It's Great to Be a Fan in North Carolina Donna B. McKinney,2018-08-01 Explores the confluence between sports, history, economics, and geography in North Carolina. Informative text, athlete bios, vibrant pictures, and engaging infographics come together to provide a unique perspective of how sports and culture relate in this state.

Legal Aspects of Sports Miller,Kristi Schoepfer,2017-02-15 Written for courses within Sports Law, Legal Aspects of Sports, Second Edition provides a modern, case-based approach to this changing area of sports management and administration. The text provides a breadth of coverage that is specifically written for Sport Management majors who need to understand the relationship between sport administration and the law and as such provides an accessible level of detail. It urges students to think critically about course material and apply material to an in-depth study of legal aspects of sport through the use of cases to real-world scenarios and questions at the end of each chapter. The Second Edition has been reorganized to improve the flow of content and all case studies have been added to Navigate 2 to help students stay organized and prepare for class. The topic of discrimination in sports has been updated and expanded to include age, race, religion, and gender discrimination.

Rising Above the Madness Laura Amato,2019-03-19 THE MEN WHO MADE MARCH From its humble beginnings in 1895 to its modern-day dominance over American culture for the entire month of March, college basketball is often called madness and is well-deserving of the title. Most NCAA basketball coaches fail; however, the special few profiled in this book didn't just succeed where others failed, they influenced the game; changed it; and altered its very course. The ten men featured in this anthology went about coaching differently, each bringing their own approach and mindset to the hardwood, and their success is unprecedented: John Wooden (UCLA) Bobby Knight (Indiana University) Adolph Rupp (University of Kentucky) Dean Smith (University of North Carolina) Phog Allen (University of Kansas) Mike Krzyzewski (Duke University) Jerry Tarkanian (UNLV) Jim Boeheim (Syracuse University) Lou Carnesecca (St. John's University) Jim Calhoun (University of Connecticut)

TRIUMPH: Inspired by the true life story of legendary Coach Kay Yow MaryEllen Williams,2012-10-01 TRIUMPH is an inspiring true-life story of a girl from a small town who became a world renowned legend. It begins in a time and place where women had few options and sports were a man's world. As a child Kay loved playing basketball but like many young women of that time she anticipated life as a teacher. Through the encouragement of her parents and principal, she changed her expectations and raised the bar on what women could accomplish. Kay defied these limitations to become a successful Basketball coach, a hall of fame inductee, and an Olympic gold coach. With her many successes there would be even bigger challenges. Her fiercest opponent would become her ongoing battle with breast cancer. Coach Yow faced these trials head on with grace, dignity, and her deep faith. Kay's love of people, her sense of humor, and her undying hope were contagious. She believed When Life Kicks You, Let it Kick You Forward. This story will inspire you, give hope to you and let you find the hidden hero within yourself.

Sports Fans Who Made Headlines Rich Wolfe,Dale Ratermann,1997 From the fan with the multi-colored hair and John 3:16 signs to the fan who was arrested and lost his season tickets for throwing snowballs at an NFL game to one who circled the bases with Hank Aaron on his 715th home run, this book relives the moments when fans made the headlines. The Athletic Trap Howard L. Nixon II,2014-03-15 The commercial model of college sports entangles presidents, boards, and their institutions in a complex web of dysfunctional commitments. The unrivaled amount of cash poured into the college athletic system has made sports programs breeding grounds for corruption while diverting crucial resources from the academic mission of universities. Like money in Washington politics, the influence bought by a complex set of self-interested actors seriously undermines movement toward reform while trapping universities in a cycle of escalating competition. Longtime sport sociologist Howard L. Nixon II approaches the issue from the perspective of college presidents—how they are seduced by prestige or pressured by economics into building programs that move schools toward a commercial model of athletics. Nixon situates his analysis in the context of what he calls “the intercollegiate golden triangle,” a powerful social network of athletic, media, and private corporate commercial interests. This network lures presidents and other university leaders into an athletic arms race with promises of institutional enhancements, increased enrollments, better student morale, improved alumni loyalty, more financial contributions, and higher prestige. These promises can cloud the judgment of college presidents and governing boards, entangling them in an athletic trap that restricts their influence. Unable to control spending, inequalities, and deviance within commercialized athletic programs, universities are ensnared in financial, political, and social obligations that are difficult to sustain—or escape. Nixon clarifies the structure of this trap, describes how higher education institutions fall into it, and explores what it means for institutions and presidents caught in it. This timely analysis also has relevance to the debates about the role of the NCAA and ongoing reform efforts in college sports. The Athletic Trap will be of interest to university presidents, board members, and administrators, sport sociologists concerned with the balance of power between academics and athletics, and anyone else with a serious interest in college sports and its future.

Cracks in the Outfield Wall Chris Holaday,2024-04-05 The best-known story of integration in baseball is Jackie Robinson, who broke the major league color line in 1947 after coming up through the minor leagues the previous year. His story, however, differs from those of the many players who integrated the game in the Jim Crow

South at all professional levels. Chris Holaday offers readers the first book-length history of baseball's integration in the Carolinas, showing its slow and unsteady progress, narrating the experience of players in a range of distinct communities, detailing the influence of baseball executives at the local and major league levels, and revealing that the changing structure of the professional baseball system allowed the major leagues to control integration at the state level. Holaday illuminates many smaller stories along the way, including desegregation in Little League and American Legion baseball, the first Black players to play in the tiny foothills town of Granite Falls, North Carolina, and the pipeline of Afro-Cuban players from Havana to the Carolina leagues. By showing how race and the national pastime intersected at the local level, Holaday offers readers new context to understand the long struggle of equality in the game.

Why the U.S. Men Will Never Win the World Cup Beau Dure,2019-11-15 October 10, 2017. The U.S. men's soccer team loses in Trinidad and Tobago, and fails to qualify for the 2018 World Cup. Winning soccer's greatest prize never seemed more distant. Immediate fixes—a new coach, a revamped professional league, a commitment to coaching education—won't put the USA in the global elite. The nation is too fractious, too litigious, too wrapped up in other sports, and too late to the game. In *Why the U.S. Men Will Never Win the World Cup: A Historical and Cultural Reality Check*, Beau Dure shows what American soccer is really up against. Using hundreds of sources to trace more than 100 years of history, Dure delves into the culture that only recently lost its disdain for the global game and still doesn't have the depth of soccer insight and passion that much of the world has had for generations. The difficulty isn't any single thing—the mismanagement of failed leagues, the inability to agree on a path forward, the lawsuits that stem from an inability to agree, or the unique American culture that treasures its homegrown sports. It's everything. And yet, *Why the U.S. Men Will Never Win the World Cup* is ultimately optimistic. Dure argues that with the right long-term changes, the U.S. can build a soccer environment that consistently produces quality players, strong results, and a lot more fun on the international stage. Soccer fans and skeptics alike will find this a fascinating examination of America's past, present, and future in the beautiful game.

The Athletic Experience at Historically Black Colleges and Universities Billy Hawkins,Joseph Cooper,Akilah Carter-Francique,J. Kenyatta Cavil,2015-08-01

Historically Black Colleges and Universities (HBCUs) are valuable institutions that provide intellectual domains for racial uplift, racial refuge, and cultural empowerment within a continually polarized nation. Today's current racial climate reminds us of the historical context that gave birth to HBCUs and segregated athletic experiences. While the sporting life at HBCUs is an integral part of these institutions' mission, there is a dearth of research about HBCU athletics. In *The Athletic Experience at Historically Black Colleges and Universities: Past, Present, and Persistence*, leading scholars from across the nation present a holistic examination of the integral role sports have played at HBCUs. Chapters in this volume cover a range of topics, from HBCU Football Classics to economics. It begins with a historical overview of HBCUs and the early sporting life before delving into the experiences of today's male and female student-athletes—including the unique perspectives of athletes who transferred from historically White colleges and universities to HBCUs. Other chapters examine economic issues at HBCUs, such as the financial viability of their athletic departments in the context of the larger NCAA economic framework, and recommendations for the future of HBCU athletics to restore both academic and athletic excellence at these institutions. An important addition to the existing literature on race in contemporary society, this volume provides a narrative of the Black experience from the historical origins of educating Blacks, their early athletic experiences, and the current state of athletics at HBCUs. *The Athletic Experience at Historically Black Colleges and Universities* is a significant contribution to the debate on college athletics and higher education, in general, and athletics at HBCUs, specifically. It is a must-read for sport studies scholars and students, sport management practitioners, and sport enthusiasts of the inter-workings of athletics and the HBCU experience.

Discredited Andy Thomason,2021-08-20 In 2009, the University of North Carolina at Chapel Hill was on top of the world. Consistently named one of the top universities in the country, it had welcomed a new phenom of a chancellor who promised to lead the public Ivy into the future. In the all-important athletic realm, the Tar Heels were the Coca-Cola of athletic brands. Resting upon the legacy of legendary basketball coach Dean Smith, UNC had carved out a reputation of excellence paired with squeaky-clean adherence to the rules. Supporters had a name for that irresistible ethos: the Carolina Way. The Tar Heels were climbing even higher. That year, they won their fifth national championship in men's basketball and looked poised to climb the ranks in football under a new, high-powered coach. But within just a few years, it all came crashing down. The Tar Heels' success, it turned out, was based on a foundation of deceit. Athletes were flocking to a slate of fake classes that advisers deftly used to keep them eligible to play. That revelation and others metastasized into one of the most damaging scandals ever to visit an American college. In *Discredited*, journalist Andy Thomason provides a gripping and authoritative retelling of the scandal through the eyes of four of its key participants: the secretary who presided over the fake classes, the professor who directed players toward them, the literacy specialist turned whistleblower who sought to expose the system, and the chancellor who found his career suddenly on the line. The heart-stopping narrative reveals the toll of a college's investment in major sports, and the amateurism myth upon which it is based. Based on dozens of original interviews and thousands of pages of documents, *Discredited* demonstrates just how far a university will go to preserve the athletic status quo: tolerating tarnished careers, ruined reputations, and years of scathing media criticism—all for a shot at competitive glory.

Encyclopedia of Sports Management and Marketing Linda E. Swayne,Mark Dodds,2011-08-08 This four-volume set introduces, on the management side, principles and procedures of economics, budgeting and finance; leadership; governance; communication; business law and ethics; and human resources practices; all in the sports

context. On the marketing side this reference resource explores two broad streams: marketing of sport and of sport-related products (promoting a particular team or selling team- and sport-related merchandise, for example), and using sports as a platform for marketing non-sports products, such as celebrity endorsements of a particular brand of watch or the corporate sponsorship of a tennis tournament. Together, these four volumes offer a comprehensive and authoritative overview of the state of sports management and marketing today, providing an invaluable print or online resource for student researchers.

The Loudest Voice in the Room Gabriel Sherman,2017-02-14 A revelatory journey inside the world of Fox News and Roger Ailes—the brash, sometimes combative network head who helped fuel the rise of Donald Trump NEW YORK TIMES BESTSELLER • NOW A SHOWTIME LIMITED SERIES • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR When Rupert Murdoch enlisted Roger Ailes to launch a cable news network in 1996, American politics and media changed forever. With a remarkable level of detail and insight, Vanity Fair magazine reporter Gabriel Sherman puts Ailes’s unique genius on display, along with the outsize personalities—Bill O’Reilly, Sean Hannity, Megyn Kelly, Sarah Palin, Karl Rove, Glenn Beck, Mike Huckabee, Gretchen Carlson, Bill Shine, and others—who have helped Fox News play a defining role in the great social and political controversies of the past two decades. From the Clinton-Lewinsky scandal to the Bush-Gore recount, from the war in Iraq to the Tea Party attack on the Obama presidency, Roger Ailes developed an unrivaled power to sway the national agenda. Even more, he became the indispensable figure in conservative America and the man any Republican politician with presidential aspirations had to court. How did this man become the master strategist of our political landscape? In revelatory detail, Sherman chronicles the rise of Ailes, a frail kid from an Ohio factory town who, through sheer willpower, the flair of a showman, fierce corporate politicking, and a profound understanding of the priorities of middle America, built the most influential television news empire of our time. Drawing on hundreds of interviews with Fox News insiders past and present, Sherman documents Ailes’s tactical acuity as he battled the press, business rivals, and countless real and perceived enemies inside and outside Fox. Sherman takes us inside the morning meetings in which Ailes and other high-level executives strategized Fox’s presentation of the news to advance Ailes’s political agenda; provides behind-the-scenes details of Ailes’s crucial role as finder and shaper of talent, including his sometimes rocky relationships with Fox News stars such as O’Reilly, Hannity, and Carlson; and probes Ailes’s fraught partnership with his equally brash and mercurial boss, Rupert Murdoch. Roger Ailes’s life is a story worthy of Citizen Kane. Featuring an afterword about Ailes’s epic downfall during the extraordinary 2016 election, *The Loudest Voice in the Room* is an extraordinary feat of reportage with a compelling human drama at its heart.
