Rogue Shot (A Troy Stark Thriller—Book #5) Jack Mars,2024-02-20 “Thriller writing at its best. Thriller enthusiasts who relish the precise execution of an international thriller, but who seek the psychological depth and believability of a protagonist who simultaneously fields professional and personal life challenges, will find this a gripping story that's hard to put down.” --Midwest Book Review, Diane Donovan (regarding Any Means Necessary) “One of the best thrillers I have read this year. The plot is intelligent and will keep you hooked from the beginning. The author did a superb job creating a set of characters who are fully developed and very much enjoyable. I can hardly wait for the sequel.” --Books and Movie Reviews, Roberto Mattos (re Any Means Necessary) From #1 bestselling and USA Today bestselling author Jack Mars, author of the critically-acclaimed Luke Stone and Agent Zero series (with over 5,000 five-star reviews), comes an explosive new, action-packed thriller series that takes readers on a wild-ride across Europe, America, and the world. After elite Navy Seal Troy Stark is forced into retirement for his dubious respect for authority, his work in stopping a major terrorist threat to New York is noticed. Invited to join a secretive new international terrorist-fighting organization, Troy must hunt down all threats to the U.S. that originate from overseas—and pre-empt them by any means possible. In ROGUE SHOT (Book #5), when the world's tallest tower in China hosts their grand opening, disaster—in the form of a terrorist attack—changes everything. The terrorists, Troy knows, have Americans—and world leaders—in their sight next, and Troy will have to team up with his Chinese counterpart—an equally rebellious operative—to stop them. Can America and China trust each other long enough to work together to stop the next attack in time? Or will both Troy and his new partner find themselves outfoxed by a shifting list of revolving targets? An unputdownable action thriller with heart-pounding suspense and unforeseen twists, ROGUE SHOT is the fifth novel in an exhilarating new series by a #1 bestselling author that will have you fall in love with a brand new action hero—and turn pages late into the night. Future books in the series will soon be available.

B-29 Superfortress Units of the Korean War Robert F Dorr,2012-12-20 This book is the story of a majestic bomber of the propeller era flying perilous combat missions against a sleek, nimble warplane of the jet age, the Soviet MiG-15. A very heavy bomber and a sky giant during World War 2, at that time the B-29 was the most advanced combat aircraft in the world. By the time North Korea attacked its southern neighbour in 1950, the B-29 had been reclassified a medium bomber. Many of its crew members had fought their war and settled down to raise families and begin careers only to be recalled to fight another war on a distant Asian peninsula.

Sherpas James F. Fisher,1990-05-01 James Fisher combines the strengths of technical anthropology, literary memoir, and striking photography in this telling study of rapid social change in Himalayan Nepal. The author first visited the Sherpas of Nepal when he accompanied Sir Edmund Hillary on the Himalayan Schoolhouse Expedition of 1964. Returning to the Everest region several times during the 1970s and 1980s, he discovered that the construction of the schools had far less impact than one of the by-products of their building: a short-take-off-and-landing airstrip. By reducing the time it took to travel between Kathmandu and the Everest region from a hike of several days to a 45-minute flight, the airstrip made a rapid increase in tourism possible. Beginning with his impressions of Sherpa society in pre-tourist days, Fisher traces the trajectory of contemporary Sherpa society reeling under the impact of modern education and mass tourism, and assesses the Sherpa's concerns for their future and how they believe these problems should be and eventually will be resolved.

Late Quaternary Climate Change and Human Adaptation in Arid China D.B. Madsen,F. Chen,X. Gao,2011-09-22 Due to political pressures, prior to the 1990s little was known about the nature of human foraging adaptations in the deserts, grasslands, and mountains of north western China during the last glacial period. Even less was known about the transition to agriculture that followed. Now open to foreign visitation, there is now an increasing understanding of the foraging strategies which led both to the development of millet agriculture and to the utilization of the extreme environments of the Tibetan Plateau. This text explores the transition from the foraging societies of the Late Paleolithic to the emergence of settled farming societies and the emergent pastoralism of the middle Neolithic striving to help answer the diverse and numerous questions of this critical transitional period. * Examines the transition from foraging societies of the Late Paleolithic to the emergence of settled farming societies and the emergent pastoralism of the middle Neolithic * Explores explanatory models for the links between climate change and cultural change that may have influenced the development of millet agriculture * Reviews the relationship between climate change and population expansions and contradictions during the late Quaternary
