The Shadow World Andrew Feinstein,2011-11-08 Soon to be a Major PBS Documentary Event The Shadow World is the harrowing behind-the-scenes tale of the global arms trade, revealing the deadly collusion that all too often exists among senior politicians, weapons manufacturers, felonious arms dealers, and the military—a situation that compromises our security and undermines our democracy. Pulling back the curtain on this secretive world, Andrew Feinstein reveals the corruption and the cover-ups behind a range of weapons deals, from the largest in history—between the British and Saudi governments—to the guns-for-diamonds deals in Africa and the imminent \$60 billion U.S. weapons contract with Saudi Arabia. He exposes in forensic detail both the formal government-to-government trade in arms and the shadow world of illicit weapons dealing, and lays bare the shockingly frequent links between the two. Drawing on his experience as a member of the African National Congress who resigned when the ANC refused to launch a corruption investigation into a major South African arms deal, Feinstein illuminates the impact this network has not only on conflicts around the world but also on the democratic institutions of the United States and the United Kingdom. Based on pathbreaking reporting and unprecedented access to top-secret information and major players in this clandestine realm, The Shadow World places us in the midst of the arms trade's dramatic wheeling and dealing—from corporate boardrooms to seedy out-of-the-way hotels—and reveals the profound danger and enormous financial cost this network represents to all of us.

The Economics of Offsets Stephen Martin,2014-07-16 Despite their growth, outlined and analysed in this book, the claims and counter-claims that surround offsets have not been subjected to critical scrutiny by economists. This book fills that gap. It brings together a team of internationally renowned specialists to document and evaluate the economic impact of several countries' offset policies. In addition, the papers by industrialists and defence officials yield further insights which help to tease out which of the claims made for offsets do not stand critical scrutiny.

Women At Work In The Gulf Munira A. Fakhro,2013-10-28 First published in 1990. This book grew out of a dissertation written during 1983-86 and is an analysis of the social policies needed to facilitate women's entry into the labour force. Pushing the need and recognition that it is essential now for Gulf women to move beyond their domestic activities by taking an active role and by providing leadership to ensure that they have access to the opportunities and benefits of economic development. The tables presented here are entirely new in the sense that data were selected from 1941-81 censuses. Other statistics were drawn from different sources reflecting developments during the 1980s.

Saudi Arabia Geoff Simons,2016-01-20 Simons describes the current human-rights situation in Saudi Arabia with reference to corruption, the treatment of dissidents, the penal system, the suppression of women, slavery and other aspects. A detailed history, from pre-Islamic times to the present, is provided, with attention to the influence of Mohammed, the Saudi ascendancy, the role of the West, the discovery of oil and the wars in the region. Finally attention is given to the various (economic/political/religious) problems that today face the Saudi regime and to the Saudi response.

Anthropomorphism in Islam Livnat Holtzman,2018-03-07 Through a close, contextualized, and interdisciplinary reading in Hadith compilations, theological treatises, and historical sources, this book offers an evaluation and understanding of the traditionalistic endeavours to define anthropomorphism in the most crucial and indeed most formative period of Islamic thought.

Great Caliph French (goodword) Saniyasnain Khan,2014-12-31 Les grands Califes Les quatre premiers califes de l’Islam, Abou Bakr, ‘Oumar ibn Al-Khattab, ‘Outhman et ‘Ali, qu’Allah soit satisfait d’eux, sont connus comme « les Califes bien guidés ». Ces pieux Califes faisaient partis des compagnons les plus proches du Prophète Mouhammad . Leur vie est une source d’inspiration et de motivation pour tous les croyants de toute époque. Ces Califes, bien qu’ils fussent à la tête d’un immense empire, avaient des vies très simples, comme des hommes ordinaires. Leur conduite exemplaire et leur haute moralité est un magnifique exemple pour nous. Nous leur sommes extrêmement reconnaissants pour leur sacrifice et leur dévouement qui ont aidé à la préservation du Coran et à la propagation de l’Islam dans le monde. Un jour, le Prophète dit à propos des compagnons : « Mes compagnons sont comme des étoiles. Si vous suivez l’un deux, vous serez guidés sur le droit chemin. » A la lumière de cette parole du Prophète, l’histoire des compagnons est un guide et une source d’élévation spirituelle pour nous tous. Nous devons tirer des leçons de leurs vies, afin que nous puissions être guidés sur le droit chemin, le chemin qui plaît à Dieu, le Tout-Puissant. Au nom de Dieu, le Tout-Miséricordieux, le Très-Miséricordieux.

Geology of Iraq Saad Z. Jassim,Jeremy C. Goff,2006 This book is written by 16 experienced geologists with first hand knowledge of the geology of Iraq and deals with all aspects of the country's geology. The aims of the book are to present a synthesis of the geological history of Iraq and a description of its economic geology, and to provide a key reference for both students and professional geologists. It updates the text books of Buday (1980) and Buday and Jassim (1987). The book includes previously unpublished information collected during the regional geological surveys of Iraq carried out from 1970 to 1990. Each chapter has been extensively edited to create a concise text. The stratigraphy of Iraq is placed within a consistent tectonostratigraphic framework.

The Creation Everett Jenkins,2003 The major monotheistic religions of the world--Judaism, Christianity and Islam--have certain elements in common, particularly in

their scriptures concerning the beginnings of life and the early history of human beings. This shared beginning is compellingly worth further study. Common ground and common threads can only help a dialogue between people of different faiths. This reference work could be a tool toward greater understanding of other faiths and focuses on the story of the creation of the universe and of humans. Part One traces the development of the earth and its inhabitants from a scientific viewpoint so that the humanistic perspective may be contrasted with the scriptural accounts to follow. Part Two features an introduction to the Tanakh, information on the Torah, and what is known about its authors, and other influences on the Jewish religion, followed by actual scriptures from the Torah from the creation through the destruction of the Tower of Babel. Then a section each is devoted to an explanation of the Catholic, Protestant and Fundamentalist Christian interpretations of these stories, citing scripture as appropriate. Part Three affords a Muslim perspective with excerpts from the Sirah that refer to events and characters from the early chapters of Genesis. The appendices are rich--various chronologies of similar events based on the different scriptures, tables of contents for the various holy books, tables presenting summaries of a particular perspective on a subject or comparisons between two perspectives and much more.

Islamic Fundamentalism in Egyptian Politics NA NA,2016-04-30 Among Egyptian fundamentalist groups, one of the most important ideological debates has been whether the Egyptian regime or the West should be the primary target of action. This classic work is updated to analyze how internal debates, coupled with the government's defeat of the insurgency through violence and cooptation, led many Egyptian radical fundamentalists to join Usama bin Ladin and focus on attacking America. It includes excerpts and an analysis of the writings of Ayman al-Zawahiri, a veteran leader of the Egyptian movement who became Usama bin Ladin's right-hand man and helped plan the September 11, 2001 attacks on the United States.
