Transnational Anti-Communism and the Cold War Stéphanie Roulin,Giles Scott-Smith,2014-04-22 How was anti-communism organised in the West? This book covers the agents, aims, and arguments of various transnational anti-communist activists during the Cold War. Existing narratives often place the United States – and especially the CIA – at the centre of anti-communist activity. The book instead opens up new fields of research transnationally.

How We Lost the Vietnam War Nguyen Cao Ky,2002-09-30 Nguyen Cao Ky served as South Vietnam's prime minister and its vice president during the years of the Vietnam War's escalation, and of subsequent criticism of the war from the U. S. His memoir provides an insider's look at the disputes and corruption within the government of South Vietnam and the diplomatic struggles with the U. S. during this time. Ky, who was also a military pilot and held the rank of marshal, gives insight into the South Vietnamese military as well, criticizing inaccurate reporting on the war and drawing attention to stories that journalists avoided. Assessing the U. S. ambassadors Bunker and Martin and the role played by foreign aid, Nguyen paint an eye-opening picture of how American politics and elections had a profound effect upon U. S. allies.

War in the American Pacific and East Asia, 1941-1972 Hal M. Friedman,2019-02-22 Before 1940, the Japanese empire stood as the greatest single threat to the American presence in the Pacific and East Asia. To a lesser degree, the formerly hegemonic colonial powers of Britain, France, and the Netherlands still controlled portions of the region. At the same time, subjugated peoples in East Asia and Southeast Asia struggled to throw off colonialism. By the late 1930s, the competition exploded into armed conflict. Japan looked like the early victor, but the United States eventually established itself as the hegemonic power in the Pacific Basin by 1945. Yet when it comes to the American movement out into the Pacific, there is more to the story that has yet to be revealed. In War in the American Pacific and East Asia, 1941–1972, editor Hal Friedman brings together nine essays that explore lesser known aspects and consequences of America's military expansion into the Pacific during and after World War II. This study explores how the United

States won the Pacific War against Japan and how it sought to secure that victory in the decades that followed, ensure it never endured another Pearl Harbor-style defeat, and saw the Pacific fulfill a Manifest Destiny-like role as an American frontier projected toward East Asia. The collection explores the role of the US military in the Pacific Basin in different ways by presenting essays on interservice rivalry and military advising as well as unique topics that are new to military history, such as the investigations of strategic communications, military public relations, institutional cultures of elite forces, foodways, and the military's interaction with the press. Together, these essays provide a path for historians to pursue groundbreaking areas of research about the Pacific and establish the Pacific War as the pivotal point in the twentieth century in the Pacific Basin.

The Americanization of Europe Alexander Stephan,2005-12-30 Recent tensions between the U.S. and Europe seem to have opened up an insuperable rift, while Americanization, deplored by some, welcomed by others, seems to progress unabated. This volume explores, for the first time and in a comparative manner, the role American culture and anti-Americanism play in eleven representative European countries, including major powers like Great Britain, France, (West) Germany, Russia/Soviet Union, and Italy as well as smaller countries like Austria, Denmark, Greece, Spain, Sweden, and Poland. Each contributor to the volume, all of them highly respected experts in their field, was asked to address the following four topics: the role of American public diplomacy, the transfer of American high culture, the impact of popular culture ranging from Hollywood movies and TV to pop music and life-style issues, and the country specific features and history of anti-Americanism. The volume is enhanced by a substantial introduction by the editor, which looks both at the general culture clash between the United States and Europe and at adaptations and blending processes that seem to have occurred in individual countries.

Committed to Victory Richard Holl,2015-10-09 "Deeply researched and clearly written . . . a wide-ranging and detailed account of Kentucky's society, economy, and politics during World War II." —John W. Jeffries, author of *Wartime America* When World War II broke out in Europe in September 1939, Kentucky was still plagued by the Great Depression. Even though the inevitability of war had become increasingly apparent earlier that year, the citizens of the Commonwealth continued to view foreign affairs as a lesser concern compared to issues such as the lingering economic depression, the approaching planting season, and the upcoming gubernatorial race. It was only the Japanese attack on Pearl Harbor that destroyed any lingering illusions of peace. In *Committed to Victory: The Kentucky Home Front During World War II*, author Richard Holl offers the first comprehensive examination of the Commonwealth's civilian sector during this pivotal era in the state's history. National mobilization efforts rapidly created centers of war production and activity in Louisville, Paducah, and Richmond, producing new economic prosperity in the struggling region. The war effort also spurred significant societal changes, including the emergence of female and minority workforces in the state. In the Bluegrass, this trend found its face in Pulaski County native Rose Will Monroe, who was discovered as she assembled B-24 and B-29

bombers and was cast as Rosie the Riveter in films supporting the war effort. Revealing the struggles and triumphs of civilians during World War II, Holl illuminates the personal costs of the war, the black market for rationed foods and products, and even the inspiration that coach Adolph Rupp and the University of Kentucky basketball team offered to a struggling state.
