We Are Not Alone Dirk Schulze-Makuch,David Darling,2011-03-01 Life on Mars exists but we are too timid to accept the facts Life on Mars exists but are we brave enough to accept the facts? Extraterrestrial life exists and there’s evidence to prove it The question ‘are we alone?’ has haunted the human race for centuries. In this compelling and controversial work, Dirk Schulze-Makuch and David Darling argue that we already know the answer: no. Abundant extraterrestrial life is astrobiological fact and there is evidence to prove it. Far from existing light-years away in the outer reaches of space, it’s on our very doorstep. From methane oceans on Titan to advanced organic molecules on Mars, Schulze-Makuch and Darling contend that microbial life is a near certainty both in the Solar System and beyond. Using the latest scientific data, including from the Phoenix probe, which landed on Mars in 2008, We Are Not Alone stands to truly revolutionize our perception of our place in the universe.

Our deepest desire is for you to know that you are not alone. We are with you. Although we desperately wish we didn't have a reason to, we lovingly welcome you to our community of sister-mothers of loss. Let us wrap you in love and be a light in the darkness of grief.

We Are Not Alone Kristen Lamb,2010-07-06 Forward written by NY Times Best-Selling Author and Co-Creator of Who Dares Wins Publishing Bob Mayer I wished there had been a step-by-step guide for writers on how to not only do it technically, but do it content-wise. This book is the answer to that wish. Social Media is more popular than ever. As society becomes more and more technologically advanced, people are seeking new ways to interact. Humans are social creatures. Relationships and community are vital to our survival and our mental and emotional health. Writers, published and unpublished, fiction and non-fiction are hearing words like platform and brand with increasing frequency as the publishing paradigm shifts into the 21st century. The world around us is changing faster than ever, and publishing is certainly not immune. There are more opportunities for a new author today than there has been in the entirety of human history. Yet, the flip side of that reality is, with thousands and thousands of authors with books and blogs, how can a writer ever hope to stand apart let alone succeed? This book will show you how. There are countless social media experts, but Kristen's system is specifically designed to meet the unique needs of a writer. Take charge of your future today. You have great books to write, and don't have time for rookie mistakes that can cost you years of rebuilding your name, brand, and platform. Kristen's method is simple, effective, and helps you harness that same creativity you apply to your writing and harness it to build you social media platform. Best part is you don't even have to be a computer expert or know anything about sales. This system is designed to change the writer's approach, not the writer's personality. And the best part is you have help. Remember, We Are Not Alone.
