The Boys Who Cycled Europe Alex Pavitt,2014-04-10 Alex and Tom are just schoolboys who do not have much knowledge about cycling. What they do have is a huge summer holiday to fill. Armed with some overly packed bicycles and no training they waved bye to their parents and set off to cycle 3000 kilometres around Europe, to raise money for the MS society. They aimed to cycle their bikes through 8 countries, meeting new people and seeing the world from a different perspective. However with crashes, infestations, and being eaten alive they are faced with a much harder task in order to make it home. Alex and Tom managed to raise over 3000 for the MS Society during their cycle. This book will enable them to carry on this effort, as 1 from every book will be donated to the MS Society.

Spatial Interrogatives in Europe and Beyond Thomas Stolz,Nataliya Levkovych,Aina Urdze,Julia Nintemann,Maja Robbers,2017-08-07 The extant generalizations about the grammar of space rely heavily on the analyses of declarative sentences. There is a need to check whether these generalizations also hold in the domain of interrogation. To this end this book analyzes data from some 450 languages (including non-standard varieties). The focus is on paradigms of spatial interrogatives such as English where, whither and whence and their internal organization. These paradigms are checked for recurrent patterns of morphological mismatches (such as syncretism) and different degrees of complexity (e.g. the number of segments). The data-base consists of a large parallel literary corpus (Le petit prince and translations thereof) which is complemented by further sources of information such as descriptive grammars. The data are analyzed from a synchronic perspective. However, diachronic issues are addressed unsystematically, too. It is shown that the distribution of phenomena which characterize paradigms of spatial interrogatives are subject to areal-linguistic factors. This is the first typological study of spatial interrogatives. It provides new insights for students of the grammar of space, morphological paradigms, and language typology.

Me, My Bicycle and I: Part One: Through Europe F. M., 2020-02-19 Did you know you can travel with a bicycle and not the biggest wad of cash? Did you know that a bicycle is a mode of transport as well as a leisure vehicle? Did you know you can travel through your own country for free using a bicycle? What's that I hear you saying, 'it costs too much money!' What if I were to tell you to bring a tent as well? That would be the accommodation and transport sorted. How does that sound? 'Food?' You ask. Keep it simple; carbohydrates. Water is water, you will find that along the way, plenty. 'Time,' I hear you calling. Take the time off. Save it for the weekends. You have four directions you can go, north, south, east and west. What else would you realistically need? I believe everyone can take advantage of the sweet momentum of the bicycle. That is what I have done though I was not confined to a single country... Read and you will find out more... Maybe I reached your country... There were twenty countries in total... Maybe one belonged to you!

A Dictionary of European Anglicisms Manfred Gorlach, 2005-06-16 A Dictionary of European Anglicisms documents the spread of English in Europe. It provides the first exhaustive and up-to-date account of British and American English words that have been imported into the main languages of Europe. English, which imported thousands of words from French and Latin (mainly after 1066), is now by far the world's biggest lexical exporter, and the trade is growing as English continues to dominate various fields ranging from pop music to electronic communication. Several countries have monitored the inflow of anglicisms and some have tried to block it. But language, as lexicographers have always found and as this book demonstrates once more, respects neither boundary nor law. The dictionary not only shows which words have been exported where, but how the process of importation can change a word's form and function, sometimes subtly, at others remarkably as in the transformation of painkiller to Bulgarian 'jack of all trades'. The book provides a systematic description of the lexical input of English into Icelandic, Norwegian, Dutch, German, Russian, Polish, Croatian, Bulgarian, French, Spanish, Italian, Romanian, Finnish, Hungarian, Albanian, and Greek. Each entry has a brief definition of the loan word, followed by information on its history and distribution; variations in its spelling, meaning, and pronunciation; its route of transmission if not direct from English; its degree of acceptance and usage restrictions; and its native equivalents and derivatives. Grids showing distribution patterns across Europe accompany many of the entries. The Dictionary of European Anglicisms is a scholarly tour de force [French: imported early nineteenth century] and the result of a prodigious research effort across Europe masterminded and directed by Manfred Gorlach. It is a unique resource for comparative analysis and the study of linguistic variation and change. It will fascinate linguists and word-watchers of all persuasions.

Traveler's Guide to European Camping Mike Church, Terri Church, 1999 Almost 250 campgrounds including at least one in virtually every important European city are described in detail, directions are given for finding them, and in many cases information about convenient shopping, entertainment, and sports opportunities is included. This book will tell you how to rent, lease or buy a rig in Europe or ship your own from home. It contains the answers to questions about the myriad details of living, driving, and camping in Europe.

Human Rights of Roma and Travellers in Europe Council of Europe, 2013-04-01 In many European countries, the Roma and Traveller populations are still denied basic human rights and suffer blatant racism. They remain far behind others in terms of educational achievement, employment, housing and health standards, and they have virtually no political representation. Anti-Gypsyism continues to be widespread and is compounded by a striking lack of knowledge among the general population about the history of repression of Roma in Europe. In times of economic crisis, the tendency to direct frustration against scapegoats increases - and Roma and Travellers appear to be easy targets. This report presents the first overview of the human rights situation of Roma and Travellers, covering all 47 member states of the Council of Europe. Its purpose is to encourage a constructive discussion about policies towards Roma and Travellers in Europe today, focusing on what must be done in order to put an end to the discrimination and marginalisation they suffer.

The Rough Guide to Spain Simon Baskett, 2004 Presents a guide to traveling in Spain, providing an introduction to the country with advice on planning a visit, and discussing the attractions, restaurants, accommodations, shopping, and entertainment venues of Madrid and other cities and regions. Includes maps and photographs.

Caravans Hege Høyer Leivestad, 2020-05-19 In Caravans, Hege Høyer Leivestad opens the caravan door to understand how daily life is organised among Britons and Swedes who have relocated, either seasonally or permanently, to mobile homes. Leivestad investigates how the caravan

and campsite come to fit and challenge conventional domestic ideals, and how the static mobile caravan can nurture ideas of freedom even when it is standing still. With sensitivity and an awareness of the humour and pathos of the lives of her subjects, Leivestad closely examines the shaping of the European camping phenomenon and its day-to-day pleasures and pains, ranging from friendships ties to conflictive bingo nights, from nosy and noisy neighbours to fake fireplaces and rotten awning floors. As the first ethnographic study of caravan life in Europe, Caravans offers a refreshing take on contemporary mobility debates, showing how movement can best be understood by taking a detailed look at certain specific mundanities in material culture. This rich and topical ethnography is a must-read for students of anthropology, human geography and architecture, and for those with an interest in the possibilities and perils of a life on wheels.
