The Road from Gap Creek Robert Morgan,2014-03-25 One of America’s most acclaimed writers returns to the land on which he has staked a literary claim to paint an indelible portrait of a family in a time of unprecedented change. In a compelling weaving of fact and fiction, Robert Morgan introduces a family’s captivating story, set during World War II and the Great Depression. Driven by the uncertainties of the future, the family struggles to define itself against the vivid Appalachian landscape. The Road from Gap Creek explores modern American history through the lives of an ordinary family persevering through extraordinary times.

The Natures of Maps Denis Wood,John Fels,2008 The authors demonstrate that maps of the natural, physical world are just as culturally and socially constructed as any map of property or territory.

But did you know they are also so cool! One little boy sure does. His mommy drives a big, red monster truck, and it's awesome! Carolina Built Kianna Alexander,2022-02-22 This “exuberant celebration of Black women’s joy as well as their achievements” (Kate Quinn, New York Times bestselling author) novelizes the life of real estate magnate Josephine N. Leary in a previously untold story of passion, perseverance, and building a legacy after emancipation in North Carolina. Josephine N. Leary is determined to build a life of her own and a future for her family. When she moves to Edenton, North Carolina, from the plantation where she was born, she is free, newly married, and ready to follow her dreams. As the demands of life pull Josephine’s attention away, it becomes increasingly difficult for her to pursue her real estate aspirations. She finds herself immersed in deepening her marriage, mothering her daughters, and being a dutiful daughter and granddaughter. Still, she manages to teach herself to be a businesswoman, to manage her finances, and to make smart investments in the local real estate market. But with each passing year, it grows more and more difficult to focus on building her legacy from the ground up. “Filled with passion and perseverance, Josephine Leary is frankly a woman that everyone should know” (Sadeqa Johnson, author of Yellow Wife) and her story speaks to the part of us that dares to dream bigger, tear down whatever stands in our way, and build something better for the loved ones we leave behind.

That's Rufus Rufus L. Edmisten,2019-05-10 A farm boy from the mountains of North Carolina, Rufus Edmisten could not have been prepared for the halls of power in Washington, D.C., during the Vietnam War era, as young men burned their draft cards and pro-cannabis factions held smoke-ins in the capital. A University of North Carolina Chapel Hill graduate, he earned a law degree at George Washington University and landed a job as counsel to U.S. senator Samuel J. Ervin, Jr. This led to Edmisten's appointment as Deputy Chief Counsel for the Senate Watergate Committee--he personally served Richard Nixon the first ever subpoena of a sitting president by Congress. Returning to North Carolina, he served as Attorney General and Secretary of State before retiring from public life to practice law and participate in charitable activities. Written with humor and candor, his memoir recalls the cultural contrasts of American life in the 1970s and 1980s, and affirms that the business of government is to enable us to live together peacefully.

News for the Rich, White, and Blue Nikki Usher, 2021-07-06 As cash-strapped metropolitan newspapers struggle to maintain their traditional influence and quality reporting, large national and international outlets have pivoted to serving readers who can and will choose to pay for news, skewing coverage toward a wealthy, white, and liberal audience. Amid rampant inequality and distrust, media outlets have become more out of touch with the democracy they purport to serve. How did journalism end up in such a predicament, and what are the prospects for achieving a more equitable future? In *News for the Rich, White, and Blue*, Nikki Usher recasts the challenges facing journalism in terms of place, power, and inequality. Drawing on more than a decade of field research, she illuminates how journalists decide what becomes news and how news organizations strategize about the future. Usher shows how newsrooms remain places of power, largely white institutions growing more elite as journalists confront a shrinking job market. She details how Google, Facebook, and the digital-advertising ecosystem have wreaked havoc on the economic model for quality journalism, leaving local news to suffer. Usher also highlights how the handful of likely survivors—well-funded media outlets such as the New York Times—increasingly appeal to a global, “placeless” reader. *News for the Rich, White, and Blue* concludes with a series of provocative recommendations to reimagine journalism to ensure its resiliency and its ability to speak to a diverse set of issues and readers.

Ric Flair: To Be the Man Ric Flair, 2010-05-11 Throughout the years, there may have been equally charismatic performers, comparable athletes, and even better interviews, but none were blessed with the same combination of talents to manage to stay on top for over three decades. To wrestling fans, the Nature Boy is a platinum-blond deity, a sixteen-time world champion who accurately boasted that he could have a five-star match with a broom. No matter how limited the opponent, Flair had the skill and determination to bounce all over the mat, transforming his rival into a star. When the camera light went on, Slick Ric could convince viewers that, if they missed an upcoming match, a momentous life experience would pass them by. Flair's opponents were challenged with this simple taunt: To be the man, you have to beat the man. Away from the arena, Richard Morgan Fliehr spent years struggling with his own concept of what it meant to be a man. He suffered periods of crushing self-doubt, marital strife and—in a profession where there was room for only one Ric Flair—broken friendships. *Ric Flair: To Be the Man*, cowritten with Keith Elliot Greenberg, chronicles the anguish and exhilaration of Flair's life and career—in painfully honest detail. In addition to his own words, Flair's story is enriched by anecdotes from ring greats like Superstar Billy Graham, Ricky The Dragon Steamboat, Harley Race, Sgt. Slaughter, David Crockett, Arn Anderson, Bobby The Brain Heenan, Mean Gene Okerlund, Shawn Michaels, Triple H, Undertaker and Brock Lesnar. *To Be the Man* traces the rise of one of wrestling's most enduring superstars to the pinnacle of the sports entertainment universe, and is a must-read for every wrestling fan.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith, 2011 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
