The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

New Year Resolution Weight Loss Kaya Jasper,2018-06-23 Have you ever made a New Year's resolution to lose weight and get fit and NOT followed through? Don't feel bad if you have, in fact nearly all New Year's fitness resolutions to get in great shape get abandoned not long after they are begun. I should know I've certainly been there and experienced the same sense of let down myself. The good news is that it doesn't have to be that way. Follow the ideas in this Guide and take action to implement them and this can be the year that sees a new you - an ideal lean and healthy you - emerge. I've used them successfully and seen them totally transform lives for the better. They work as long as you WORK them! You may be wondering if it's worth the effort. After all, for most of us, while getting into shape is rewarding it's often not easy. I'd argue, if you want a really high, extreme quality of life being fit isn't a WANT, but a NEED. Here's a few reasons why, to ponder before you begin. I hope they'll help motivate you. You Will Be MUCH More Attractive. Let's face it, a big part of getting fit is its visual appeal. If we are married, in a relationship or single it's always nice to know we look good isn't it? Being in shape not only sends out the right message about who we are externally, but for those who think about it for a minute it also tells a compelling story about who we are internally. The type of person who cares about themselves, who has self-discipline and is far from lazy. These qualities are universally attractive. Making yourself more attractive for the New Year and beyond is a great reason to take fitness seriously. You Will Become Healthier, Fast. Our health is our true wealth. Cutting down our body fat, getting in better cardiovascular shape and making smart diet changes will do wonders for our health. Barring any accidents these moves are nearly certain to add years to your life. They are certain to add quality of life either way. Your Energy Levels will Sky Rocket. Having more abundant energy stores carries over into nearly every area in our lives. This means being more productive at work without having to get strung out on four cups of coffee ever morning, to being able to get back into that old sport you love, to being able to play with the kids without needing to take a nap on the couch. Believe me, the important people in your life will appreciate the difference nearly as much as you do! You Will Beat Depression. Now you may not be suffering from feeling down often, but the hard truth is that many out of shape people do. Getting fit is the best cure for melancholy! Forget taking drugs or mumbo jumbo therapy - carving out a new fit you for the New Year is quite likely to chase depression away for good. Try it and see. These are much closer to NEEDS than WANTS aren't they? There's plenty more too, these are just some of the more common things that come to mind. Now, Let's get you Fit for the New Year!

Finance and Accounting for Energy Engineers S. Bobby Rauf,2021-01-08 Understanding finance and accounting principles is important in interfacing and conducting business with accountants, financial analysts, and members of upper management. In a relatively simple and easy-to-understand manner, this book familiarizes professionals with decision making skills founded on financial calculations and quantitative analysis. It covers finance and accounting ratios and other metrics; income statements, balance sheets, cash flow, and working capital concepts; inventory concepts; life cycle, period, direct, and indirect costs; and energy performance contracting. Each chapter concludes with a list of questions or problems for self-assessment and knowledge affirmation purposes. Answers to the questions are at the back of the book.

Year of Yoga Kassandra Reinhardt,2022-06-21 Align your yoga practice to the natural world with a holistic approach to movement, breath, and meditation for winter, spring, summer, and fall. Incorporate the mindful practice of yoga into your daily life with ten-minute morning sequences, affirmations, and evening meditations. Learn how to awaken your body and how to give it the rest it needs with yoga sequences, meditations, and breathing exercises designed specifically for the different cadences of the year. Year of Yoga includes holistic practices for relieving daily stresses and tensions. For difficulty sleeping, find relief with a restorative yin yoga sequence. If mornings are hard for you, wake your body and focus your mind with grounding Hatha sequences. To lift your spirit, read one of the 80 affirmations that illuminate the beauty and possibility each of the four seasons presents. For anyone looking to quiet their busy mind, Year of Yoga is the book for you. 22 YOGA SEQUENCES: Each sequence includes step-by-step poses and descriptions, complete with photos 80 AFFIRMATIONS AND BREATHING EXERCISES: Calm your mind and restore your body with 20 affirmations and a breathing exercise for each season of the year VIDEO-GUIDED PRACTICES AND MEDITATIONS: All twenty-two yoga sequences and each of the evening meditations is accompanied by a QR code linking you to a video recording of author Kassandra Reinhardt guiding you through your practice or meditation CONNECT WITH NATURE: Fully immerse yourself to the rhythms of nature with daily, lunar, and seasonal rituals CREATE RITUALS: Add consistency and routine rituals to your daily life to help boost your mood, improve productivity, and increase happiness

Shaping Church Law Around the Year 1000 Greta Austin,2009 Drawing upon new manuscript discoveries, the author shows how Burchard tried to create a new text that would address these

problems. He carefully selected and compiled canons from earlier collections and then went on to tamper systematically with the texts he had chosen. By doing so, he created a book of church law that appeared to be based on indisputable authority, that was internally consistent and that was easy to apply through logical extrapolation to new cases. The present study thus provides a window into the development of legal and theological reasoning in the medieval West, and suggests that, thanks to the work of ambitious bishops, the flowering of law and theology began far earlier, and for different reasons, than scholars have heretofore supposed.--BOOK JACKET.

Entrepreneurial Innovations, Models, and Implementation Strategies for Industry 4.0 Ravindra Sharma,Geeta Rana,Shivani Agarwal,2022-10-06 This book explores the link between entrepreneurship and innovation, providing an understanding of the latest developments in the field. It explores numerous challenges to entrepreneurship, such as failures and socio-economic issues, and presents concepts, models, and implementation strategies for Industry 4.0. Industry 4.0 presents unique challenges and unique opportunities to entrepreneurs. Social, techno, and women's entrepreneurship, among other business sectors and domains, are discussed in this new context. This

book highlights the strategies of successful start-up organizations, focusing on the most critical factors for starting a new enterprise in today's business environment, and provides efficient remedies for common problems. These strategies and solutions will help build a sustainable development model for developing economies and contribute to a global awareness of the entrepreneurship environment. Entrepreneurial Innovations, Models, and Implementation Strategies for Industry 4.0 is both a practical guide for new entrepreneurs to establishing start-ups and an enlightening collection of research for graduate students, postgraduate students, scholars, and academicians across all disciplines. Policymakers will also benefit from this book's understanding of entrepreneurial ecosystems and their applications.

The Crown of the Year Jane Mossendew, 2005-05-15 There has been a long association between the discipline and joy of gardening and that of prayer and modern spiritual life. But hitherto these have not been explored in any depth. Flowers, trees, herbs and shrubs are shown to be intrinsically linked to our spirituality. In good times and in troubled times, the garden, whatever its size, even a window-box collection of one's own favourite herbs, can evoke calm and provide an oasis for contemplation and healing. This third book falls neatly into three sections - From Easter to Pentecost, Ordinary Time (including Trinity Sunday, Corpus Christi, the Immaculate Heart of Mary) and Solemnities and Saints' Days - from St Catherine of Sienna to St Augustine of Hippo. Jane Mossendew's books are entirely original. Some aspects of her work can be found in other books but here she unites a profound knowledge of gardening and nature's cycle with the rhythm and variations of the ecclesiastical and spiritual year. The author has a special knowledge of particular plants and their associations with religious festivals and the saints. It is small surprise therefore that sales of Jane Mossendew's books are increasing and that there is a television series in prospect.
