Egypt and the Forbidden City in China to the Temples of Angkor in Cambodia and Mount Shasta in California. Sites are described in historical and cultural context, and practical contemporary travel information is provided, including detailed maps, drawings, photographs, and travel directions. This book represents 1,000 such special places, including some of the great Christian cathedrals in Europe; pilgrim paths and places of pilgrimage; Hindu, Buddhist and Shinto temples in Asia; the most important mosques of the Islam; natural sanctuaries in Africa, America and Australia; prehistoric cult sites and modern sanctuaries. Richly illustrated with hundreds of color photographs, this book invites the reader to a spiritual journey through history and the cultures of the world.

Sacred Places of a Lifetime, Second Edition National Geographic, 2024-10 Fully updated throughout and featuring all-new destinations, this inspirational guide highlights

500 of the world's most spiritual places--from the Sacred Valley of the Inca in Peru to Egypt's Mount Sinai--with unique histories and practical travel information. Brimming with illuminating prose, stunning photographs, and expert travel advice, *Sacred Places of a Lifetime* explores icons, monuments, temples, and natural spaces that have been significant to cultures and religions around the world for centuries. In this second edition, find more than 50 new sacred places, from prehistoric holy mountains--such as Ireland's Croagh Patrick--to present-day monuments and marvels like Croatia's Dubrovnik Cathedral. With each bucket list-worthy entry, you'll discover each destination's history, legend, and lore, as well as how you can experience these significant locations yourself. Alongside fascinating stories are updated maps, pilgrimage routes, and places of meditation, worship, and prayer, including St. Wandrille Abbey in France, founded in 649 and celebrated for the miracles performed by the more than 35 saints who have called it home; China's revered Taishan mountain, which Confucius himself once summited; Machu Picchu in Peru, whose origins lie in obscurity; and Dome of the Rock in Jerusalem, said by many to be the holiest city in the world. Plus, top 10 lists throughout illuminate specific sacred wonders, from the world's most brilliant stained glass cathedrals to nocturnal celebrations. This beautiful coffee table book answers the call of the spiritual traveler and all those interested in sites of unique cultural heritage.

Sacred Places Philip Carr-Gomm, 2009-10-09 Includes sites from Africa, Middle East, Europe, The Americas, Oceania, and Asia.

Encyclopedia of Sacred Places [2 volumes] Norbert C. Brockman, 2011-09-13 Now thoroughly revised and updated, this encyclopedia documents the diversity of shrines,

temples, holy places, and pilgrimage sites sacred to the world's major religious traditions, and illustrates their elemental place in human culture. As interest increases in the role of world religions in history and international affairs, the new edition of *Encyclopedia of Sacred Places*—which arrives 15 years after the publication of the original edition—provides new and updated information on site-specific religious practice and spiritually significant locations around the globe. While many of the entries describe specific places, like the Erawan Shrine and the Rock of Cashel, others examine types of sacred sites, pilgrimages, and practices. With articles that describe both the places and their associated traditions and history, this reference book reveals the enormous diversity and cultural significance of religious practice worldwide. For students and teachers of classes ranging from high school geography to university-level courses in religious studies, geography, anthropology, and sociology, this book provides essential reference on places of great significance to the world's various faith traditions.

Spiritual Places Antony Mason, 2014 50 of the most spectacular holy sites in the world.

Sacred Places of a Lifetime, 2008 A listing of five hundred sites new and old, famous and unknown, that have been used to connect humanity with its gods.

Sacred Places of the World Robert H. Dalton, 2004

Abandoned Sacred Places Lawrence Joffe, 2019 From Roman temples to Buddhist shrines in the Chinese desert, these hallowed halls have been abandoned to nature. More than 200 outstanding images show what happens to sacred places when humanity retreats. What happens when the congregation moves away from its place of worship? Or

when shifting borders or persecution mean that people can no longer reach their church, synagogue, or mosque? Through magnificent, sometimes haunting images, *Abandoned Sacred Places* explores more than 100 lost worlds, including ancient and modern temples, synagogues, churches, mosques, and stone circles. Organized geographically, this unforgettable volume wanders from Stonehenge in England and Carnac in France to crumbling inner-city churches and synagogues in present-day Detroit and Chicago, from Mayan pyramids in Mexico to Hindu temples lost in the Indian jungle.

Sacred Places Jane Yolen, 1996 A collection of poems about different places around the world that are considered sacred by various cultures, including Mecca, the Ganges River, and Christian cathedrals.

The Changing World Religion Map Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the “changing world religion map”, the book first focuses on nature, ethics and the environment. It examines humankind’s eternal search for the sacred, and discusses the emergence of “green” religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the

role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many “new faces” that are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.

Sacred Places, North America Brad Olsen, 2008 This revised and updated comprehensive travel guide examines North America's most sacred sites for spiritually attuned explorers. Important archaeological, geological, and historical destinations from coast to coast are exhaustively examined, from the weathered pueblos of the American Southwest and the medicine wheels of western Canada to Graceland and the birthplace of Martin Luther King, Jr. Histories and cultural contexts are objectively surveyed, along with the latest academic theories and insightful metaphysical ruminations. Detailed maps, drawings, and travel directions are also included.

100 Holy Places Herbert Genzmer, 2010

The Atlas of Holy Places & Sacred Sites Colin Wilson, 1996 This account of holy sites

and mysterious ruins aims to capture the spirit of the places themselves. It explains their myths and legends and shows their continuing importance down the ages. Part One examines over 100 key sites and shows how they came to be regarded as sacred and their subsequent history. The sites are divided geographically into sections, such as Africa and the Middle East, Europe and Australia, and the Pacific. Each of these areas is introduced by a hand-drawn map showing all of the sites described and other areas of interest, such as ancient burial grounds, temples and natural sites. Part Two is a map-based gazetteer of over 1000 sacred sites. The sites are plotted over 20 maps, which are then followed by listings giving information about each holy place. The maps show the location of each site and the period in which it was built or used.

Sacred Mountains of the World Edward Bernbaum, Edwin Bernbaum, 2022-03-10 A fascinating exploration of the symbolism of mountains in the mythologies, religions, literature, and art of cultures around the world.
