Why the Pain, What's the Gain? Daniel Kunitz, 2016-03-24 Running, jumping, lifting, pushing, stretching — our bodies are naturally built to move and work, strengthen and adapt. Yet the gym is a 20th century phenomenon and 'working out' a concept that has produced one of the world's biggest industries: fitness. An industry whose changing ideals reflect society's cultural shifts on what it means to be fit, and how to have the perfect physique. *Why the Pain? What's the Gain?* takes you on a guided tour of humankind's 3000-year wayward search for the perfect workout; from the dirt courtyards of the ancient Greek gymnasium to the birth of the modern gym in 19th-century Paris; to the weekend, beachside Olympic-caliber gymnasts of Santa Monica and Sydney. Daniel Kunitz seeks the answer to a simple yet profound question: Why do we work out? We will listen in on the innovators and charlatans who lifted the multibillion-dollar business of gym-fitness into being. We will learn how the women's movement sparked an enormous exercise boom and tell the story not only of how we arrived at the big-box gym era but also of the last decade's acceleration into a new fitness frontier. Daniel Kunitz puts himself through the grit and pain of the cross fit, parkour and tough mudder regimes, searching not just for new-found physique, but on a quest to understand the pain and more precisely the gain of working out.

Extreme Ownership Jocko Willink, Leif Babin, 2017-11-21 An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, *Extreme Ownership* shows how to apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, *Extreme Ownership* revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.

15 Minutes to Fitness Vincent Ben Bocchicchio, 2017-01-17 Do you ever feel like a hamster, spinning on a wheel in an endless loop and getting nowhere when it comes to your health and fitness? Are you working out regularly and cutting calories but seeing no real improvements? Does it feel like you will never lose those last 10 or 20 pounds? Or do you feel as if you simply don't have the time required to lose the fat and get into shape? Imagine if you could have the blueprint for the most efficient form of exercise to keep your body healthy and fit and an eating plan to satisfy hunger, taste, and health. Well, now you can. The best part? It will only require 15 minutes of exercise, twice a week, paired with a controlled-carb diet, and on the average, you will lose 10 pounds of fat within five weeks. It's hard to believe, but it works—and 15 Minutes to Fitness: Dr. Ben's SMART plan for total Fitness will not only show you how to do it but also explain why it works. If this sounds like just another “new exercise secret,” please be assured that it is most certainly not. The foundation of this program is based on years of study, observation, and practice, and it has delivered real, measurable results in the overwhelming majority of those who have tried it. Dr. Vincent “Ben” Bocchicchio has spent the last 40 years in the fitness and health field, and as he approaches 70, people are still shocked to hear that he only spends 14 minutes twice a week on working out. But it's true. With only 7 percent body fat, he is often asked what the secret is and if there's a “magic bullet.” The answer would be that the magic bullet is knowledge. And now with this book you will understand why genetically our bodies require simple and limited exercise exposure and how you can follow this optimal pattern yourself. The fact is that as humans we are hard-wired to exercise our bodies in very specific ways to reap the highest level of health benefits. I will provide the simple scientific argument for why my combination of high intensity exercise and controlled carbohydrate eating is the most effective means for burning fat, so that you can better understand exactly why this works. Exercise and diet are the two most powerful tools available for attaining high levels of health and function, and 15 Minutes to Fitness will show you just how little it actually takes to achieve a maximum response.

Power of 10 Adam Zickerman, 2003-12-23 Fitness expert Adam Zickerman presents a

revolutionary exercise program – slow strength training – that will forever change the way people work out. The Power of 10 seems to contradict nearly everything we're accustomed to hearing about exercise. Forget hours on the treadmill, and forget daily visits to the gym. This new program offers 20 minute workout sessions, once or twice per week, with an alluring emphasis on rest and recovery on your days off. The principle behind The Power of 10 is simple: by lifting weights in slow motion, making each rep last 20 seconds (10 seconds lifting and 10 seconds lowering) instead of the typical 7 seconds, you can maximize muscle transformation. The short workouts are so effective that your body will need days to recover and repair properly. Studies have shown that such routines can increase lean body mass, help burn calories more efficiently, and prevent cardio-vascular disease more effectively than aerobic exercise alone.

What If This Were Enough? Heather Havrilesky, 2019-10-08 *A Publishers Weekly Best Book of 2018* *A Bustle Best Nonfiction Book of 2018* *One of Chicago Tribune's Favorite Books by Women in 2018* *A Self Best Book of 2018 to Buy for the Bookworm in Your Life* By the acclaimed critic, memoirist, and advice columnist behind the popular Ask Polly, an impassioned collection tackling our obsession with self-improvement and urging readers to embrace the imperfections of the everyday Heather Havrilesky's writing has been called whip-smart and profanely funny (Entertainment Weekly) and required reading for all humans (Celeste Ng). In her work for New York, The Baffler, The New York Times Magazine, and The Atlantic, as well as in Ask Polly, her advice column for The Cut, she dispenses a singular, cutting wisdom--an ability to inspire, provoke, and put a name to our most insidious cultural delusions. What If This Were Enough? is a mantra and a clarion call. In its chapters--many of them original to the book, others expanded from their initial publication--Havrilesky takes on those cultural forces that shape us. We've convinced ourselves, she says, that salvation can be delivered only in the form of new products, new technologies, new lifestyles. From the allure of materialism to our misunderstandings of romance and success, Havrilesky deconstructs some of the most poisonous and misleading messages we ingest today, all the while suggesting new ways to navigate our increasingly bewildering world. Through her incisive and witty inquiries, Havrilesky urges us to reject the pursuit of a shiny, shallow future that will never come. These timely, provocative, and often hilarious essays suggest an embrace of the flawed, a connection with what already is, who we already are, what we already have. She asks us to consider: What if this were enough? Our salvation, Havrilesky says, can be found right here, right now, in this imperfect moment.
