**The Earth Moved** Amy Stewart,2005-03-11 In The Earth Moved, Amy Stewart takes us on a journey through the underground world and introduces us to one of its most amazing denizens. The earthworm may be small, spineless, and blind, but its impact on the ecosystem is profound. It ploughs the soil, fights plant diseases, cleans up pollution, and turns ordinary dirt into fertile land. Who knew? In her witty, offbeat style, Stewart shows that much depends on the actions of the lowly worm. Charles Darwin devoted his last years to the meticulous study of these creatures, praising their remarkable abilities. With the august scientist as her inspiration, Stewart

investigates the worm's subterranean realm, talks to oligochaetologists—the unsung heroes of earthworm science—who have devoted their lives to unearthing the complex life beneath our feet, and observes the thousands of worms in her own garden. From the legendary giant Australian worm that stretches to ten feet in length to the modest nightcrawler that wormed its way into the heart of Darwin's last book to the energetic red wigglers in Stewart's compost bin, *The Earth Moved* gives worms their due and exposes their hidden and extraordinary universe. This book is for all of us who appreciate Mother Nature's creatures, no matter how humble.

Born in the early 50's with a type of spastic CP impacting his gait and balance, but leaving his speech intact, John and his strong willed mother fought against the times' conventional wisdom and doctors' predictions that he would never walk. After an early childhood of repeated muscle lengthening surgeries and body braces, he insisted upon leaving a special education school to be mainstreamed in the Philadelphia Catholic, then public, school systems, and went on to play Catholic grade school football and developed a keen interest in high school wrestling and football. After completing a degree in broadcast journalism, he embarked on a 44 year career as an award winning Philadelphia radio disc jockey, traffic reporter and meteorologist, retiring in October 2013. From the childhood specialists who viewed him as just another special needs child, to his first radio program director who called him a diamond in the rough, John was determined to be the best in his field and demonstrate that hard work, perseverance and, some luck, can help one trump the odds no matter the obstacles. John's is a story of the American spirit, how tears, determination and true grit can get you to the top.
