Neon Words Marge Pellegrino, Kay Sather, 2019 *Neon Words* is more than a writing workbook; it's an introspective writing experience. With sections dedicated to honoring, strengthening, and playing with your words, you'll learn to view your writing and yourself in a new light.

How Children Learn to Write Words Rebecca Treiman, Brett Kessler, 2014 Mastering the writing system of one's language is crucial for success in a modern society. This book examines how children learn to produce writing. It provides a novel theoretical framework that integrates findings from a wide range of age groups - from children who are producing their first scribbles to experienced spellers who are writing complex words. The book is unique in the range of topics and languages that it covers. Also unique is the way in which it integrates linguistic insights about the nature of writing systems with discussions of literacy development in children.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Writer Identity and the Teaching and Learning of Writing Teresa Cremin, Terry Locke, 2016-12-01 *Writer Identity and the Teaching and Learning of Writing* is a groundbreaking book which addresses what it really means to identify as a writer in educational contexts and the implications for writing pedagogy. It conceptualises writers' identities, and draws upon empirical studies to explore their construction, enactment and performance. Focusing largely on teachers' identities and practices as writers and the writer identities of primary and secondary students, it also encompasses the perspectives of professional writers and highlights promising new directions for research. With four interlinked sections, this book offers: Nuanced understandings of how writer identities are shaped and formed; Insights into how classroom practice changes when teachers position themselves as writers alongside their students; New understandings of what this positioning means for students' identities as writers and writing pedagogy; and Illuminating case studies mapping young people's writing trajectories. With an international team of contributors, the book offers a global perspective on this vital topic, and makes a new and strongly theorised contribution to the field. Viewing writer identity as fluid and multifaceted, this book is important reading for practising teachers, student teachers, educational researchers and practitioners currently undertaking postgraduate studies. Contributors include: Teresa Cremin, Terry Locke, Sally Baker, Josephine Brady, Diane Collier, Nikolaj Elf, Ian Eyres, Theresa Lillis, Marilyn McKinney, Denise Morgan, Debra Myhill, Mary Ryan, Kristin Stang, Chris Street, Anne Whitney and Rebecca Woodard.

EBOOK: Developing Interactive Teaching and Learning using the IWB Sara Hennessy, Paul Warwick, 2013-10-16 Do your students tune out from the IWB? No matter how 'whizzy' you make the technology, do you have trouble engaging them? Would you like some ideas to support a more interactive approach to using the IWB, so that your students are more motivated and involved in your lessons? Interactive Whiteboards (IWBs) are now found in the majority of UK

classrooms and many teachers are highly technically competent with this technology. Yet there is a need to develop expertise that capitalizes on such advanced technological equipment as an effective teaching and learning tool. The aim of this resource is to support a more interactive approach to using the IWB, especially in whole-class teaching. Research into classroom practices shows that more interactive approaches - in particular engaging pupils in dialogue and discussion - promote better learning. This resource offers practical support and examples that help develop teaching practices that are more productive for learning, focused around the use of the IWB. This teacher resource has three key elements: The Professional Development Resource takes you through discussion, reflection and practical activities that focus on dialogue and the use of the IWB. The Reader explores key issues related to use of the IWB in primary and secondary classrooms, and directly supports the Professional Development Resource. The Resource Bank offers video examples, sample classroom activities, explanatory screenshots, and IWB lesson templates, all available online. Together with its website containing the resource bank, this text is an essential toolkit for trainee and qualified teachers, as well as senior leadership teams. I fully recommend this set of extremely useful material containing a strong classroom voice endorsed by authoritative academic researchers. Teachers will be drawn to this material, and will be able to review their own practice, reflect on the centrality of classroom spoken interactions, and investigate how best to use the expensive item of technology on the wall to get the very best from their investment. The blend of resources, ideas and readings coupled with the video clips will provide a wealth of material to do just that. It will prove very useful for teachers with any length of experience, from those who might want to take a fresh look at their classroom practice to those new to the profession. I will certainly draw from this in my CPD training with school staff. Sally Elding, Senior Adviser, Primary Elearning Team, The ICT Service, Cambridgeshire

This book ensures that 'interactivity' in the classroom does not just mean the casual interaction of students with software. Instead, the authors show how to combine two very powerful tools - the IWB and talk - to create an effective and inclusive learning environment. Chapters draw on classroom settings to show how use of the IWB can be enhanced by a focus on the quality of the talk that goes on between students, and between teacher and learners. Authors use practical experience to highlight the things that make the difference to the use of the IWB - for example the establishment of exploratory dialogue, the thoughtful organisation of group work and the creation of straightforward but stimulating IWB resources. In addition the text provides clear guidance for teachers on how and why to raise student awareness of the importance of their discussion when making or considering digital artefacts. There is a strong focus on ensuring that both students and teachers understand best use of the IWB; and that contexts for learning are provided which really merit discussion. The Teacher Development section considers use of the IWB in a dialogic classroom - and shows how best practice can be achieved, with useful resources, and a format for reviewing own learning. The Reader section provides insight into the aspects of talk that fit together to generate a dialogic classroom context, and crucially shows how use of the IWB is both enhanced by dialogue and contributes to students' capacity to take part in learning dialogues with one another. The Resource Bank draws on a range of classroom contexts, providing examples to support teachers as they create their own lesson plans and ideas. The text is accessible and interesting, with complex ideas clearly explained, and the book is readily navigated. This book will enable teachers to plan for dialogue based on the motivating and interesting features of the IWB. In particular it provides guidance for student use of the IWB, and creation of own resources tailored to learning needs. Teachers who wish to have a focus on dialogue will find here a theoretically based, practical approach to ensuring that their students really benefit from interactivity, with the IWB and with each other. Dr Lyn Dawes, Educational Consultant

This valuable resource provides both a theoretical framework and pedagogic guidance to use the interactive whiteboard to its full potential with learners of all ages. Written by established classroom practitioners and academic researchers, it provides a set of resources which are grounded in the reality of classroom life, but underpinned by academic rigour which make it useful to both student and experienced teachers alike. Four Square: The Personal Writing Coach for Grades 1-3 Mary F. Burke, Judy Gould, 2005-03-01 This book in the popular Four Square series provides a personal coach for students to help them write. Included are 13 themed units designed to meet the interests and abilities of writers in grades 1-3. Each unit brings the prewriting through art, word association, questions, poetry, planning and composition of prose. The exercises will help students learn to be less fearful of writing assignments and actually make them fun! The topics are personal ones young writers will enjoy: themselves, their families and friends, their favorite places to go and things to do, etc.

The Write Start Jennifer Hallissy, 2010-12-28 How do you raise children who love to write? Jennifer Hallissy believes that if you give children a solid foundation of writing basics, they will develop a love of writing that lasts a lifetime. In this book, she shares the secrets for supporting young writers, from the smallest of scribblers to middle-schoolers mastering script. You play an important role in nurturing your child's writing development. You are your child's first writing teacher, and their most important writing role model. From teaching your child how to hold a pencil and form the letters of the alphabet, to creating writing spaces and meaningful writing rituals at home, this book gives you all of the information and inspiration you need to raise a confident writer. Fifty-two playful activities are presented as ways to invite your child to write. Each activity offers specific suggestions to meet the needs of Scribblers (pre-writers), Spellers (emerging writers), Storytellers (beginner writers), and Scholars (more experienced young writers)—providing the just-right combination of fun and functional skill development. *The Write Start* is a treasure trove of irresistible ideas that will help you introduce your child to the wonderful world of writing, now, and for years to come.
