Thomas William Francis Gann

**The Tree of Life** Dwain Hosker,2011-07-01 Our loving Father God almighty told me to write this book and He told me to write it quickly because time is short. I tried to tell Him that He could easily find someone else that would be better for the job but He was not interested in my advice. This book is a testimony of the many pitfalls I found my self in; along my journey to our loving Father God almighty's great throne room. To be in the presents of pure radiant love; is to find the life that we were created to live. God commissioned me to tell His children that He wants all of us to come into His throne room and stay there while we are still in this world. Many would ask is such a thing possible? others would ask how? Discover the how, as our loving Father God Almighty, Jesus Christ, and Holy Spirit, reveals it to you through this word that they reveled to me. For I write to you from the throne room of they most high and reveal some of the things they showed me being in third heaven.

**The Tree of Life: Symbol of the Centre** Roger Cook,1974

**The Tree of Life and the Holy Grail** Sylvia Francke,Thomas Cawthorne,1996 The publication in 1982 of the controversial bestseller The Holy Blood and the Holy Grail convinced many readers that there is no spiritual truth in the legends of the Holy Grail. After chancing on the book, and unimpressed with its conclusions, Sylvia Francke was inspired to begin her own Grail quest, the result of which is this carefully researched and revealing work, coauthored with Thomas Cawthorne -- a powerful and convincing refutation of The Holy Blood and the Holy Grails materialistic thesis. Drawing upon many sources -- such as the legend of Parsival, the Gnostic Gospels, Rosicrucian texts, and the seminal research of the scientist and educationalist Rudolf Steiner -- the authors focus upon the mysterious village of Rennes-le-Chateau in southern France, suggesting a solution to its secret. Among much else, they also touch upon the significance of the Cathars, Knights Templars, and King Arthur. The quest for the Grail today is an empowering path of self-transformation, they conclude, and a renewal of the true Grail mysteries at the end of the twentieth century is urgently required.

**The Gift of Presence** Caroline Welch,2021-05-04 A practical, user-friendly guide for women seeking focus and calm in the midst of life's storms. Overwhelmed by the demands of family, work, and multiple responsibilities, many women find themselves feeling scattered, and distracted. In this eye-opening book, co-founder and CEO of the Mindsight Institute, Caroline Welch takes readers on a mindfulness journey to help them de-stress and cultivate inner peace. According to Welch, you do not need countless hours sitting in silence to be more present in your life--the key is to practice mindfulness wherever you are and whenever you can. The Gift of Presence guides readers in developing four innate capacities we all possess that will allow us to become more resilient and centered in our lives--even when life is throwing all that it has at us: Presence: the ability to remain firmly in the present moment; to be fully aware of what's happening as it's happening. Purpose: the personal meaning that gets us going and gives direction to our lives. Pivoting: an openness to change that allows you to switch direction if that is what is needed. Pacing: the awareness that it is impossible to do everything we want or need to do all at once; the ability to take life one step at a time. This life-changing book reveals that you already hold in your hands the keys to a more harmonious life--you simply need to look within.

**Slave Species of the Gods** Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA • Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species, first proposed by Zecharia Sitchin in The 12th Planet • Shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA • Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6,000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200,000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold--thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA--which explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with "god," concluding with the epic flood--a perennial theme of ancient myth--that wiped out the Anunnaki mining operations. Tellinger shows that, as humanity awakens to the truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe.
