Fighting for Credibility Frank P. Harvey,John Mitton,2017-01-18 When Bashar al-Assad used chemical weapons against his own people in Syria, he clearly crossed President Barack Obama's red line. At the time, many argued that the president had to bomb in order to protect America's reputation for toughness, and therefore its credibility, abroad; others countered that concerns regarding reputation were overblown, and that reputations are irrelevant for coercive diplomacy. Whether international reputations matter is the question at the heart of *Fighting for Credibility*. For skeptics, past actions and reputations have no bearing on an adversary's assessment of credibility; power and interests alone determine whether a threat is believed. Using a nuanced and sophisticated theory of rational deterrence, Frank P. Harvey and John Mitton argue the opposite: ignoring reputations sidesteps important factors about how adversaries perceive threats. Focusing on cases of asymmetric US encounters with smaller powers since the end of the Cold War including Bosnia, Kosovo, Iraq, and Syria, Harvey and Mitton reveal that reputations matter for credibility in international politics. This dynamic and deeply documented study successfully brings reputation back to the table of foreign diplomacy.

On Democracy's Doorstep: The Inside Story of How the Supreme Court Brought "One Person, One Vote" to the United States J. Douglas Smith,2014-06-10 Winner of the Henry Adams Prize from the Society for History in the Federal Government A Washington Post Notable Work of Nonfiction A Slate Best Book of 2014 The inside story of the Supreme Court decisions that brought true democracy to the United States As chief justice of the U.S. Supreme Court, Earl Warren is most often remembered for landmark rulings in favor of desegregation and the rights of the accused. But Warren himself identified a lesser known group of cases—Baker v. Carr, Reynolds v. Sims, and their companions—as his most important work. J. Douglas Smith's *On Democracy's Doorstep* masterfully recounts the tumultuous and often overlooked events that established the principle of one person, one vote in the United States. Before the Warren Court acted, American democracy was in poor order. As citizens migrated to urban areas, legislative boundaries remained the same, giving rural lawmakers from sparsely populated districts disproportionate political power—a power they often used on behalf of influential business interests. Smith shows how activists ranging from city boosters in Tennessee to the League of Women Voters worked to end malapportionment, incurring the wrath of chambers of commerce and southern segregationists as they did so. Despite a conspiracy of legislative inaction and a 1946 Supreme Court decision that instructed the judiciary not to enter the political thicket, advocates did not lose hope. As Smith shows, they skillfully used the Fourteenth Amendment's Equal Protection Clause to argue for radical judicial intervention. Smith vividly depicts the unfolding drama as Attorney General Robert F. Kennedy pressed for change, Solicitor General Archibald Cox cautiously held back, young clerks pushed the justices toward ever-bolder reform, and the powerful Senate Minority Leader Everett Dirksen obsessively sought to reverse the judicial revolution that had upended state governments from California to Virginia. Today, following the Court's recent controversial decisions on voting rights and campaign finance, the battles described in *On Democracy's Doorstep* have increasing relevance. With erudition and verve, Smith illuminates this neglected episode of American political history and confronts its profound consequences.

Feminism's Fight Barbara Cameron,Meg Luxton,2023-06-01 *Feminism's Fight* explores and assesses feminist strategies to advance gender justice through Canadian federal policy over the past fifty years, from the 1970 Report of the Royal Commission on the Status of Women to the present. This timely collection tells the crucial story of a transformation in how feminism has been treated by governments and asks how new ways of organizing and new alliances can advance a transformative feminist policy agenda of social and economic equality.

Take Back The Fight Nora Loreto,2020-10-11T00:00:00Z Two decades of neoliberalism have destroyed a structured, pan-regional feminist movement in Canada. As a result, new generations of feminists have come to age without ever seeing the force that an organized social movement can have in democratic society. They have never benefited from the knowledge, the debates, the actions, the mass mobilizations or the leadership that all accompany a social movement and instead organize in decentralized silos. As a result, government and corporate leaders have co-opted feminism to turn it into something that can be bought, sold, or used to attract voters. Campaigns like #BeenRapedNeverReported, #MeToo, the SlutWalks and the Canadian Women's marches, while important, don't yet have the organized power to bring the changes that activists seek to make in society. In *Take Back The Fight*, Nora Loreto examines the state of modern feminism in Canada and argues that feminists must organize to take back feminism from politicians, business leaders and journalists who distort and obscure its power. Furthermore, Loreto urges today's activists to overcome the challenges that sank the movement decades ago, to stop centering whiteness as the quintessential woman's experience, and to find ways to rebuild the communities that have been obliterated by neoliberal economic policies.

Global Defense Procurement and the F-35 Joint Strike Fighter Bert Chapman,2018-12-27 This book analyzes the development and evolution of the F-35 Joint Strike Fighter, a multinational aircraft endeavor involving the U.S. and many of its allies. The author provides a historical overview of jet fighter aircraft, discussing the different generations of these planes and their technical characteristics, as well as an outline of emerging international geopolitical and security trends the F-35 may see combat in. By examining the role of defense industries, domestic politics, and governmental oversight of the Joint Strike Fighter in various countries, the author concludes that this aircraft will be deployed in most of these countries to replace their aging jet fighter fleets and combat potential military aggression from China, Russia, and other revisionist international powers.

Fight John Della Volpe,2022-01-18 From John Della Volpe, the director of polling at the Harvard Institute of Politics, *Fight* is an exploration of Gen Z, the issues that matter most to them, and how they will shape the future. 9/11. The war on terror. Hurricane Katrina. The 2008 financial crisis. The housing crisis. The opioid epidemic. Mass school shootings. Global warming. The Trump presidency. COVID-19. Since they were born, Generation Z (also known as zoomers)—those born from the late 1990s to early 2000s—have been faced with an onslaught of turmoil, destruction and instability unprecedented in modern history. And it shows: they are more stressed, anxious, and depressed than previous generations, a phenomenon John Della Volpe has documented heavily through decades of meeting with groups of young Americans across the country. But Gen Z has not buckled under this tremendous weight. On the contrary, they have organized around issues from gun control to racial and environmental justice to economic equity, becoming more politically engaged than their elders, and showing a unique willingness to disrupt the status quo. In *Fight: How Gen Z Is Channeling Their Passion and Fear to Save America*, Della Volpe draws on his vast experience to show the largest forces shaping zoomers' lives, the issues they care most about, and how they are—despite older Americans' efforts to label Gen Z as overly sensitive, lazy, and entitled—rising to the unprecedented challenges of their time to take control of their country and our future.

Returning Foreign Fighters: Responses, Legal Challenges and Ways Forward Francesca Capone,Christophe Paulussen,Rebecca Mignot-Mahdavi,2023-03-24 This book, a follow-up publication to the 2016 volume *Foreign Fighters under International Law and Beyond*, zooms in on the responses that the international community and individual States are implementing in response to (prospective and actual) returning foreign fighters (FFs) and their families, focusing on returnees from Syria and Iraq to European countries. As States and international organisations are still 'learning by doing', the role of the academic community is to help steer the process by bridging the divide between international standards and their implementation at the national level and between security concerns and human rights law. Furthermore, the academic community can and should assist in identifying ways forward that are both effective, sustainable and international law-compliant. Those are, ultimately, the goals that the present volume seeks to pursue. The observations, recommendations and warnings included in this book will be useful in future debates on (returning) FFs, both in the academic world and in the world of policy makers and practitioners, as well as to the public at large. Francesca Capone is Associate Professor of International Law at the Istituto DIRPOLIS of the Scuola Superiore Sant'Anna in Pisa, Italy. Christophe Paulussen is Senior Researcher International Law at the T.M.C. Asser Instituut in The Hague, The Netherlands. Rebecca Mignot-Mahdavi is Lecturer in International Law at the Manchester International Law Centre, University of Manchester, School of Law in Manchester, United Kingdom.

Fighting Financial Crises Gary B. Gorton,Ellis W. Tallman,2021-05-11 If you've got money in the bank, chances are you've never seriously worried about not being able to withdraw it. But there was a time in the United States, an era that ended just over a hundred years ago, when bank customers had to pay close attention to the solvency of the banking system, knowing they might have to rush to retrieve their savings before the bank collapsed. During the National Banking Era (1863–1913), before the establishment of the Federal Reserve, widespread banking panics were indeed rather common. Yet these pre-Fed banking panics, as Gary B. Gorton and Ellis W. Tallman show, bear striking similarities to our recent financial crisis. *Fighting Financial Crises* thus turns to the past to better understand our uncertain present, investigating how panics during the National Banking Era played out and how they were eventually quelled and prevented. The authors then consider the Fed's and the SEC's reactions to the recent crisis, building an informative new perspective on how the modern economy works.

Fight the Tower Kieu Linh Caroline Valverde,Wei Ming Dariotis,2019-10-11 Asian American women scholars experience shockingly low rates of tenure and promotion because of the ways they are marginalized by intersectionalities of race and gender in academia. *Fight the Tower* shows that Asian American women stand up for their rights and work for positive change for all within academic institutions. The essays provide powerful portraits, reflections, and analyses of a population often rendered invisible by the lies sustaining intersectional injustices to operate an oppressive system.
