**The Oxford Handbook of Languages of the Caucasus** Maria Polinsky,2020-11-21

The Oxford Handbook of Languages of the Caucasus is an introduction to and overview of the linguistically diverse languages of southern Russia, Georgia, Azerbaijan, and Armenia. Though the languages of the Caucasus have often been mischaracterized or exoticized, many of them have cross-linguistically rare features found in few or no other languages. This handbook presents facts and descriptions of the languages written by experts. The first half of the book is an introduction to the languages, with the linguistic profiles enriched by demographic research about their speakers. It features overviews of the main language families as well as detailed grammatical descriptions of several individual languages. The second half of the book delves more deeply into theoretical analyses of features, such as agreement, ellipsis, and discourse properties, which are found in some languages of the Caucasus. Promising areas for future research are highlighted throughout the handbook, which will be of interest to linguists of all subfields.

The Sacred Tyrak Aklin Reed,2023-11-10 Beyond the vast expanse of the cosmos lies Hazar, a realm of monumental valleys and towering peaks, where oceans cascade from the heavens, creating lakes of unmatched splendor. In this nascent world, mighty heroes rise to etch their legends, and powerful monarchs marshal vast armies, asserting their dominion. As four distinct races grapple for prominence and legacy, they live under the watchful gaze of The Hand – a pantheon of five deities who shape and govern Hazar with unparalleled authority. Delve into this chronicle to discover the myths and majesties of Hazar. Be it tales of valor or poignant sagas of sacrifice, every page recounts the foundational era of this grand realm. To those who embark on this journey: remember Hazar's golden age, a time of abundance juxtaposed with periods of profound conflict and sacrifice.

**Colonial Ch'olti'** Robbie A. Haertel,John S. Robertson,Danny Law,2012-10-09

At the time of the Spanish conquest, Ch'olti' was spoken throughout much of the southern Maya lowlands in what is present-day Petén and Chiquimula, and is closely related to that spoken by the authors of the Classic Maya inscriptions. This book presents for the first time a facsimile, transcription, English and Spanish translation, and grammatical analysis of the Morán Manuscript, a Colonial-era document that provides the sole attestation of Ch'olti'. In addition to its value as a chronicle of the Colonial period, the Morán Manuscript is crucial to our understanding of the Classic Maya, particularly their language, captured in thousands of intricately carved and painted hieroglyphic inscriptions. Robertson, Law, and Haertel, regarded as the ablest interpreters of Ch'olti' now working in Mayan linguistics, provide not only a painstaking presentation of language data but

also a detailed history of the manuscript itself. They discuss the document's probable authorship, investigate where and by whom Ch'olti' was spoken at contact, and infer how speakers maintained their expressive capabilities in the face of colonial oppression. The transcribed Ch'olti' texts feature an orthographically standardized version with a morpheme-by-morpheme gloss, a literal English translation that preserves many of the poetic structures and metaphors, and a flowing translation in both English and Spanish. The publication of this document marks a major contribution to the fields of Maya epigraphy, Mayan linguistics, ethnohistory, and Mesoamerican languages. It will serve as the definitive presentation of the Morán Manuscript and stand as a major contribution to further understanding the language of the Maya inscriptions in Mexico and Guatemala.

**Accountant to Academic - An Unmapped Journey** A. V. Raman, 2021-09-24 Raman's memoir chronicles the dramatic change in his profession as an accountant to launching him on the uncharted waters of management of research and development projects in Council of Scientific and Industrial Research and suggesting a fair and just appreciation of public passenger road transport system operated by State Road Transport Undertakings. His role as a trainer in these two diverse fields – scientific research, employing knowledge workers, and passenger road transport, employing blue-collar workers and a few managers – was daunting, which he meets with a suitably tailored approach in the design and delivery of training programmes. His research studies on Indian road transport operating under administrated fares and social costs and his seminal study of the US highways financing system should interest readers in the area of public policy reforms. His academic career spread over the whole gamut of teaching, research, consulting, guiding research students, administration of business schools and experience earlier in government and the public sector and brief but educative exposure to the Indian Parliamentary System vouch for his versatility. Raman's memoir should excite peers and students alike and serve as a model for future writers. Narrated with candour and humour, Raman's description of his early life in Delhi amidst government servants and his own failed attempt to become a bureaucrat, his pen picture of the Delhi's Madrasas, his family's musical legacy and religiosity and his values of accountability and integrity, ungrudgingly shared in this memoir, reveal his credentials as an engaging writer.
