Anne Enright

Yesterday's Weather Anne Enright,2009-06-16 Named a Best Book of the Year by the New York Times Book Review, the San Francisco Chronicle, Kirkus Reviews, and the Washington Post Book World. From the Booker Prize-winning author of *The Gathering* and *Actress*, this is a collection of sharp, unpredictable short fiction about people struggling to connect in an increasingly disconnected world. *Yesterday's Weather* shows us a rapidly changing Ireland, a land of family and tradition, but also, increasingly, of organic radicchio, cruise-ship vacations, and casual betrayals. An artisan farmer seethes at the patronage of a former Catholic-school classmate, now a successful restaurateur; a bride cheats on her rich husband with an old college friend—a madman who refuses his pills, disappears for weeks on end, and plays the piano like a dream. These and other stories make up a volume that is “astonishing: moving, emotionally accurate, sly, and laugh-out-loud funny” (O, The Oprah Magazine). “A dazzling collection.” —Time Out

Yesterday's Weather Anne Enright,2009-09-01 From the author of the Man Booker Prize— winning literary sensation and long-time Globe and Mail bestseller *The Gathering*, comes a dazzling, seductive new collection of stories. “Anne Enright’s style is as sharp and brilliant as Joan Didion’s; the scope of her understanding is as wide as Alice Munro’s; . . . her vision of Ireland is as brave and original as Edna O’Brien’s.” — Colm Tóibín A rich collection of sharp, vivid stories of loss and yearning, of the ordinary defeats and unexpected delights that grow out of the bonds between husbands and wives, mothers and children, and intimate strangers. Bringing together in a single elegant edition new stories as well as a selection of stories never before published in Canada (from her UK published *The Portable Virgin*, 1991), *Yesterday's Weather* exhibits the unsettling, carefully drawn reality, the subversive wit, and the awkward tenderness that mark Anne Enright as one of the most thrillingly gifted writers of our time.

Yesterday's Weather Anne Enright,2010-12-23 First publication of a new collection of the Booker Prize-winner's stories including those from her most recent hardback 'Taking Pictures'. In *Yesterday's Weather*, Booker Prize-winning author Anne Enright presents a series of deeply moving stories about women stirred, bothered, or fascinated by men they cannot understand, or understand too well. Enright's characters are haunted by the ghosts of the lives they might have led - lit by new flames, old flames, and flames that are guttering out. A woman's one night stand is illuminated by dreams of a young boy on a cliff road, another's is thwarted by an swarm of somnolent bees. A pregnant woman is stuck in a slow lift with a tactile American stranger, a naked mother changes a nappy in a hotel bedroom, and waits for her husband to come back from the bar. This collection includes some of Enright's best loved stories as well as her latest works. These are sharp, vivid tales of loss and yearning, of surrender to responsibilities or to unexpected delight; all share the unsettling, dislocated reality, the subversive wit and awkward tenderness that have marked Anne Enright as one of our most thrillingly gifted writers.

Thunder & Lightning Lauren Redniss,2015-10-27 Note: This eBook file contains many richly detailed full-color images and makes use of unconventional page layouts. Because of this, readers will be required to zoom in on each page to read the text and see the finer detail of the artwork. [It has not been optimized for devices that display only in black and white.] From the National Book Award finalist Lauren Redniss, author of *Radioactive*, comes a dazzling fusion of storytelling, visual art, and reportage that grapples with weather in all its dimensions: its danger and its beauty, why it happens and what it means. WINNER OF THE PEN/E. O. WILSON LITERARY SCIENCE WRITING AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE, KIRKUS REVIEWS, AND SHELF AWARENESS Weather is the very air we breathe—it shapes our daily lives and alters the course of history. In *Thunder & Lightning*, Lauren Redniss tells the story of weather and humankind through the ages. This wide-ranging work roams from the driest desert on earth to a frigid island in the Arctic, from the Biblical flood to the defeat of the Spanish Armada. Redniss visits the headquarters of the National Weather Service, recounts top-secret rainmaking operations during the Vietnam War, and examines the economic impact of disasters like Hurricane Katrina. Drawing on extensive research and countless interviews, she examines our own day and age, from our most personal decisions—Do I need an umbrella today?—to the awesome challenges we face with global climate change. Redniss produced each element of *Thunder & Lightning*: the text, the artwork, the covers, and every page in between. She created many of the images using the antiquated printmaking technique copper plate photogravure etching. She even designed the book's typeface. The result is a book unlike any other: a spellbinding combination of storytelling, art, and science. Praise for *Thunder & Lightning* “[An] aesthetically charged and deeply researched account . . . a wild rainstorm of a book, pelting the reader with ideas and inspiration.”—*Nature* “A gorgeous and illuminating illustrated study of weather in all its tempestuous variety . . . Redniss's combo of fact, folklore, and vibrant etched copperplate prints enthralls.”—*O: The Oprah Magazine* “Eerily beautiful . . . Contains plenty of scientific explanation (including more than a few nods toward global warming), but also far-flung personal stories that illuminate the beauty, wonder and chaos inherent in the elements.”—*The New York Times* “Magical . . . Redniss has . . . shown us how human beings live with nature—fighting, coexisting, taming, predicting via leech barometer and radar and intuition.”—*The New York Times Book Review* “[A] twenty-first-century genius . . . The reader willing to put herself fully in Redniss's hands will be rewarded with a delicious feeling of being enveloped by a phenomenon that eclipses the chiming trivialities of daily life.”—*Elle* “Redniss is one of the most creative science writers of our time—her combination of beautiful artwork, reporting, and poetic prose brings science to life in ways that words alone simply cannot.”—Rebecca Skloot “Redniss combines her own dual punch of expressive art and impressive erudition to give an entirely new take on all that happens above our heads.”—Adam Gopnik “A strange and wonderful thing, the work of a first-class mind that refuses to submit to any categories or precedent.”—Dave Eggers

Storm Surge Adam Sobel,2014-10-14 Was Sandy a freak of nature, or the new normal? On October 29, 2012, Hurricane Sandy reached the shores of the northeastern United States to become one of the most destructive storms in history. But was Sandy a freak event, or should we have been better prepared for it? Was it a harbinger of things to come as the climate warms? In this fascinating and accessible work of popular science, atmospheric scientist and Columbia University professor Adam Sobel addresses these questions, combining his deep knowledge of the climate with his firsthand experience of the event itself. Sobel explains the

remarkable atmospheric conditions that gave birth to Sandy and determined its path. He gives us insight into the science that led to the accurate forecasts of the storm from genesis to landfall, as well as an understanding of why our meteorological vocabulary failed our leaders in warning us about this unprecedented weather system—part hurricane, part winter-type nor'easter, fully deserving of the title Superstorm. Storm Surge brings together the melting glaciers, the warming oceans, and a broad historical perspective to explain how our changing climate and developing coastlines are making New York and other cities more vulnerable. Engaging, informative, and timely, Sobel's book provokes us to think differently about how we can better prepare for the storms in our future.
