## **Managing Today's News Media Samir Husni,Debora Halpern**

Wenger,Hank Price,2015-07-29 The business of journalism is in the midst of massive change. Managing Today's News Media: Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debora Halpern Wenger, and Hank Price introduce a forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce The 4Cs Strategy to describe how customers, control, choice, and change are all part of a strategy for successful media organizations. Every chapter in the book relates to one or more of these four key principles: Customer – Each platform must offer a unique experience to the customer. Choice – The audience has more options than ever, and news organizations must work harder to be the preferred choice. Control – Sharing power and control with the audience is now a necessary part of running a successful news operation. Change – Companies can manage change through adaptation. Real-world case studies, important theoretical grounding, and a focus on understanding rather than resisting the

customer's desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this changed media business landscape.

Advancing the Story Debora Halpern Wenger, Deborah Potter, 2014-08-06 “An eminently useful text for television and Web journalism. No other text does such thorough job of integrating new media into traditional TV reporting. The authors' blog is a great way to keep updated and introduce current material into the class, and the online interactive workbook has some truly inventive exercises.” - Michael Cremedas, Syracuse University This fully updated Third Edition of *Advancing the Story*, by Debora Halpern Wenger and Deborah Potter, builds on the essential strengths of the original text by providing clear instruction on reporting and producing for multiple platforms, real-world examples, advice from professional journalists and exercises to stimulate additional

### **Saving Community Journalism Penelope Muse**

Abernathy, 2014-04-29 America's community newspapers have entered an age of disruption. Towns and cities continue to need the journalism and advertising so essential to nurturing local identity and connection among citizens. But as the business of newspaper publishing collides with the digital revolution, and as technology redefines consumer habits and the very notion of community, how can newspapers survive and thrive? In *Saving Community Journalism*, veteran media executive Penelope Muse Abernathy draws on cutting-edge research and analysis to reveal pathways to transformation and long-term profitability. Offering practical guidance for editors and publishers, Abernathy shows how

newspapers can build community online and identify new opportunities to generate revenue. Examining experiences at a wide variety of community papers--from a 7,000-circulation weekly in West Virginia to a 50,000-circulation daily in California and a 150,000-circulation Spanish-language weekly in the heart of Chicago--Saving Community Journalism is designed to help journalists and media-industry managers create and implement new strategies that will allow them to prosper in the twenty-first century. Abernathy's findings will interest everyone with a stake in the health and survival of local media.

*Deadly Dose* Amanda Lamb, 2008-06-03 The crime was unforgivable. The suspected murderer--unbelievable. One man's

pursuit of justice—unstoppable. The death of promising young pediatric AIDS researcher Eric Miller stunned the Raleigh, North Carolina, community, largely because of the horrific way he was killed. For months, Eric was slowly tortured as arsenic consumed his body. No one thought that Eric Miller's wife, Ann—an attractive, demure, educated scientist—could be capable of such a horrible crime. No one except for veteran homicide investigator Chris Morgan, a man in the twilight of his career. But from the moment Morgan saw the thirty-year-old widow in the interview room at the police department, he knew he was seeing pure evil. Now, journalist Amanda Lamb details Morgan's dogged investigation—a quest for the truth that would last four years and see another life taken before Ann Miller's tangled web of death and deceit finally came to light.

Evil Next Door Amanda Lamb, 2010-04-06 A brutal murder. An abundance of DNA evidence. A three-and-a-half year search for a killer who was always so close-yet untouchable. After the rape and murder of Raleigh, North Carolina, resident Stephanie Bennett, police had ample DNA evidence. They also had a suspect: the man next door. But for more than three years, he eluded them by refusing to hand over a DNA sample, wiping down anything he

touched and even planting decoy samples. This is the gripping story of how a team of detectives finally tripped him up-and brought closure to an innocent young woman's family.

**Love Lies** Amanda Lamb,2015-09-22 A suburban housewife's picture-perfect life is shattered in this riveting true crime book from the author of *Evil Next Door*. When Nancy Cooper moved from Canada to Cary, North Carolina, with her new husband Brad, their future was bright. Living in one of the most picturesque towns in the United States, the couple mingled with neighbors, attended parties, and raised two daughters. Then, on July 14, 2008, the façade came crashing down when Nancy's strangled body was found in a storm pond. Nancy's husband claimed she had gone for a jog and never came back. But as the police investigation deepened, a complex web of affairs and lies involving multiple residents of Cary's idyllic neighborhoods was uncovered, and Brad was brought to trial for the murder of his wife. At the heart of it stood the Coopers' soured marriage, Nancy's threat to leave with the children, and her own cold-blooded murder. It would take a mountain of damning evidence before justice was served.

When Caregivers Kill Betty L. Alt, Sandra K. Wells, 2010-04-16

Each year in the U.S. hundreds of children under the age of ten are killed by parents, relatives, or other caregivers. In recent years, families have become less dependent on kinship and neighborhood relationships, so they may become nearly invisible to those who might otherwise be involved in their activities. Because of this isolation, danger to children often does not become visible to the public until the child is injured or, worse, dead. This book offers an overview of the various caregivers involved in child homicide. It covers murders committed by mothers, fathers, babysitters, and others and examines the common circumstances that lead to such violence. Using cases throughout, the authors reveal the extent and nature of child homicide in chilling detail. Readers will come away from the book with a greater understanding of the problem—the triggers that lead to child homicide, the motives and means, what killers have in common, and how to prevent and address child homicide.

## The Expanding News Desert Penelope Muse

Abernathy,2018-11-15 This report delves into the implications for communities at risk of losing their primary source of credible news. By documenting the shifting news landscape and evaluating the threat of media deserts, this report seeks to raise awareness of the role interested parties can play in addressing the challenges confronting local news and democracy. The Expanding News Desert documents the continuing loss of papers and readers, the consolidation in the industry, and the social, political and economic consequences for thousands of communities throughout the country. It also provides an update on the strategies of the seven large investment firms--hedge and pension funds, as well as private and publicly traded equity groups--that swooped in to purchase hundreds of newspapers in recent years and explores the indelible mark they have left on the newspaper industry during a time of immense disruption.

*Down to Earth* Lisa Parks,James Schwoch,2012-06-13 *Down to Earth* presents the first comprehensive overview of the geopolitical maneuvers, financial investments, technological innovations, and ideological struggles that take place behind the scenes of the satellite industry. Satellite projects that have not

received extensive coverage—microsatellites in China, WorldSpace in South Africa, SiriusXM, the failures of USA 193 and Cosmos 954, and Iridium—are explored. This collection takes readers on a voyage through a truly global industry, from the sites where satellites are launched to the corporate clean rooms where they are designed, and along the orbits and paths that satellites traverse. Combining a practical introduction to the mechanics of the satellite industry, a history of how its practices and technologies have evolved, and a sophisticated theoretical analysis of satellite cultures, *Down to Earth* opens up a new space for global media studies.

**Invisibility** Andrea Cremer,David Levithan,2013-05-07 A magical romance between a boy cursed with invisibility and the one girl who can see him, by New York Times bestselling authors Andrea Cremer (*Nightshade*) and David Levithan (*Every Day*) Stephen is used to invisibility. He was born that way. Invisible. Cursed. Elizabeth sometimes wishes for invisibility. When you're invisible, no one can hurt you. So when her mother decides to move the family to New York City, Elizabeth is thrilled. It's easy to blend in there. Then Stephen and Elizabeth meet. To Stephen's

amazement, she can see him. And to Elizabeth's amazement, she wants him to be able to see her—all of her. But as the two become closer, an invisible world gets in their way—a world of grudges and misfortunes, spells and curses. And once they're thrust into this world, Elizabeth and Stephen must decide how deep they're going to go—because the answer could mean the difference between love and death. Praise for INVISIBILITY \* Levithan and Cremer again prove themselves masters of their craft. The inventive, enrapturing story that follows involves spellseekers and a curse-casting grandfather, but Stephen's and Elizabeth's journey is largely about redemption, self-acceptance, and love. Cremer and Levithan make Stephen's invisibility something every reader can relate to, and therein lies the magic. --Publishers Weekly, starred review A must-read for both the realist and the romantic! --Teen Vogue [An] enigmatic mash-up of fantasy and romance set in contemporary real-world Manhattan. The collaboration of Levithan and Cremer creates a seamless narrative. --Booklist "Once in a while, along comes a book like this one, written by two great authors, with a fun premise and nice execution, and I don't feel like I need to cover my enjoyment of it with a cough and a sheepish grin. So thanks for that, Andrea Cremer and David Levithan!" --ForeverYA Cremer

and Levithan craft a tale of love and magic in their first collaborative effort. --School Library Journal A fast-paced supernatural thriller that will surely leave readers wanting more.[A] love child of Buffy the Vampire Slayer and Levithan's Every Day. --Kirkus Reviews
